**SKYWARD FAMILY & STUDENT**

**What is Skyward Family Access?**  
Skyward's Family Access is provided by the FSSD to offer families a web-based information and communication center that answers the question, "What did you do at school today?"

**What are the benefits of using Skyward?**

- It is available anytime, from anywhere via a secure web connection.
- Skyward keeps teachers and administration in touch with parents, and parents in touch with their student's daily work. Families with more than one student also have easy access to all of their students information in one site.
- Message Center – Teachers and administrators can post information to inform parents about their child, school and upcoming classroom events.
- Parents can directly respond to teacher messages via either the Message Center or email.

**What can parents see?**  
Parents and guardians have the ability to see a wide range of information, including ongoing grades, attendance, class schedules, progress reports, report cards and more.

**How do parents get access to Skyward?**

**EVENTS CALENDAR**

September 2014
