

The **business function** of Bury Grammar School is integral to educational success. We are committed to overseeing the School in a financially astute way which is respectful of the fact that our parents work hard to send their children to BGS. We are committed to maintaining fees at as low a level as possible while preserving a high quality educational offering and will continue to develop non-fee income through business opportunity. We will review the role of scholarships and build on the success of our fund-raising initiatives for bursaries. Widening access to BGS through our bursary programme so that as many young people as possible in the local area can benefit from a grammar school education remains a key aim for the School – this altruistic approach is in keeping with our traditions and founders’ values.

**Sustainability** is central to Bury Grammar School’s success. We wish to play a proactive role in supporting the development of the local community and environment, develop our work as an award-winning eco-school and support pupils and colleagues to hone the skills needed to enjoy long and successful careers. Ensuring the longevity of the School through wise leadership, governance and innovation will also be key.

An excellent school needs **excellent leadership**. Over the past three years, more than fifty colleagues have had leadership training at BGS and the effects on the school and on those colleagues’ careers have been tremendous. We recognise that nimble, astute, courageous and forward-looking leadership and governance with integrity at their heart are needed now more than ever; our leadership teams – comprised of both teachers and support staff - are committed to enhancing our skills and being open and ready for the challenges and opportunities presented by the 2020s.

The good **reputation** of Bury Grammar School is not in doubt: its illustrious history is well known, and our plans for the future are ambitious and optimistic ones which pay due respect to our traditions. Pupils and staff past, current and present benefit in all sorts of ways from their association with a school of standing. As we move on from our 450th year, we will continue to celebrate the School’s history and lead regional and national projects to cement Bury Grammar School’s reputation as one of the leading schools in the UK.
