Student/Parent Portal - Primary and Alternate Course Requests Entry

Modified on: Thu, Oct 1, 2020 at 2:03 PM

At schools that allow entry of **Primary and/or Alternate Course Requests** using the Student or Parent Portal, the **Course Requests Entry** page can be accessed from the **Classes** dropdown.

In preview mode for the new version of the Portal, the navigation is on the left:

A Parent/Student Portal Course Request Entry page is displayed below. This page will allow entry of Primary and Alternate Course Requests. On the right, the courses within the Course Request (CRQ) table (by grade level) can be displayed using the filter. The CRQ table must be populated and set up for parents and students to view the courses here; see the <u>Update Course Request Options (https://support.aeries.com/support/solutions/articles/14000069818-update-course-request-options)</u> documentation for more information. The student's existing course requests, if any, will display on the left side in the Course Requests area of the page, ordered by Subject Area.

Setting Alternate Course Request Priority

The Parent/Student can set the priority of alternate course requests and link alternate course requests to primary course requests. Once the priority is set, if the primary course is not available the first alternate course will be scheduled first, if the first alternate course is not available then the subsequent alternate course will be scheduled. There is no limit to the amount of courses that can be linked. However, schools can set a limit to the amount of Alternate Course Requests that Parents/Students can select.

To set priority, alternate courses need to be sorted in the desired order to be scheduled. To sort Alternate Course Requests, select the Priority Sort button.

Once the priority of **Alternate Course Requests** is set the student can link the **Alternate Course Requests** to the selected **Primary Course Requests** using the **Manage** button in the **Primary Course Request** section. The **Manage** button is used to link one or more alternate course requests to a primary course request. The number of alternate course requests assigned to a primary course will also be displayed. There is no limit to the amount of alternate courses that can be linked to primary courses.

Select the Manage button to link alternate course requests to primary course requests.
