GOOGLE CHROME (Windows, macOS)

When a pop-up is being blocked, an icon will appear in the far-right side of the omnibox. This icon looks like a small browser window with a red "x" over it. Click the icon and select always allow pop-ups from portal www.uwp.edu.

Pop-up blocked | ☆
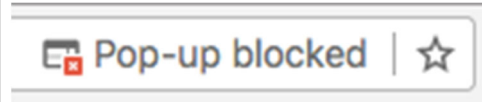

To proactively allow pop-ups in Google Chrome, follow these steps:

- Launch Google Chrome
- In the top-right corner of the Google Chrome app, click the menu button
- Click Settings
- Click show Advanced Settings
- Under Privacy, click the Content Settings button.
- Under Pop-Ups, click Manage Exceptions
- Type www.uwp.edu into the hostname pattern field and set the behavior to allow.

GOOGLE CHROME (iOS, Android)

- Launch the google Chrome app
- In the top right corner of the Google Chrome app, tap the menu button
- Tap Settings, then Content Settings, the Pop-ups.
- Slide the Block Pop-ups switch to the Off position.

FIREFOX (Windows, macOS)
To proactively allow pop-ups in Firefox, follow these steps:

- Launch Firefox
- In the top-right corner of the Firefox window, click the menu button.
- Click *Preferences*
- In the Preferences window, click Content in the sidebar.
- In the *Content* panel, under *Pop-ups*, click the *Exceptions...* button.
- Type the *web address* or *host name* into the list of *addresses of website* field.
- Click *Allow*.
