

WJH Research Guide

Example: Works Cited (Bibliography)

You must give credit where credit is due! If you use someone else's words or ideas, show it by including where you found the information.

- List these entries at the end of your project on a works cited page in **alphabetical order**.
- All your sources should be listed here: books, websites, databases, images, etc.
- Leave the first line of each entry at the edge of the page, but indent all the other lines (hanging indent).
