We encourage parents/guardians to discuss meal account purchases with your students. We are able to set limits, however, they are discouraged as they cause delays during serving times.

All students are automatically allowed to make a la carte food purchases using their pre-paid meal accounts. We are unable to restrict purchases made with cash. You may choose to limit a la carte purchases to zero dollars or specify a certain dollar amount per day. Please complete one form for each student. **Parents/Guardians are responsible to inform their student of this restriction.** Parents will be responsible for a la carte purchases of any foods served in an open container, such as pizza served in a paper boat, if your student selects this item as we cannot offer it to others.
