

Study Buddy Society is Here to Help!

The Study Buddy Society (SBS) is a peer tutoring program where students help students achieve academic success. It is our mission to offer this free peer tutoring service to as many students as possible.

Learning remotely is tough, and we are happy that the Study Buddy Society can offer additional support to students with a grade of C or lower who are struggling with the demands of remote learning. Connecting with a student one-on-one and working on materials regularly and with focus is a great way our tutors help fellow students improve their academic performance.

We have a wide variety of tutoring days and times available so that even the busiest students can find a day and time that works for them. The tutoring sessions are held via Zoom with the Peer Tutoring Coordinator hosting the session and tutor/tutee teams working in individual breakout rooms.

Check out our [Study Buddy Society website](#) to see if you qualify for Study Buddy tutoring and sign up today!

Study Buddy Society is also accepting tutor applications. If you are interested in becoming a tutor, visit our [website](#) and sign up using the tutor sign-up form.
