

Searching, Browsing, Downloading Flipcharts

- 1) Go to www.classflow.com.
- 2) Log-in with your account information.
- 3) Type your desired topic in the search field.

The screenshot shows the ClassFlow website interface. At the top, there's a navigation bar with 'Home', 'Marketplace', 'Community', and 'About'. A 'Log In' link and a 'Sign Up for Free' button are on the right. Below the navigation bar is a hero section with the text 'Hello, Dynamic Teacher' and 'Create & Deliver Real-Time Assessments'. A play button icon is centered, with the text 'Check out our video to see ClassFlow in action.' below it. A search bar is located below the hero section, containing the text 'water cycle'. To the right of the search bar is a 'Refine By' sidebar with filters for Price (Free, Paid), Publisher Type (Teachers, Publishers), Avg. Customer Review, Subjects, Languages, Grades (Pre-K, K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12), and File Format (Lesson (CF), Assessment (CF), Flipchart, Word Document, PDF Files). The main content area displays a grid of search results for 'The Water Cycle' flipcharts. Each result card shows the title, a 'Flipchart' icon, the word 'FREE', and a star rating. An orange arrow points from the search bar to the first result card. Another orange arrow points from the 'Sign Up for Free' button to the top right of the page.

4) This search will bring back multiple file types. You can refine your search by multiple criteria (File type, grade, subject, etc.)

5) When you find a flipchart you are interested in, click on the title.

6) This will take you to a page, where you can preview the flipcharts by clicking the right arrow. If the flipchart is something you want to download and edit/use, select “Add to My Resources”. By doing this, the flipchart will save to your account, so you can access it again later.

7) To find and download the file, select “My Resources” at the top of the page. Then select the Marketplace folder on the left. (You may have to select the drop down option that says My Resources to see this.) This will open a folder that holds the file you added in step 6. Select the file you added, and click the downward facing arrow to download the file.
