

## Grade 4 - Unit 2 - Mixed Media Clay

### Unit Focus

In this unit, students will create a mixed-media project combining ceramic design and fiber arts. They will combine their knowledge of the use of clay and glaze as well as weaving to create a cohesive and structurally sound mixed-media work with a strong sense of purposeful design and media unity. Students will learn by generating annotated sketches of their ideas, including clay design, possible glaze choices, and weaving preferences. Once their ideas are fully developed, they will create their work.
