REFERENDUM UPDATE

Highlights from Summer/Fall 2020

CARDINAL HEIGHTS BUILDING: OVERALL PLAN

Overview

Since the community-approved \$164 million capital referendum in April 2019, the District, along with its design and construction partners, has been hard at work. With Sun Prairie West High School construction underway, and the Bank of Sun Prairie Stadium at Ashley Field complete, the team has been focused on designing the referendum projects at the Cardinal Heights Upper Middle School site.

The Cardinal Heights renovation project consists of four sub-projects, including Central Heights Middle School, Prairie Phoenix Academy, the Professional Learning Center, and the Employee Wellness Clinic.

Over the past several months, the design team, District leadership, and three subcommittees have re-engaged to finalize the design of these projects. Below is a brief summary of the work that will be completed for each.

Cardinal Heights Upper Middle School Renovation

CENTRAL HEIGHTS MIDDLE SCHOOL

The majority of the current Cardinal Heights Upper Middle School building will become a 6th–8th grade middle school, which will be renamed Central Heights Middle School. Renovations will be made to:

- Repurpose and renovate several existing classrooms at the center of the building to create a new library media center.
- Renovate two classrooms into a new fitness space.
- Create a new Tech Ed shop.

At-a-Glance

Here's a quick look at what has been happening:

- 25+ meetings with the Central Heights Middle School, Prairie Phoenix Academy, and Professional Learning Center subcommittees and following user groups:
 - » Central Heights Library Media Center
 - » Central Heights Tech Ed
 - » Central Heights Fitness
 - » Central Heights Office
 - » Prairie Phoenix Academy
 - » Professional Learning Center
 - » Adult Transition Program
 - » District Board Room
 - » Employee Wellness Clinic

Current & Completed Projects

To stay informed on the Sun Prairie West High School project currently under construction, or to learn about the recently completed Bank of Sun Prairie Stadium at Ashley Field, check out one of the prior design updates listed below:

REFERENDUM UPDATE

Highlights from Summer/Fall 2020

PRAIRIE PHOENIX ACADEMY

The current Prairie Phoenix Academy (PPA), an alternative high school program, is housed in a standalone, aging facility. Renovations to the west side of the existing Cardinal Heights building will create a new, dedicated space to support PPA's programming. Improvements will:

- Turn the existing fitness center into a gymnasium.
- Convert the existing wood shop into a cafeteria/commons, including a serving area for school nutrition, a teaching kitchen, and several breakout spaces.
- Utilize several existing science labs and classroom spaces to serve PPA.
- Repurpose existing Tech Ed areas to provide collaborative project and tech space that PPA is currently lacking.
- Create a teacher collaboration room to provide dedicated office space for staff.
- Create a resource area that opens onto the main corridor, providing a shared collaborative space for students.

Upon project completion, the existing PPA building will be removed.

PROFESSIONAL LEARNING CENTER

The Professional Learning Center will be located in the northeast portion of the Cardinal Heights building and will:

- Include a professional development space for the District.
- House the Adult Transition Program.
- Provide office space for instructional coaches.

The existing library and a few adjacent classrooms will be combined and renovated into a large event space that will hold approximately 200 people.

The building's original gym, which has since been used as a science lab and classroom, will be renovated into a Community/Board Room. This will function as the primary meeting space for the Board of Education and a commons space for the Professional Learning Center.

EMPLOYEE WELLNESS CLINIC

The existing student services office suite will be renovated in partnership with SSM/Dean Health into an Employee Wellness Clinic. The clinic will serve District and City of Sun Prairie staff.

The clinic will include a reception area, three exam rooms, a screening room, a lab room, and clinic staff workspace.
