

## **Free Developmental Screening For Children 3-5 years of age Families living in the Franklin Pierce School District**

The Franklin Pierce School District offers free developmental screening during the school year for children ages 3 to 5 who are not yet kindergarten age. The screenings address suspected developmental delays in preschool-aged children in communication, learning, physical development, social/emotional skills, and self-help skills. Vision and hearing screenings are also administered.

Screening information is used to determine if a child needs further evaluation. Preschool-aged students who have been evaluated as needing special education services and have a current Individualized Education Plan (IEP) may be eligible for one of the district's early childhood programs.

**Call the Franklin Pierce Early Learning Center  
for an Appointment (253) 298-4658**

- **If your family is living in a temporary situation, you may contact the district where you are staying to attend a screening**

**Birth to Three services**, please call Early Intervention at 253-798-3790. Family Resource Coordinators serve as your single point of contact and coordinate early intervention services. They can provide free screenings and referral for evaluations for children under age three who are not developing as expected, have a medical condition, or are experiencing a developmental delay for any reason.
