Addendum 3

Round TWO Questions received at walk-through or by 4pm on December 4, 2020 are below:

Question 1

Q: For the most part, is the plan to do a 1:1 replacement on Access Points?

A: Yes, mostly this is a 1:1 replacement, with a few additional APs where needed.

Question 2

Q: Will there need to be any wireless surveys completed?

A: No wireless surveys will be conducted in this project.

Question 3

Q: Where are the typical AP installation locations in gyms?

A: Most are installed on walls accessible by ladder, but some are mounted on the iron above the floor.

Question 4

Q: Who is responsible for providing needed lifts and protecting floors, particularly gym floors?

A: Contractor is responsible for obtaining lifts and protecting floors, including gyms, with masonite, plywood and/or any other required protective covering.

Question 5

Q: How many campuses are in scope?

A: There are 11 school campuses plus 4 administrative buildings in the scope.

Question 6

Q: Is the district looking for an installation cost per AP or per switch?

A: The district is seeking installation pricing for all APs as one cost and all switches as one cost, although individual pricing would be accepted.

Question 7

Q: How does the district want pricing regarding configuration of APs and switches?

A: The district is seeking costs for full installation/configuration of switches (rack and stack) and installation/configuration of APs.
