

Sun Prairie West High School EXECUTIVE SUMMARY

PROVIDED BY FINDORFF

2850 Ironwood Drive • Sun Prairie, WI 11.12.2020

Overview

Progress continues to be made as crews push forward on all aspects of Sun Prairie West High School. Landscaping is nearing completion at the public portion of the site. Earthwork crews continue to shape the Sports fields on the North end of the site.

Masons have completed the Gymnastics gym walls. They have also already made great strides on the Auxiliary gym.

Multiple crews are focusing their efforts on the Learning Communities. Steel stud crews have begun their work on the Western portion of the academic wing. Structural steel, decking, and joists continue to be placed on the Eastern half. Concrete pours continue to follow steel crews.

Update...

- Masonry walls at gyms, locker rooms
- Landscaping and seeding along Blue Heron Blvd, Ironwood Drive and Legacy Way is nearing completion for the season
- Concrete slab pours in the Learning Communities (through November)
- Structural steel and decking at the East end of the Learning Communities

Looking Ahead...

- Roofing, exterior framing, insulation at Learning Communities
- Precast concrete walls at the Performing Arts Center (PAC), mid to end of November
- Steel Stud Framing in the Learning Communities (Mid-November)

Mason crews working on the Auxiliary Gym walls

DID YOU KNOW?

Concrete crews place a plastic yellow vapor barrier beneath slab on grade concrete pours. This vapor barrier helps to resist the exchange of moisture between the ground and building to keep the slab relatively dry.
