

THE MEADOWS SCHOOL

Isolation & Quarantine Protocols

Upper School Student-Athletes in Season

10-day isolation period and 14-day quarantine period recommended by the Center for Disease Control.

*Options for earlier return to school, as outlined by the CDC and SNHD will be employed when practicable. The school will make every reasonable effort to provide testing on or around day 6 of quarantine, hoping to return students to class after the seventh day. If students remain without symptoms, students may be allowed to return after 10 days of quarantine. For more information, visit www.cdc.gov/coronavirus.
