Community Learning Centers

OASD Community Learning Centers December 2020: Issue 3

LSH Google Classrooms!

We have created Google Classrooms as a way to connect with our students! There are a lot of fun and engaging activities that were developed based on student interest and requests. These activities include videos, collaborative questions, brain breaks, mini-lessons, read alouds, and fun STEM lessons!

UW-Oshkosh Counselors

UW-Oshkosh Counselors are virtually working with students in small groups and also with individual students, in a 4 week course that started on November 18th. The first two sessions went great, and the students were able to form connections with their Counselors. They are focusing on social emotional skills that are very valuable and will benefit our students in all aspects of their lives.

Happy Holiday's from your Coordinators!

Merry Christmas, Happy Hanukkah, Happy Kwanzaa, Happy New Year's, and all other Season Greetings! We hope that everyone has a wonderful winter break and enjoy the extra time off of school! Please reach out to us if we can help support you in any way! Stay safe everyone! ~CLC Team

This program is funded in cooperation with the Oshkosh Area School District and the Wisconsin Department of Public Instruction 21st Century Community Learning Center Grant Program.
