

Community Council
March 26th, 2020

Due Covid we didn't hold our last Community Council. The following email was sent to the CC on March 26th.

Subject: Community Council

Hey guys,

I am writing you this email to let you know that we have been advised not to hold Community Council Meetings the rest of the year. At the last meeting, we went over the proposed school improvement plan. Nothing has changed from that meeting, however we didn't have enough parents attend to approve the document.

I have attached the School Improvement Plan that needs to be approved and I need to have everyone sign the signature page. Will you please look over the plan, if you have questions, please email me. If you are ok with the plan, please come to the school and sign the signature page. If you are able to come in today or tomorrow that would be ideal. (in case we get put on a "shelter in place" over the weekend).

I will put the signature page between the two doors with a paper copy of the School Improvement Plan if you want to look at it again.

Note: All members came and signed the SIP with no objections.
