

The Wellington School Maths Challenge

27 November 2010

Q1. In a game, a red counter is worth 6 points, a green one is worth 7 points and a blue one 8 points. Jill has eight red counters, seven green and six blue. How many points does Jill have?

A.
141

B.
143

C.
145

D.
147

E.
149

Q2. Today is Saturday, which has 8 letters. What is the mean number of letters in the other six days? Remember to add all the numbers together and then divide by six.

A.
less than 6

B.
6

C.
between
6 and 7

D.
7

E.
more than 7

Q3. Jack travels three miles East, then two miles South, then four miles West and finally two miles North. To return to the start, Jack needs to travel:

A.
One mile
East

B.
Two miles
East

C.
One mile
West

D.
Two miles
West

E.
One mile
North

Q4. I start with £40. I add $\frac{1}{2}$ and then add $\frac{1}{2}$ of this new value. How much do I have now?

A.
£60

B.
£70

C.
£80

D.
£90

E.
£100

Q5. Which of these does not equal 2010 ?

A.
 10×201

B.
 15×134

C.
 5×402

D.
 6×335

E.
 30×70

Q6. How many right angles can a quadrilateral not have?

A.
0

B.
1

C.
2

D.
3

E.
4

Q7. It is midnight. What time will it be in 100 hours and 100 minutes?

A.
1.00am

B.
5.00am

C.
5.40am

D.
1.40am

E.
9.40pm

Q8. What is the difference between the area and perimeter of this rectangle?

A.
3

B.
6

C.
9

D.
12

E.
15

Q9. On which day of the week will New Years Eve fall this year?

A.
Friday

B.
Saturday

C.
Sunday

D.
Monday

E.
Tuesday

Q10. Using at most three coins I can make every amount up to 17p. I cannot make 18p. What is the first amount that cannot be made using at most four coins?

A.
19p

B.
23p

C.
28p

D.
29p

E.
38p

Q11. What fraction of the numbers under 51 are prime?

A.
 $\frac{3}{10}$

B.
 $\frac{7}{25}$

C.
 $\frac{8}{25}$

D.
 $\frac{17}{50}$

E.
 $\frac{2}{5}$

Q12. Continue this sequence: $207 \div 9$ $192 \div 8$ $175 \div 7$ $156 \div 6$...

A.
 $140 \div 5$

B.
 $216 \div 8$

C.
 $116 \div 4$

D.
 $182 \div 7$

E.
 $125 \div 5$

Q13. Six friends meet to play tennis. There is only one court and they all want to play singles against each other. How many matches will be played?

- A.** 10 **B.** 12 **C.** 13 **D.** 14 **E.** 15

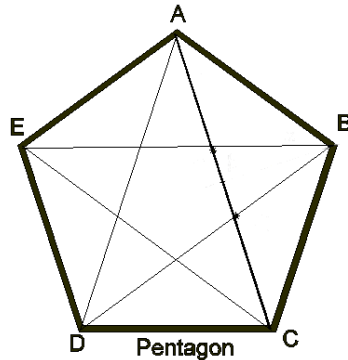

Q14. The angles in a triangle always add up to 180° . I measure two angles in a triangle. Which triangle is not isosceles?

- A.** 40° 40° **B.** 70° 40° **C.** 50° 60° **D.** 20° 80° **E.** 20° 140°

Q15. Mr Payne has a special arrangement with his local shop. Every time he spends one pound, they give him 20p back. Maths Magazine costs £1. He has £25. How many copies of the magazine can he buy?

- A.** 25 **B.** 26 **C.** 28 **D.** 30 **E.** 31

Q16. A pentagon has five diagonals.

How many diagonals does a hexagon have?

- A.** 6 **B.** 7 **C.** 8 **D.** 9 **E.** 10

Q17. I add together all of the numbers from one to twenty. What is the answer?

A.
210

B.
201

C.
200

D.
190

E.
180

Q18. A piece of paper is 40cm long and 20cm wide. I fold the paper in half and in half again and so on. How many folds will I have made when the paper has an area of 25cm² ?

A.
4

B.
5

C.
6

D.
8

E.
12

Q19. I start with $4x+3$. I add 5 and divide by two. What is the answer?

A.
 $4x+4$

B.
 $2x+8$

C.
 $2x+4$

D.
 $4x$

E.
 $4x+8$

Q20. In a game of noughts and crosses X has gone first and filled in the top left corner. Where should the first O be placed if they are going to stop X from winning?

X		
A.	B.	
C.	D.	E.

**The following five questions are not multiple choice.
Write your answers on the answer sheet in the spaces provided.**

Q21. 16 and 36 are both square numbers. They have a difference of 20.
Which two square numbers have a difference of 40?

Q22. Only one number, when spelt out, has its letters in reverse alphabetical order. What is this number?

Q23. I roll two fair six-sided dice. I add the two scores together. What is the most likely total score?

Q25. There are six horses in a race. How many different results for first, second and third could there be?

Wellington School

Maths Challenge 2010

School Name _____

Pupils Names _____

In the spaces provided, write the one letter you think answers each question.
One mark will be awarded for each correct answer.

1. |__| 6. |__| 11. |__| 16. |__|

2. |__| 7. |__| 12. |__| 17. |__|

3. |__| 8. |__| 13. |__| 18. |__|

4. |__| 9. |__| 14. |__| 19. |__|

5. |__| 10. |__| 15. |__| 20. |__|

For the last five questions write your answers in the spaces provided.

21. |_____| |_____|

22. |_____|

23. |_____|

24. |_____|

25. |_____|
