

Grade 5 - Unit 1 - Drawing Animals

Unit Focus

In 5th Grade Art, Students will create an animal sculpture inspired by the native artwork of Oaxaca, Mexico. This multi-stage project will have students drawing, developing color schemes, building an armature and sculpture, and also painting. Each unit builds towards the completion of the sculpture and allows students to focus on and refine their project each step of the way to create something they can be proud of!

In the first unit, students will learn about tools such as the range of drawing pencils and the simple shapes technique of drawing. They will use those skills to render an image of a purposefully chosen animal subject. Students will learn by working step by step through the drawing process while receiving regular feedback along the way.
