Heather Schulz- Vice Principal
Racquel Knavel- Teacher
Biffy Turner- Parent (PTA President)
Chris Flohaug- Parent
Angie Mahan- School ELA Coordinator
Cori Crandall- Parent
Rick George- Parent- Vice Chairman

Business

Review - October Meeting Minutes - Racquel Knavel

Virtual Parent Teacher Conference

Mostly positive feedback from teachers and parents. Students seemed more comfortable talking to teacher about needs and concerns with the distance of the screen between them. Some parents like being in the classroom and seeing that environment but overall, survey data indicated that parents prefer virtual conferences.

Student Safety Before and After School

- Child Access Routing Plan <https://www.saferoutesutahmap.com/map/school-maps/layton-elementary-276>
- 2 Staff - Carpool Areas
- Bus/Daycare Unloading - Staff support
- Playground signs
- Crossing Guard – Gentile
- Concerns about the new townhomes going in and the traffic that will bring. We are in contact with the city about traffic patterns and possible solutions.

Digital Citizenship

Students received district provided curriculum about staying safe and responsible online. Upper grades learned more about digital citizenship and cyber bullying. Natasha Satterthwaite created a safety video that was shared in each classroom. Students continue to learn about this in their computer class each week.

Beginning of Year Reading Data – Angie Mahan, ELA Coordinator

At the beginning of the school year data was, as anticipated, lower than desired. Deficits mainly occurred with new first grade students. Students are experiencing a lot of growth as progress monitoring is being done throughout the year so far. SPIRE has been an excellent resource in helping our low readers. Students will be tested again mid January, we are expecting to see awesome growth!

Layton Elementary Community Council

Quarantine, Soft Closure Plan

Individual vs Whole Class vs Entire School

Melissa has a schedule that will be sent out (upon approval) in the event that our school were to be put on a soft closure. There is a plan when an individual student is quarantined, as well as if the whole class or whole school were to be closed.

Other

Last year parents watched a school safety video that was created by the 6th graders. We'll do another video this year to see progress in the carpool and crosswalk areas.

Next Meeting:

February 9, 4:00 pm
