PARENTS' ASSESSMENT OF SCHOOL READINESS

*For Children entering Le Lycée in Preschool - Kindergarten 1
and/or have not attended school before Lycée*

Dear Prospective Lycée Parents,

*While it is true that the School accepts children three-years-old and potty-trained, it does not imply, that every child is ready for school. Our program **is structured and traditional** and if Lycée will be your child's 1st experience then, fill this out regardless.*

***As tuition is not refundable after May 1st**, and in order to ensure that all entering students are truly ready to start a full-day program, we ask that you fill out the following **confidential** assessment questionnaire and use it as a tool to assess some of the important skills your child might need before entering school.*

Please note the following assessment questionnaire is to be filled out and returned only between March 1st and April 1st preceding your child's entry into preschool or kindergarten 1.

If, by your observations, you feel your child has some unusual behavioral characteristics, special dietetic or medical needs, or other traits that might require special care, we would like to know this early enough to provide appropriate placement and assistance as soon as possible.

Please do not hesitate to give us whatever information you feel is important for us to know regarding your child's readiness for school.

Thank you for your attention in this regard.

Sincerely,

The Admissions Department
