Minerva M. Pena, President,
Board of Trustees Members, and
Citizens of the Brownsville Independent School District
Brownsville, Texas 78521

Dear Ms. Pena, Board Members and Citizens:

State law requires that all public school districts publish within one-hundred fifty days of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards (GAAS) by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Brownsville Independent School District (District) for the fiscal year ended June 30, 2019.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Cascos and Associates, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimated made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the

audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special need of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. Information related to this single audit, including a schedule of federal financial assistance, the independent auditors' reports on the internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included in the Single Audit Section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basis financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The District is a political subdivision of the State of Texas and governed and operating as an independent school district under the laws thereof. The District is located entirely in Cameron County, Texas and serves the City of Brownsville, part of the Township of Rancho Viejo and some unincorporated areas of the county. The District, originally chartered by the State in March 1915, now encompasses ninety-five square miles.

The District is governed by a seven-member Board of Trustees (Board) composed of District residents, who are elected by voters of the District. The Board is responsible for managing and governing the schools of the District, including adopting goals and objectives for the District, reviewing and acting on policies, adopting an annual budget, levying and collecting District taxes, hiring school personnel as recommended by the superintendent, approving salary schedules, adopting District policies and setting directions for curriculum, and reporting to the public on the District's progress. The District's Superintendent of Schools and staff assist the Board with financial and administrative matters and oversee the day-to-day operations of the District.

Mission Statement

Brownsville Independent School District will graduate students who are prepared to excel in higher education and successfully pursue career opportunities in a changing global society by maximizing resources to ensure equitable opportunities for all students.

Strategic Objectives

The Brownsville ISD students will:

- Graduate
- Meet and/or exceed state and national standards of education
- Graduate college ready and prepared to excel in their respective career choices
- Become productive, responsible, and contributing members of society

Vision

Our primary purpose of improving lives through a quality education is driven by an unrelenting determination to graduate all of our students and prepare them for success in higher education. Our ideology is reflected in our fundamental beliefs, commitments and core values that guide us in our daily practices.

Core Commitments

The District's commitments to achieve the mission are:

- Design and implement an effective and accountable ECE-Post Secondary Model that focuses on STEM/STEAM (Science, Technology, Engineering, Arts and Math) careers and life-long learning opportunities
- Ensure a safe, healthy, caring environment for everyone in our school District
- Provide for the effective, social, emotional, and cognitive development of the learner
- Strengthen partnerships and communication among parents, community and schools
- Provide appropriate facilities to implement and support our current and future instructional program
- Recruit, retain, and provide research based professional development to District personnel

Core Beliefs

The District's commitment to this mission is driven by seven fundamental beliefs around which the District has built its governing policies and daily practices:

- Everyone in our community has inherent values, talents and strengths
- High expectations, perseverance, and a strong work ethic are essential in fostering higher achievement and success
- Students are our number one resource
- Academic success nurtures lifelong learning
- Everyone flourishes in a safe and healthy educational environment
- The success of each student, educator, and family is vital for the future growth and sustainability of our community
- The community and families share responsibility for the development and mentoring of our students

Strategic Parameters

The District has adopted six core values that exemplify the seven fundamental beliefs in action. In order to achieve our goals and attain our commitment, we expect the following:

- Will not tolerate educational apathy

- Will not compromise the efficient and effective use of resources
- Will make educational and financial decisions based upon what is best for student success
- Will foster a positive environment that recognizes and celebrates diversity
- Will ensure a safe and healthy learning environment with a commitment to excellence
- Will ensure that the instructional programs from early childhood to post-secondary are our highest priority

The District provides a full range of educational services appropriate to grade levels pre-kindergarten through twelve for its approximate 44,402 students. These include regular and enriched academic education, special education for students with disabilities, occupational education, bilingual instruction for those with limited English proficiency, and specialized instruction for disadvantaged students. These basic programs are supplemented by additional offerings in the fine arts and athletics. In addition, the District provides for community and adult education by offering a wide variety of academic and occupational courses.

District Accomplishments – The District’s accomplishments continue to be recognized by local, state, and national publications. Most recently, the District was recognized for the following achievements:

- Brownsville ISD received an “A” rating under the Texas Accountability Rating System for the 2018-2019 school year. The individual campuses who received “A” ratings were Benavides Elementary, Breeden Elementary, Burns Elementary, Castaneda Elementary, Champion Elementary, Egly Elementary, Gallegos Elementary, Garden Park Elementary, Gonzalez Elementary, Keller Elementary, Longoria Elementary, Martin Elementary, Ortiz Elementary, Paredes Elementary, Pullam Elementary, Putegnat Elementary, Resaca Elementary, Sharp Elementary, Southmost Elementary, Yturria Elementary, Brownsville Early College High School, Veterans Memorial Early College High School, and Lincoln Park School.
- Fourteen Brownsville ISD schools were named by the Educational Results Partnership to the Texas Honor Roll. The 2018-2019 Honor Roll schools were Brite Elementary, Burns Elementary, Garden Park Elementary, Keller Elementary, Ortiz Elementary, Paredes Elementary, Pena Elementary, Pullam Elementary, Yturria Elementary, Oliveira Middle School, Stillman Middle School, Brownsville Early College High School, Hanna Early College High School, and Veterans Memorial Early College High School.
- Hudson Elementary and Putegnat Elementary Schools were named 2019 National Blue Ribbon Schools by the United States Department of Education. Hudson Elementary received the “Exemplary Achievement Gap Closing” while Putegnat Elementary received “Exemplary High Performing” standing.
- 39 Brownsville ISD high school students qualified for the 2019 State Music Education Association.

- The Oliveira Middle School band was named as one of three winners from the Southwestern Division of the nation and was selected as the 2018-2019 Dr. William P. Foster Project – Award of Excellence / National Winner.

- The Lopez Early College High School Barbershop Chorus, *UPBEAT!*, were awarded Plateau A Champions and received an “Outstanding” rating at the Barbershop Harmony Society’s Next Generation Junior Chorus Invitational at the Grand Ole Opry in Nashville, Tennessee.

- The 2018-2019 Hanna Early College High School Football team were 32-6A Regional Semi-Finalists who competed at the Alamodome in San Antonio, Texas.

- Aiken Elementary, Benavides Elementary, Gonzalez Elementary, Hudson Elementary, Resaca Elementary, Manzano Middle School, and Stillman Middle School were the 2019 Destination Imagination Texas State Competition teams that advanced to the Global Finals Competition in Kansas City, Missouri.

- Garden Park Elementary were awarded the Division-State Champion title and won 2nd place in the Primary Division at the State Chess Tournament.
- The Skills USA Architecture team from Veterans Memorial Early College High School won 1st place in the Mechanical Drafting, Bronze in Architectural Drafting, Top Ten Quiz bowl team, and were also the 1st place team at the Skills USA Texas State Competition.
- More than \$119 million in scholarship offers were rewarded for the graduating class of 2019.

Budgetary Controls - The annual budget serves as the foundation for the District’s financial planning and control. The District’s fiscal year begins July 1st and ends June 30th. The budget is initially prepared under the direction of the Superintendent. The Board reviews the budget during workshops conducted from January through May. The final budget is required by State law to be adopted by June 30th. The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board.

Activities of the general fund, the debt service fund, child nutrition service fund (which is included in the general fund) and designated purpose funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by major functional category.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund and the child

nutrition service fund, this comparison is presented on Exhibit G-1, as required supplementary information. The TEA required budget versus actual comparison for the child nutrition program can be found on Exhibit J-4 and the debt service fund comparison is presented on Exhibit J-5.

Factors Affecting Financial Conditions

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Population – Brownsville is the largest city in Cameron County. It has a population of 183,392 residents and has experienced growth of 32,092 people between the 2000 and 2010 according to the US Census Bureau. The demographics of Brownsville’s population can be summed up as young and growing. The median age is 30.3 years. 31.7% of all persons in the City are younger than 18 years of age. Only 11.3% are 65 years or older.

The breakdown of our student membership as of October 2019 is as follows:

• Early Ed	69
• Pre-K	3,598
• K-5	16,919
• 6-8	9,156
• 9-12	<u>13,436</u>
TOTAL	43,178

The projected average daily attendance (ADA) for 2019-2020 is approximately 39,237.38.

Local Economy – The District serves the City of Brownsville, a portion of the Township of Rancho Viejo, and several unincorporated areas in Cameron County including Cameron Park and San Pedro. Brownsville is the population center of the expanding lower Rio Grande Valley. The area economy is largely driven by manufacturing reflecting its location across from Matamoros, Mexico and extensive transportation network (including the Port of Brownsville).

The city’s low cost of living and doing business support continued economic growth, and a growing healthcare and education sector, including a branch of the University of Texas, contributes to the stability of the region. Space X Exploration is currently in testing phases. The Space X Project will have a positive economic impact in Brownsville and other Rio Grande Valley communities, in employment, tourism, and in higher education. The City experienced a decrease in the number of building permits between the 2018 and 2019 fiscal years. However, the City continues to experience an increase in property values and retail sales tax for the 2019 fiscal year indicating continued economic growth in the area.

State Economic Outlook – The 86th Texas Legislature has been phrased as the “session of the teacher” by addressing school finance reform and by bestowing pay raises. House Bill 3 was the

highlight of the 86th Legislature and granted billions of dollars to public schools, including full day pre-K and dyslexia, dual language funding, in addition to increasing the basic allotment. HB3 also contained \$5.2 billion for property tax compression as well as \$6.2 billion for resources for schools. Once HB 3 was approved, it omitted the ranking of educators across districts and excluded compensation tied to student testing. Another subject touched by HB 3 was the increase of compensation for educators. The final version of HB 3 calls for districts to spend 30% of the revenue received from HB 3 on compensation. 75% of that figure will need to be used on teachers, librarians, counselors, and nurses. Classroom teachers who have more than five years of experience will receive priority. The remaining 25% may be used to pay compensation for non-administrative, full time staff members. Senate Bill 12 was also passed to increase contributions in the Teacher Retirement System. The 86th Legislature was productive, suggesting a positive future economic outlook due to school finance and tax reforms.

Bond Funding Update – There were no bond funding updates for the 2018-2019 fiscal year.

Financial Polices – As one of the 22 largest school districts in the State of Texas, the District is constantly monitoring its financial resources, expenditures and planning for the future. Student enrollment drives the District’s planning process along with management’s commitment to providing the best education available to our students. The District’s strategic planning is an ongoing process. The District continually studies different areas of cost containment as they strategically view the demographics of the District and ongoing economic climate.

Child Nutrition Program – The Child Nutrition Program continues to enhance its operations. As a result of the administrative team’s continued effort to streamline operations, increase meal participation, cut costs and increase revenue, the program experienced a profitable year and was able to maintain a positive fund balance. The District continued with breakfast in the classroom and the supper program in the 2018-2019 school year. The District’s top priority is to ensure that each child receives a healthy breakfast, lunch, and dinner.

Perez Elementary students participating in a food tasting sponsored by the Food & Nutrition Services Department

The District serves breakfast, lunches, and dinner to students through the Texas Department of Agriculture School Nutrition Program and the Child and Adult Care Food Program. The District is reimbursed based on the number of free, reduced, and paid breakfast and lunches served as well as on the number of after-school dinners served. Each year, the federal reimbursement rates increase. The rates increased by 2.6% for breakfast, 2.5% for lunch, and 2.4% for supper from the 2017-2018 to the 2018-2019 school year.

Long-term Financial Planning – Growth in the District’s tax base has continued but at a much slower pace, averaging 1.9% annual growth from fiscal years 2011-18. The District’s fiscal

2018 taxable assessed valuation (TAV) increased marginally to \$5.8 billion. Enrollment decreased by 2.6%. The District consolidated three elementary schools for 2019-2020. The District continues to maintain extended day enrichment programs at all 34 elementary campuses and open enrollment at all 34 elementary campuses in an effort to stabilize enrollment and continues to reduce staffing through attrition as a cost saving measure. Typical for the border area, the area's unemployment rate is high (6.3% annual) and income levels are low. Projected membership for school year 2019-20 is expected to reach 43,355.

The District's maintenance and operations tax rate for tax year 2018-2019 is \$1.152500 per \$100 valuation and the Debt Service rate is \$0.1125 for a total tax rate of \$1.26500. The additional funding for was used for upgrading District facilities.

State funding for the general fund is about 73% of the total general fund revenue. House Bill 3 increased overall state funding for school districts. Federal funding is expected to decrease slightly due to decreased availability of federal program funding. Grant funding plays an important role as a resource to supplement regular funding and to expand programs needed for greater academic achievement.

Interest Rates – The increase in interest rates positively affected the interest earnings of the District. The federal fund rate continues to increase and is projected to continue to have a slight increase in investment earning.

Awards

Association of School Business Officials International (ASBO) – At June 30, 2018, the District compiled and submitted a Comprehensive Annual Financial Report (CAFR) for consideration for ASBO's Certificate of Excellence in Financial Reporting. The District was notified that it had been awarded the certificate on April 16, 2019. This was the ninth time the District had submitted its financial statements for this award.

Government Finance Officers Association (GFOA) - At June 30, 2018, the District compiled and submitted a Comprehensive Annual Financial Report (CAFR) for consideration for GFOA's Certificate of Achievement for Excellence in Financial Reporting. The District was notified that it had been awarded the certificate on June 10, 2019. This was the ninth time the District had submitted its financial statements for this award.

Schools FIRST - Senate Bill 218 of the 77th Legislature (2001) authorized the implementation of a financial accountability rating system for Texas school districts. For the 2017-18 school year, the most recent school year rated, the District achieved the Texas Education Agency's highest rating of "Superior" with a score of 100 in the School FIRST program. The purpose of the Schools FIRST (Financial Integrity Rating System of Texas) is to ensure that school districts are held accountable for the quality of their financial management practices. The system is designed to encourage Texas school districts to improve performance in the management of their financial resources in order to provide the maximum allocation possible for direct instructional purposes.

Acknowledgements – The preparations of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the various departments within the Chief Financial Officer's cluster. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Brownsville Independent School District
Brownsville, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Brownsville Independent School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Brownsville Independent School District's Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Brownsville Independent School District as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison, pension and OPEB information on pages listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brownsville Independent School District's basic financial statements. The introductory section, combining statements, required TEA schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining statements, required TEA schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements, required TEA schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2019, on our consideration of the Brownsville Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Brownsville Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Brownsville Independent School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

As management of the Brownsville Independent School District (the "District"), we are providing readers of the District's financial statements this narrative overview and analysis of the District's financial activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the transmittal letter and the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined Net Position as reflected in the government-wide Statement of Net Position was \$99,730,163 at June 30, 2019. The Net Position continues to be impacted with the fifth year of GASB Statement No. 68, Accounting and Financial Reporting for Pensions by the net amount of \$151,214,356 and with the second year of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions by the net amount of \$199,574,976. See Exhibit A-1
- The District's Statement of Activities reflects an increase in Net Position for Governmental Activities in the amount of \$7,991,783. This is a result of expenses being less than the \$543,256,479 generated in taxes, state aid, investment earnings, and other revenues such as charges for services and federal grants. See Exhibit B-1.
- As shown on the Statement of Activities, the property tax revenue increased \$1,496,938 or 2.13% from the prior year due to a \$203,280,756 increase in property values. The 2018-2019 total tax rate is \$1.265 per \$100 assessed valuation. See Exhibit B-1
- The General Fund reported a fund balance in the governmental funds financial statements this year of \$201,596,037. Approximately 41% of this total amount, \$ 83,615,675 is available for spending at the District's discretion (Unassigned Fund Balance). See Exhibit C-1.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statements of Net Position and the Statement of Activities. These statements provide information about the activities of the District as a whole and present a long-term view of the District's property and obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations with more detail when compared to the government-wide statements by providing information about the District's significant funds. The governmental funds statements show how general government services were funded / financed in the short-term as well as what remains for future expenditures. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The proprietary funds statements reflect the activity related to services provided to parties within the District for worker's compensation fund and for the self-funded insurance programs. The remaining statements, Fiduciary statements, provide financial information about the activities for which the District acts solely as a trustee or agent for the benefit of those outside the government. The notes to the financial statements provide narrative explanations needed for full disclosure in the government-wide statements or the fund financial statements. The combining statements for non-major governmental funds and the combining statements for Internal Service Funds contain even more information about the District's individual Special Revenue and Permanent Funds and Internal Service Funds, respectively. The Statement of Changes in Assets and Liabilities for the agency fund is also included. These combining statements are additional supplementary information and not required by the Texas Education Agency (TEA). The sections labeled Required TEA Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using the funds supplied in accordance/compliance with the terms of the grants.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The primary objective of the analysis is to show whether the District has improved as a result of this year's activities. The Statement of Net Position includes all of the District's assets and liabilities as well as deferred outflows and deferred inflows of resources, while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the fiscal year. These financial statements apply the accrual basis of accounting used by most private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is paid or received. The District's revenues are divided into one of the following categories: (1) those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the District and grants provided by the U.S. Department of Education to assist children with disabilities or children from disadvantaged backgrounds, these revenues are categorized as program revenues. (2) Revenues provided by the taxpayers or by the TEA in equalization funding processes, these are categorized as general revenues. All the District's assets are reported whether they serve the current year or subsequent years. All liabilities are also reported regardless of when they will be paid, current or future years.

These two statements report the District's net position and its changes. The District's Net Position (the difference between the assets plus deferred outflows of resources and the liabilities plus deferred inflows of resources), provides one measure of the District's financial health. Over time, increases or decreases in the District's net position is an indicator of whether its financial health is improving. To fully assess the overall health of the District, nonfinancial factors such as changes in the District's average daily attendance, its property tax base and the condition of the facilities should be considered as well.

The District's government-wide net position has improved as evidenced by the increase in government-wide net position. However, the average daily attendance (ADA) continues to decline. Enrollment decline in the district has been driven by a combination of an increase charter school presence, declining birth rates and some population loss from new residential development occurring in the city of Brownsville but outside of district boundaries. Due to this decline in attendance, the District has done a consolidation of three elementary schools for fiscal year 2019-2020 and continues to assess facilities and staffing allocations to ensure that the students' needs are best served.

While the District's property tax base had increased in recent years, the state funding methodology minimizes the benefit of additional increases in taxable property. Foundation School Program state funding, which is the District's largest portion of state funding, is based on property value so as the property value increase the state funding will decrease. The Instructional Facilities Allotment and the eligible Debt Allotment also decrease with increases in property values.

The District's governmental activities are presented in the Statement of Net Position and the Statement of Activities. All of the District's basic services are reported as governmental activities; including instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services and general administration. Property taxes, tuition, fees, and state and federal grants finance these activities.

**BROWNSVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

Reporting the District's Funds

Fund financial statements

The fund financial statements provide detailed information about the District's most significant *funds* - not the District as a whole. Laws and Contracts require the District to establish funds to account for grants received. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes. The District's Administration establishes many other funds to help it control and monitor activities.

- *Governmental funds* - Most of the District's basic services are included in governmental funds. The funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and they report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the governmental fund financial statements. All of the District's activities for its governmental funds are reported in Exhibits C-1 and C-3.

- *Proprietary funds* - Services for which the District charges users/customers a fee. Proprietary funds, like the government-wide statements provide both long-term and short-term financial information. There are two types of Proprietary Funds, Enterprise Funds and Internal Service Funds. Currently, the District does not have any Enterprise Funds. The District, however, does have two (2) Internal Service Funds. They are Fund 753-Self-Funded Insurance (United Health Care) and Fund 792-Self Funded Workers Compensation. We use Internal Service funds to report activities that provide supplies and services for the District's other programs and activities. The District's combined activities for its Internal Service Funds are reported in Exhibits D-1, D-2 and D-3. These activities are also reported individually for each Internal Service Fund in Exhibits H-3, H-4 and H-5.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for certain funds. One example is for money raised by student activities. Money raised by student activities is recorded within the District's Agency Funds. The District is also responsible for other assets that because of a trust arrangement can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in the funds are used for their intended purposes. All of the District's fiduciary activities are reported in Exhibit E-1, Statement of Fiduciary Net Position and Exhibit E-2, Statement of Changes in Fiduciary Fund Net Position. We exclude these resources from the District's government-wide financial statements because the District cannot use the resources to finance its operations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As mentioned earlier, Net Position is one indicator of a government's financial position. In the case of Brownsville ISD, the District's assets and deferred outflows exceeded liabilities and deferred inflows by \$99,730,163 for the year ended June 30, 2019.

The District's net position is comprised of the following elements as illustrated in Table 1.

**BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

Total Net Position	<u>99,730,163</u>	<u>91,738,380</u>

At approximately 228% of total net position, Net Investment in Capital Assets is the largest portion of the District's net position. This is where the District reflects land, furniture, equipment and vehicles, net of accumulated depreciation and any related debt. The District uses these Capital Assets to provide services to its students, teachers and staff. These assets are not readily available for spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**BROWNSVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

Restricted net position makes up 28.44% of total net position. It represents balances for which external constraints have been placed and includes balances for debt service, capital projects, grants and campus activities.

Unrestricted net position is the portion of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements and it represents about -157% of total net position.

Changes in Net Position

The District’s revenue sources for fiscal year 2019 and fiscal year 2018 are illustrated in the Chart below. State Aid made up the largest portion of the revenue, followed by Operating Grants & Contributions, and then by Property Taxes.

District Sources of Revenue

The District’s changes in net position for the fiscal years ended in June 30, 2019 and 2018 are summarized on Table 2. As shown on the District’s Statement of Activities, the net position of the District’s governmental activities increased by \$7,991,783 for the fiscal year ended June 30, 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

The District's total Governmental Activities Revenues are \$543,256,479, a 19.7% increase of \$89,356,131 from the prior year. The largest increases were in Operating Grants & Contributions, a 312% increase and in Grants & Contributions (Not Restricted), a 76% increase. The increase is a result of the District adopting GASB statement No. 75 in fiscal year 2018. The adoption required some adjustments in that year that resulted in negative revenue for operating grants and contributions on the Statement of Activities.

The expenses for governmental activities totaled \$535,264,696 a 43.28% increase of \$161,688,202 from the prior year. The largest increases were in Instruction and Media Services, Instructional and School Leadership, Student Support Services, Food Services and General Administration.

THE DISTRICT'S FUNDS

As the District completed the year ended June 30, 2019, its governmental funds (as presented in the Balance Sheet) reported a combined fund balance of \$211,849,576. Included in this year's \$13,680,806 total decrease in fund balance is a decrease of \$14,436,272 in the District's General Fund and an increase of \$755,466 in the Debt Service Fund

Total Revenues in the General Fund decreased \$331,798, a 0.10% change from FY 2018 to 2019.

- Total Local and Intermediate Sources Revenue increased \$4,059,209. This is a result of \$1.9M increase in current tax collections and \$2.2M increases in Investment revenue
- State Program Revenues decreased \$7,316,736 mainly as a result of decreases in student enrollment and attendance.
- Federal Program Revenues increased \$2,925,729. This is a result of receiving two Shars Cost Report Settlement Payments in this fiscal year. Shars had been behind and school districts were receiving the cost report settlements every 3 years instead of the policy schedule of every two years. They have finally caught up

Total Expenditures in the General Fund increased \$28,208,858 as compared to the previous year. The increase is due mostly to \$3.7M increases in Instruction, \$3M increases in Student (Pupil) Transportation, \$5.9M increases in Principal & Interest on Long-Term Debt and \$22.2M increases in Facilities Acquisition and Construction.

The Fund Balance of the General Fund decreased \$ 14,436,272 from the prior year, primarily due to two transfers, one for \$13.67M to the Insurance Internal Service Fund (753) and a \$1.25M to the Debt Service Fund. The district is taking corrective measures to eliminate the deficit in the Insurance as per TEA recommendation.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, The School Board of Trustees amended the District's budget several times. All budget amendments are categorized into four areas: (1) Carryover Funding, (2) New/Additional Funding, (3) Categorical Fund Balance, and (4) Reallocation.

The total operating revenue budget was \$471,118,825 and finished the year with a budget of \$474,039,059. The total operating expenditure budget was \$471,118,825 and finished the year with a budget of \$581,258,711. This increase of \$110,139,886 was due to various necessary budget adjustments including increases due to Carryover Purchase Orders, drawdowns from Career & Technology and Bilingual designated fund balances, the transfer to Insurance Fund and Acquisition and Construction projects.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The District had investments of \$409,380,616 net of depreciation, in a broad range of capital assets, including land, buildings and improvements, furniture and equipment, and vehicles. This amount represents a net increase (including additions, deductions, and depreciation) of \$15,100,096 over last year. (See Table 3) Refer to Note E in section IV of the Notes to the Financial Statements for more detailed information on capital assets.

DEBT

As of June 30, 2019, the District had \$124,779,200 in bonds outstanding (the “Bonds”). The Bonds of the District are rated “AA-” by Fitch and “Aa3” by Moody’s.

More detailed information about the District’s Long-Term Debt is presented in Note F: Long-Term Obligations and the following Supplemental Schedules;

- Schedule 14: Outstanding Debt by Type
- Schedule 15: Direct & Overlapping Debt (General Obligations Bonds)
- Schedule 16: Computation of Legal Debt Margin
- Schedule 17: Ratio of Net General Obligation Bonded Debt to Estimated Actual Value and Per Average Daily Membership.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

The District’s assessed property tax value for the 2019-2020 fiscal year is \$6,309,147,101 compared to the assessed value in the 2018-2019 fiscal year of \$5,877,214,172 which translates to a property value appreciation of \$431,932,929 or 7.35%.

The budget for the 2019-2020 fiscal year was based on a projected ADA (Average Daily Attendance) of 39,237 a decrease of 1,299 from the prior year. The budget for the 2018-2019 fiscal year was based on a projected ADA of 40,536.

**BROWNSVILLE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

The District’s Programs and Services included in the General Fund are primarily supported by local and state sources of revenue. The General Fund revenue sources are presented below:

**Table 4
Brownsville Independent School District
Proposed 2020 General Fund Operating Revenue Budget**

		Proposed Budget 2019 - 2020
Local Sources	\$	74,242,795
State Sources		389,137,874
Federal Sources		49,797,982
Total Operating Fund Revenues	\$	513,178,651

The District, through its ongoing review process, has continued and will continue to assess all areas of the District’s operations.

The District recognizes and addresses the unique cultural lifestyle of South Texas with a broad selection of activities and programs for all students. These programs range from the Brownsville Early College High School to support programs for students with special needs. Limited English speaking students are served through the Bilingual or English as a Second Language program. The District has become a leader in the state by offering the designated Early College High School program to all seven BISD high schools. The Early College High School Program introduces college level learning to secondary students, with the opportunity to earn not only a high school diploma, but up to 60 college credit hours at no cost to the student or their families.

Brownsville ISD is committed not only to working with students, but also with the community as well. The district supports Campus Care Centers to serve the unmet medical needs of school age children and adolescents. Because no student deserves to go through the school day hungry, BISD features Community Eligibility Provision. This plan provides breakfast and lunch free of charge to all students regardless of income or ability to pay.

There is pride in the progress BISD has made in recent years with regard to state mandated testing. Better scores have translated into more seniors fulfilling degree requirements and graduating career-ready and college-connected. Academically, both the Southern Association of Colleges and Schools and the Texas Education Agency have accredited Brownsville public schools.

STATEMENT OF NET POSITION

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	211,849,576
1 The District uses internal service funds to charge the costs of certain activities, such as self-insurance and workers' compensation, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to (decrease) net position.		(4,448,265)
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$718,064,845 and the accumulated depreciation was (\$323,784,325). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position. Note: Beginning Balances related to TRS are NOT included in this amount.		192,598,604
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2019 capital outlays and debt principal payments is to increase net position.		56,036,110
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a Deferred Resource Outflow in the amount of \$74,943,472, a Deferred Resource Inflow in the amount of \$16,329,231, and a net pension liability in the amount of \$151,214,356. This resulted in a (decrease) in net position.		(92,600,115)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a Deferred Resource Outflow in the amount of \$16,277,939, a Deferred Resource Inflow in the amount of \$67,474,371, and a net PEB liability in the amount of \$199,574,976. This resulted in a (decrease) in net position.		(250,771,408)
6 The 2019 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(21,464,073)
7 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.		8,529,734

 AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2019

EXHIBIT C-4

Total Net Change in Fund Balances - Governmental Funds	\$ (13,680,806)
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and workers' compensation, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to decrease net position.	(1,004,842)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2019 capital outlays and debt principal payments is to increase net position.	56,036,110
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(21,464,073)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to decrease net position.	74,707
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$7,938,881. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in net position totaling \$7,858,794. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by \$10,344,650. The net result is a (decrease) in the change in net position.	(10,263,871)
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$2,321,259. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in net position totaling \$2,329,177. Finally, the proportionate share of the TRS OPEB expense on the plan as a whole had to be recorded. The net OPEB expense decreased the change in net position by \$1,697,524. The net result is a (decrease) in the change in net position.	(1,705,442)

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Brownsville Independent School District (the “District”) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The Board of Trustees (“Board”), a seven-member group, has governance responsibilities over all activities related to educational services within the jurisdiction of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and it complies with the requirements of the appropriate version of Texas Education Agency’s *Financial Accountability System Resource Guide* (the “Resource Guide”) and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care’s fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

A. REPORTING ENTITY

The Board is elected by the public and has the authority to make decisions, appoint administrators and managers, significantly influence operations of the district, and has the primary accountability for fiscal matters. The District is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”) and there are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on the entire District’s nonfiduciary activities with the interfund activities removed. *Governmental activities* include programs supported primarily by grants, state foundation funds and other intergovernmental revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The “charges for services” column include payments made by parties that purchase, use or directly benefit from goods or services provided by a given function or segment of the District. The “grants and contributions” column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function.

Examples include grants through the Department of Education, Department of Health & Human Services and Texas Education Agency. If revenue is not program revenue, it is general revenue used to support all of the District’s functions.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Interfund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Net Position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are nonoperating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims, and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property tax revenue. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable.

Agency Funds utilize the accrual basis of accounting but do not have a measurement focus as they report only assets and liabilities.

D. BASIS OF PRESENTATION - FUND ACCOUNTING

The District reports the following major governmental fund:

1. **General Fund** - is used to account for financial resources used for general operations. This is a budgeted fund and any fund balances are considered resources available for current operations. All revenues and expenditures not required to be accounted for in other funds, are accounted for in this fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. **Debt Service Fund** - is used to account for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
2. **Special Revenue Funds** - are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Normally, unused balances are returned to the grantor at the close of specified project periods.
3. **Capital Projects Fund** - is used to account for proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.
4. **Permanent Funds** - is used to account for donations for which the donor has stipulated that the principal may not be expended and where the income may only be used for purposes that support the District's programs. The District has no permanent funds.

Proprietary Funds:

1. **Enterprise Funds** - are used to account for those operations that are financed and operated in a manner similar to private business. The District has no enterprise funds.
2. **Internal Service Funds** - are used to account for revenues and expenses related to self-funded insurance and workers' compensation provided to employees within the District which are accounted for as internal service funds.

Fiduciary Funds:

1. **Private Purpose Trust Funds** - are used to account for scholarships, which have stipulations for the participants awarded; only the income may be used for a specific purpose.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

2. **Agency Funds** – are used to account for resources held for others in a custodial capacity in an Agency Fund. The District’s Agency Fund is the Student Activity Funds.

E. OTHER ACCOUNTING POLICIES

1. For purposes of the statement of cash flows, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. Inventory is valued at cost (average). The District accounts for school supply and food inventories by using the consumption method whereby expenditures are recognized only when inventory items are used. Maintenance supplies inventory is accounted for by using the purchase method whereby purchases of inventories are recognized as expenditures when the goods are received, and the transaction is vouchered. Reported inventories are equally offset by a fund balance reserve, which indicates that they do not constitute “available spendable resources” even though they are a component of net current assets. Commodity inventory is offset by deferred revenue.
3. Other current assets are prepaid expenses that will benefit periods beyond June 30, 2019. The only prepaid expenses included are for unexpired insurance policy premiums paid by June 30, 2019, and which extend beyond that date. The reported prepaid insurance is equally offset by a fund balance reserve, which indicates that they do not constitute “available spendable resources” even though they are a component of net current assets.
4. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.
5. Capital assets, which include land, buildings, vehicles, furniture & equipment and construction in progress, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Buildings, vehicles and furniture & equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings & Improvements	50
Vehicles	10
Furniture & Equipment	3-15

6. Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided are treated as revenues or expenditures. Transfers In and Transfers Out are netted and presented as a single “Transfers” line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single “Internal Balances” line of the government-wide statement of net position.
7. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first unless unrestricted assets will have to be returned because they were not used.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

8. Accumulated compensatory absences that is expected to be liquidated with expendable available resources is reported as an expenditure and a liability in the Governmental Funds only if they have matured.
9. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statements element, deferred outflows of resources, presents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District only has one item that qualifies for reporting in this category. It is deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statements element, deferred inflows or resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, *unavailable*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

10. Net position represents the differences between assets, deferred outflows (inflows) of resources and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
11. Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond and grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.
12. Sometimes the District will fund outlays for a particular purpose from both restricted (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.
13. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by board resolution by the Board. The Board's commitment may be modified or rescinded by a majority vote in a scheduled meeting. Board commitments cannot exceed the amount of fund balance that is greater than the sum of non-spendable and restricted fund balances since that practice would commit funds that the District does not have. Board commitments must occur before the end of the reporting period with amounts to be determined subsequently.
- **Assigned:** This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board, the Superintendent, or Superintendent's designee.
- **Unassigned:** This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

The order of spending and availability shall be to reduce funds from the listed areas in the following order: restricted, committed, assigned, and unassigned.

14. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. The Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide data base for policy development and funding plans.
15. Compensated absences for the District consist of vacation days not taken during the year are not accumulated and carried over to subsequent years. Local sick leave is however, accumulated, but only paid to the employee upon retirement up to a maximum of 30 days. The estimated amount of sick leave expected to be paid at retirement during the year ended June 30, 2019, is \$766,271, and an accrual has been made. A liability for these amounts is reported in governmental funds only if they have matured, as a result of employee resignation and/or retirement.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" on a basis consistent with GAAP for the General Fund, Debt Service Fund and Food Service Fund (which is included in the General Fund). The District is required to present the adopted and final amended budgeted revenues and expenditures for these three funds. The General Fund Budget report is presented in Exhibit G-1 and the Child Nutrition Program Budget and Debt Service Fund Budget report is presented in Exhibit J-4 and J-5.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 20th the District prepares a budget for the next succeeding fiscal year beginning July 1st. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. Public notice of the meeting must be given at least ten days prior to the meeting.
3. Prior to July 1st, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end. During the year, the budget was amended as necessary.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure functions or object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year-end.
5. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30th, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget.

B. DEFICIT FUND EQUITY

At June 30, 2019, the Insurance Fund has a deficit fund balance of \$11,250,576. The District will be looking on making plan design changes to reduce costs, increase funding through a combination of employee/employer contributions and an infusion of funds. The District is and will continue monitoring its progress to ensure it maintains an acceptable or positive balance or complete elimination of this deficit.

C. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2019, expenditures exceeded appropriations in the following functions as noted:

<u>General Fund Function</u>	<u>Amount</u>
11 Instruction	\$ 1,147,369

III. DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with counterparty's trust department in the District's name in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

At June 30, 2019, the carrying amount of the District's deposits, excluding agency funds, was \$1,635,824 and the bank balance was \$1,524,978. The District's cash deposits at June 30, 2019 and during the year were covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name. The District monitors cash flows regularly when TEA funds are received to ensure that the bank pledges sufficient collateral.

District Policies and Legal Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits – State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial risk for deposits.

Foreign Currency Risk for Deposits – The District limits the risk that changes in exchange rates will adversely affect the fair value of a deposit. At year-end, the District was not exposed to foreign currency risk.

District Policies and Legal Contractual Provisions Governing Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. The policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

The Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

The District's temporary investments at June 30, 2019, are shown below:

Investment Type	Investment Maturities (in years)					Weighted Average Maturity Days
	Fair Value	Less Than 1	1 to 5	6 to 10	More Than 10

Additional policies and contractual provisions governing deposits and investments for the District are specified below:

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Credit Risk – In accordance with state law and the District’s investment policy, investments in mutual funds and investment pools must be rated at least AAA or have an equivalent rating, commercial paper must be rated at least A-1, P-1 or have an equivalent rating, and obligations of states, agencies, counties, and cities must be at least A or its equivalent. As of June 30, 2019, the District’s investments in Lone Star Investment Pool were rated AAAf/S1+ by Standard and Poor’s (S&P), TexPool was rated AAAM by Standard and Poor’s (S&P), Texas Term was rated AAAf by Standard and Poor’s (S&P), and Texas Class/MBIA was rated AAA/m by Standard and Poor’s Ratings Services.

Custodial Risk for Investments – For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All investments held by third parties were fully collateralized and held in the District’s name.

Concentration of Credit Risk – The investment portfolio is diversified in terms of investment instruments and maturity scheduling to reduce risk of loss resulting from over concentration of assets in specific class of investments, specific maturity or specific issuer. As of June 30, 2019, the District had 6% of its investments in certificates of deposits in BBVA compass Bank and Wells Fargo Securities. These certificates of deposit were fully covered by eligible pledged securities. The District had 94% of its investments in TASB investment pools rated AAA as noted above.

Interest Rate Risk – In accordance with state law and the District’s investment policy, the District does not purchase any investments greater than five (5) years for its operating funds.

Foreign Currency Risk for Investments – The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment. At year-end, the District was not exposed to foreign currency risk.

B. PROPERTY TAXES

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1st in conformity with Subtitle E, Texas Property Tax Code. The assessed value of the property tax roll on July 12, 2018, upon which the levy for the 2018-2019 fiscal year was based, as \$5,877,214,172. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1st of the year following the October 1st levy date. Taxes are delinquent if not paid by June 30th. Delinquent taxes are subject to both penalty and interest charges plus 15% delinquent collection fees for attorney costs.

The tax rates assessed for the year ended June 30, 2019 to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$1.152500 and \$0.112500 per \$100 valuation, respectively, for a total of \$1.265000 per \$100 valuation.

Current tax collections for the year ended June 30, 2019 were 94% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of June 30, 2019, property taxes receivable of \$9,353,025 and \$739,548, net of estimated uncollectible taxes of \$280,591 and \$22,186, totaled \$9,072,434 and \$717,362 for the General and Debt Service Funds, respectively.

F. LONG-TERM OBLIGATIONS

General Obligation Bonds – The District issues general obligations bonds for the governmental activities to refund a portion of the outstanding bonds of the District for debt services savings and to pay costs of issuance. General obligation bonds are direct obligations and the full faith and credit of the District. Current principal and interest requirements are payable solely from future revenues of the Debt Service Fund which consists principally of property taxes collected by the District, interest earnings, and State funds. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond indentures.

Total Minimum Rentals	<u>\$ 3,922,130</u>
Rental Expenditures in Fiscal Year 2019	<u>\$ 1,783,773</u>

I. CONTINGENT LIABILITIES

The District participates in a number of grant programs funded by State and Federal Agencies. These programs are subject to compliance audits by the grantor agencies or their representatives.

Audits of all of these programs for the year ended June 30, 2019 have not been conducted. Accordingly, the District's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is involved in various legal proceedings arising from its operations, including investigations into alleged misconduct by certain employees. The ultimate resolution of these matters is pending. Management, in consultation with its attorneys, believes that the outcome of these pending matters will not have a material adverse effect on the District's financial statements or compliance.

J. DEFINED BENEFIT PENSION PLAN

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension benefits are based on statutory provisions of the plan effective for fiscal year 2018. The annual standard annuity is based on the average of the five highest annual creditable salaries multiplied by the years of credited service multiplied by 2.3 percent. For members who are grandfathered, the three highest annual salaries are used in the benefit formula. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on the date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 85th Texas Legislature, General Appropriations Act (GAA) affirmed that the employer contribution rates for fiscal years 2018 and 2019 would remain the same. Contribution Rates can be found in the TRS 2018 CAFR, Note 11, on page 76.

	Contribution Rates	
	<u>2018</u>	<u>2019</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Current fiscal year employer contributions		\$ 9,336,919
Current fiscal year member contributions		\$ 22,934,995
2018 measurement year NECE on-behalf contributions		\$ 14,558,948

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Employers (including public schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions.

Roll Forward - A change was made in the measurement date of the total pension liability for the 2018 measurement year. The actuarial valuation was performed as of August 31, 2017. Update procedures were used to roll forward the total pension liability to August 31, 2018. This is the first year using the roll forward procedures.

The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the Plan. The active mortality rates were based on 90 percent of the RP 2014 Employee Mortality Tables for males and females. The post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables.

The following table discloses the assumptions that were applied to this measurement period.

Valuation Date	August 31, 2017 rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	6.907%
Long-term Expected Rate	7.25%
Municipal Bond Rate as of August 2018	3.69% - Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity index's "20-Year Municipal GOAA Index."
Last year ending August 31 in Projection Period (100 years)	2116
Inflation	2.3%
Salary Increases	3.05% to 9.05% including inflation
Ad hoc Post-Employment Benefit Changes	None

The actuarial methods and assumptions were primarily based on a study of actual experience for the three year period ending August 31, 2017 and were adopted on July 2018.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Discount Rate. The single discount rate used to measure the total pension liability was 6.907%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25% and a municipal bond rate of 3.69%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position was sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2018 (see page 52 of the TRS CAFR) are summarized below:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (6.907%) in measuring the Net Pension Liability. The discount rate can be found in the 2018 TRS CAFR, Note 11, page 78.

	1% Decrease in Discount Rate (5.907%)	Discount Rate (6.907%)	1% Increase in Discount Rate (7.907%)
Proportionate share of the net pension liability:	\$228,218,723	\$151,214,356	\$88,874,754

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a liability of \$151,214,356 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 151,214,356
State's proportionate share that is associated with the District	<u>238,028,862</u>
Total	<u><u>\$ 389,243,218</u></u>

The net pension liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2017 rolled forward to August 31, 2018. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 through August 31, 2018.

At August 31, 2018 the employer's proportion of the collective net pension liability was 0.2747232718%, which was a decrease of -0.0048831869% from its proportion measured as of August 31, 2017.

Changes Since the Prior Actuarial Valuation. Assumptions, methods, and plan changes which are specific to the Pension Trust Fund were updated from the prior year's report. The Net Pension Liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants were updated based on the same experience study.
- The discount rate changed from 8.0 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long term assumed rate of return changed from 8.0 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2019, the District recognized pension expense of \$41,761,265 and revenue of \$23,558,513 for support provided by the State in the Government Wide Statement of Activities.

At June 30, 2019 the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experiences	\$ 942,546	\$ 3,710,203
Changes in actuarial assumptions	54,520,059	1,703,753
Differences between projected and actual investment earnings	-	2,869,184
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	11,541,986	8,046,091
Contributions paid to TRS subsequent to the measurement date	7,938,881	-
Total as of fiscal year-end	<u>\$ 74,943,472</u>	<u>\$ 16,329,231</u>

The net amounts of the employer's balances of deferred outflows and inflows (not including the deferred contribution paid subsequent to the measurement date) of resources related to pensions will be recognized in pension expense as follows:

Fiscal year ended June 30,	Pension Expense Amount
2020	\$ 14,317,970
2021	8,280,013
2022	6,562,847
2023	7,710,750
2024	7,996,050
Thereafter	5,807,730

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may pay premiums to participate in the high-deductible health plans. Eligible Medicare retirees and their dependents may pay premiums to participate in the Medicare Advantage health plans. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes, including automatic COLAs.

The 85th Legislature, Regular Session, passed the following statutory changes in HB 3976 which became effective on September 1, 2017. These are described below under the section "Changes in Benefit Terms".

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage. These new premium rates for retirees with Medicare Part A and Part B became effective January 1, 2018. (See the TRS CAFR page 70 for plan rates effective from September 1, 2016 - December 31, 2017.)

TRS-Care Montly Premium Rates
Effective January 1, 2018 - December 31, 2018

Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act which is 0.75% of each active employee's pay for fiscal year 2018. The following table shows contributions to the TRS-Care plan by type of contributor:

Current fiscal year member contributions	\$	1,936,072
2018 measurement year NECE on-behalf contributions	\$	3,227,441

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree. With Senate Bill 1, 85th Legislature, Regular Session, TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$182.6 million in fiscal year 2018. House Bill 30 of the 85th Legislature provided an additional \$212 million in a one-time supplemental funding for the FY 2018-2019 biennium. One-time supplemental contributions during fiscal 2018 totaled \$394.6 million.

Actuarial Assumptions. The total OPEB liability in the August 31, 2017 actuarial valuation was rolled forward to August 31, 2018. The actuarial valuation was determined using the following actuarial assumptions:

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation that was rolled forward to August 31, 2018:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability	

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2017 Rolled Forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	3.69% Sourced from Fixed Income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2018
Aging Factors	Based on Plan Specific Experience
Election Rates	Normal Retirement: 70% participation prior to age 65 and 75% after age 65
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.50 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

Discount Rate. A single discount rate of 3.69% was used to measure the total OPEB liability. There was an increase of .27 percent in the discount rate since the previous year. The Discount Rate can be found in the 2018 TRS CAFR on page 71. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.69%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (2.69%)	Discount Rate (3.69%)	1% Increase in Discount Rate (4.69%)
Proportionate share of the Net OPEB liability	\$ 237,562,791	\$ 199,574,976	\$ 169,524,166

Healthcare Cost Trend Rates Sensitivity Analysis. The following presents the Net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the Net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Proportionate share of Net OPEB liability	\$ 165,750,268	\$ 199,574,976	\$ 244,122,848

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At June 30, 2019, the District reported a liability of \$199,574,976 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the Net OPEB liability, the related State support, and the total portion of the Net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective Net OPEB liability	\$ 199,574,976
State's proportionate share that is associated with the District	<u>233,931,132</u>
Total	<u>\$ 433,506,108</u>

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

The Net OPEB Liability was measured as of August 31, 2018 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the employer's proportion of the collective Net OPEB liability was 0.3997022177% which was a decrease of -0.0079447234% from its proportion measured as of August 31, 2017.

Changes in Actuarial Assumptions Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period.

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the Total OPEB Liability.
- The discount rate changed from 3.42 percent as of August 31, 2017 to 3.69 percent as of August 31, 2018. This change lowered the Total OPEB liability \$2.3 billion.

Changes in Benefit Terms: The 85th Legislature, Regular Session, passed the following statutory changes which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

For the year ended June 30, 2019, the District recognized OPEB expense of \$12,535,711 and revenue of \$8,509,010 for support provided by the State.

At June 30, 2019 the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows or resources related to OPEB from the following sources:

L. RISK MANAGEMENT

Health Care Coverage

During the fiscal year ended June 30, 2019 the District sponsored a self-funded insurance plan to provide health care benefits to employees and their dependents. The District paid premiums of \$450.00 per month per employee to the Fund. Total employee contributions are required for coverage of dependents.

In accordance with state statute, the District was protected against unanticipated catastrophic individual stop-loss coverage carried through HM Life, a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. The District's current stop-loss policy is in effect from October 1, 2018 to September 30, 2019. Stop-loss coverage was in effect for individual claims exceeding \$350,000.

The contract between the Brownsville Independent School District and the licensed insurer is renewable, and terms of coverage and premium costs are included in the contractual provisions. The latest financial statements available for United Healthcare are filed with the Texas State Board of Insurance, Austin, Texas, and are public records. The following is a summary of the changes in the balances of claims liabilities for the year ended June 30, 2019.

Worker's Compensation Coverage

For the year ended June 30, 2019, the District met its statutory worker's compensation obligations through participation in a Self-Funded Worker's Compensation Plan with TRISTAR Risk Management as the TPA (Third Party Administrator). This plan is authorized by Article 8309, Vernon's Annotated Texas Statutes. The District provides statutory worker's compensation benefits to its employees.

The District's and TRISTAR Risk Management are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the self-insured retention of \$450,000. For the year ended June 30, 2019, the fund purchased excess stop loss coverage from Midwest Employers Casualty Company. The fund uses an independent actuary to determine reserve adequacy and fully funds those reserves.

As of June 30, 2019, the District has reserved for estimated claims incurred, but not reported that do not exceed the required reserves. The liability reported at June 30, 2019 is based on the requirements of Governmental Accounting Standards Board No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred as of the date of the financial statements, and the amount of loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on complex factors such as inflation, changes in legal doctrines, and damage awards, the process used in computing the liability does not necessarily result in an exact amount.

O. USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and/or disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

P. SHARED SERVICES AGREEMENTS

The District is the fiscal agent for a Shared Service Arrangement (“SSA”), which provides special education services to the member districts listed below. The fiscal agent provides all services. The member districts provide the funds to the fiscal agent, who provides all services. According to guidance provided in TEA’s Resource Guide, the District has accounted for fiscal agent’s activities of the SSA in a special revenue fund and will be accounted for using Model 3 in the SSA section of the Resource Guide. Expenditures of the SSA are summarized below:

BROWNSVILLE INDEPENDENT SCHOOL DISTRICT

MISCELLANEOUS STATISTICS

The Brownsville Independent School District has, as part of its efforts to serve all of its students, expanded its educational off campus to serve specific student needs. Some off campus educational programs are staffed with District teachers and teacher assistants.

As of June 30, 2019, it included such programs as follows:

Adult Continuing Education

BISD Adult Education is a department of Brownsville Independent School District and the fiscal agent for Cameron County Co-op, which includes Los Fresnos, Port Isabel, Rio Hondo, San Benito, Santa Rosa and Santa Maria. BISD Adult Education provides services to a multicultural population who are educationally and economically and educationally disadvantaged adults, 17 years and older.

Brownsville Academic Center (BAC)

The BISD Brownsville Academic Center is an alternative education program which has as its goal to provide a meaningful educational experience for assigned students in grades sixth to twelfth in a well disciplined environment that provides consistency, structure, intense academics, and supportive related services so that each student will grow intellectually, socially, emotionally, and psychologically. Upon exiting the program, BISD BAC students will be effective communicators, competent problem solvers, self-directed learners, and responsible citizens.

Brownsville Learning Academy (BLA)

The BISD Brownsville Learning Academy is an alternative educational program that offers academic options for students who want to complete the necessary requirements for obtaining a high school diploma. The BLA is a competency-based learning system with flexible scheduling for young adults who are not successfully completing a traditional high school program. The student's commitment and desire to earn a high school diploma, combined with a caring, positive learning climate, determines the student's degree of success.

Juvenile Justice Alternative Education Programs (JJAEP)

Cameron County Juvenile Probation is required by state law to provide a Juvenile Justice Alternative Education Program (J.J.A.E.P.) to those students who have been expelled by one of the schools in Cameron County and who have been adjudicated, or are pending adjudication, as a delinquent by a juvenile court. In addition, the school districts may, in its discretion, order or, by agreement, refer students who continue to have serious and persistent misbehavior.

Lincoln Park School

Lincoln Park School is a "school of choice" alternative high school. The school serves sixth to twelfth grade students from all middle and high schools in BISD. A variety of programs are offered that meet the individual needs of students in the Teen Parenting Accelerated Program (TPAP). Lincoln Park School has a day care center for birth – 17 month old babies for the enrolled teen parents. The primary goal is to provide an opportunity for teen-aged parents to obtain a high school diploma and develop work skills in their area of interest. The school operates differently from traditional high schools, because of the individualized, self-paced, performance based, accelerated curriculum.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Brownsville Independent School District
Brownsville, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Brownsville Independent School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Brownsville Independent School District's basic financial statements, and have issued our report thereon dated November 18, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Brownsville Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Brownsville Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Brownsville Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Brownville Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. We noted certain matters that we have reported to management of Brownville Independent School District in a separate letter dated November 18, 2019

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Brownsville Independent School District
Brownsville, Texas

Report on Compliance for Each Major Federal Program

We have audited the Brownsville Independent School District’s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Brownsville Independent School District’s major federal programs for the year ended June 30, 2019. Brownsville Independent School District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors’ Responsibility

Our responsibility is to express an opinion on compliance for each of the Brownsville Independent School District’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Brownsville Independent School District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Brownsville Independent School District’s compliance.

Opinion on Each Major Federal Program

In our opinion, the Brownsville Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the Brownsville Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Brownsville Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Brownsville Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF
FEDERAL AWARDS

FOR THE YEAR ENDED JUNE 30, 2019

1. GENERAL

The Schedule of Expenditures of Federal Awards presents the activity of all applicable federal award programs of Brownsville ISD. The District's reporting entity is defined in Note I of the financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the Schedule of Expenditures of Federal Awards.

In accordance with TEA instructions, federal funds for the School Health and Related Services (SHARS) have been excluded from the Schedule of Expenditures of Federal Awards.

Federal funds for R.O.T.C, the Child Nutrition Cluster, the Child and Adult Care Food Program, School Health and Related Services (SHARS), Medicaid Administrative Claims (MAC), and revenues for indirect costs are reported in the General Fund. All other federal programs are accounted for and reported in Special Revenue Funds.

2. BASIS OF ACCOUNTING AND PRESENTATION

The Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting. The District's significant accounting policies, including the modified accrual basis of accounting, are presented in Note 1 of the basic financial statements.

The Schedule of Expenditures of Federal Awards is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some of the amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

3. PASS-THROUGH EXPENDITURES

None of the federal programs expended by the District were provided to subrecipients.

4. INDIRECT COSTS

The District has received a negotiated indirect cost rate from TEA and may not elect to use a de minimis cost rate of 10% as described at 2 CFR §200.414(f)—Indirect (F&A) costs.
