

ADDENDUM #1  
RFP #20-13-230 STEM Books  
Questions and Answers

1. I have a question regarding RFP #20-13-230 STEM Books. On page 5, 2.0 Scope it says “STEM Kits” but on page 15 it only say “Books”. Are you looking for more than just books? If so, please describe.  
**We are only looking for the books listed in this RFP. We issued a separate RFP for stem hands-on kits (RFP #20-12-230 STEM Kits).**
2. Delivery. Do you have a timeline of when the books should be delivered to the schools?  
**We are looking for the books to be delivered in February or at the latest early March.**
3. Contract term. Will this be a one-time purchase or on-going purchases contingent upon funding?  
**For right now, this is a one-time purchase; but the project may be continued depending on funding. We are planning for another purchase of stem books and stem kits during the summer (2021). An RFP will be issued for that project later in 2021.**
4. We are working on a response for the bid mentioned above. I wanted to verify that this should be an electronic submission only. Also, will you accept electronic signatures? You don't want anything mailed into you?  
**Wayne RESA is only accepting emailed submissions due to restrictions related to COVID-19 (our building is currently closed to the public, so in-person deliveries are not allowed). Also, Wayne RESA will be closed December 22, 2020 through January 1, 2021; and staff will be unavailable to receive mailed proposals.  
Signatures can be electronic; however, please note that Attachments #4 and #5 must be notarized**
