## MEBCO COVID-19 Plan Changes

- MEBCO is covering Telehealth visits from 3/1/20 to 1/20/21 following the Federal Emergency period. This is not the same as Allyhealth. Telehealth allows you to have virtual or on the phone visits with your regular Physician or Specialist and you will pay the regular Plan copay or Coinsurance just like you would if you went in person.
- MEBCO is covering the full cost of the COVID Test, including Antibody testing. Due to the CARES Act, there is no member cost share for a COVID test during the Federal Emergency period.
