

Cuarentena de los contactos cercanos

December 7, 2020

Dear TSC Families:

You may be aware of the latest recommendations regarding quarantine time periods from the U.S. Centers for Disease Control and Prevention (CDC). After thorough consideration with the Indiana Department of Health, the Tippecanoe County Health Department (TCHD) decided to continue recommending a 14-day quarantine for close contacts of individuals diagnosed with COVID-19. Based on their guidance, the TSC will continue to follow the current 14-day quarantine guideline until further notice.

The Tippecanoe County Health Department will continue to re-evaluate this recommendation based upon updated guidance from the Indiana Department of Health and local COVID-19 data. If you have any questions please contact us at TSCcovid@tsc.k12.in.us, or 765-474-2481.

Please continue your best efforts in fighting this pandemic and helping slow the spread of the virus. Wear masks, maintain social distancing, wash your hands frequently, avoid crowds, and stay home when sick. If you test positive or are identified as a close contact, please remain isolated for the recommended time.

Thank you for your attention and cooperation,

Krystal Zahn, Head Nurse
Dr. Marshall Criswell, Corporation Physician
