

**Sumas Elementary School Progress Photos**

**Date: November 6, 2020**

This series of drone aerial photos were taken on November 6.

The pre-drill rig is at the forefront and the aggregate pier rig is at the back.

This view is looking to the east.

This view is looking to the west and shows the existing school and portables in the background.

A close up of the aggregate pier rig in action with the loader in front.

A view from the south.
