SUPPORTING STUDENT LEARNING

We are currently spending money out of the capital fund for new facilities. Under this plan, facilities will be covered in bond money. That allows the district to shift some custodial/maintenance salaries into the capital fund. This frees up money in the operating fund to hire additional secondary teachers and better support student learning.

KEY FACTS:

The bond package, if approved, would result in an \$8 annual increase for the owner of a \$100,000 home.

SMSD currently has the lowest mill levy of all school districts in Johnson County and, based on estimates through 2032-2033, would continue to have a comparatively low rate.

The district currently has \$750 million in identified facility needs over the next 20 years. This proposed bond is an option to address needed repairs, provide and ongoing maintenance, strive to increasingly comply with the Americans with Disabilities Act (ADA), and follow a strategy in support of our mission, beliefs, and objectives.
