

## Community Council – November 16<sup>th</sup>

- Review of minutes
  - The minutes from the last meeting were approved
- School Improvement Plan
  - Neesha reviewed Sage cohort data looking at the details of percent proficient, median growth percentile of all students and the median growth of students who were below proficient.
  - CRT data was presented. In our CRT data we are scoring above the district average.
  - Our data went down a little bit in the last school year from the previous year. We had anticipated that with some staffing changes and some new teachers coming on board.
- School Business
  - Drop off/pick up concerns
    - There are safety concerns with drop off and pick up. It was suggested that we put something out near the cross walk to remind people to slow down. Another idea was to have 6<sup>th</sup> graders help in the mornings at the crosswalk. Signs to help the flow of the drop off lane would be helpful; some parents are stopping in the drop off lane.
    - Neesha will send out information to parents after the Thanksgiving break.
    - It was suggested that we do a week where we have parent volunteers and teachers out in the morning to train people about how to drop off.
  - Online report cards were discussed and everyone felt ok about them.
  - The new format of ILPs was discussed. Parents liked it but still want to be able to discuss concerns at conferences
  - The musical was discussed. The parents requested that we not schedule our musical at the same time as the junior high schools.
  - Building security was discussed, we want to make sure that everyone is checking in and wearing a badge. Parents are asked to show identification when their children are checking out.
- The meeting was dismissed. There will be no meeting in December. Our next meeting will be January 18<sup>th</sup>.
- DIBELS data will be presented at the next meeting and we will watch the training video.
