Welcome and thank you for coming from Mira PTA President. Going forward meetings will officially start at 8:40.

**Presentation and discussion from Jenny re: Supporting Diverse Relationships in the PYP**

A collaborative discussion on how to best support diverse relationships in the classroom and beyond.

With ISH is not a neighbourhood school, students are living throughout Copenhagen. Therefore it can take more effort and time to support and build friendships.

In the classroom, PYP3 classes have been looking at different ways to support students and their families. They came up with the idea of inclusive play groups. An idea that revolves around every student having a chance to host and also be invited to different students houses. This allows the children to interact with a wider group and help to make sure everyone feels included.

A discussion was held about other similar ideas that could be organised to help build on this theme.

Jenny asked parents to fill out a sheet based on the below slide. If you would also like to add some suggestions please email [pta@ish.dk](mailto:pta@ish.dk)
