December 15, 2020

To: School Board

Citizens
Employees of the School District

State law requires that every public school district publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2020.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

CLA (Clifton Larson Allen LLP)., Certified Public Accountants, have issued an unmodified ("clean") opinion on Independent School District No. 834's (the District) financial statements for the year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report.

The management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

### PROFILE OF THE ENTITY AND ITS SERVICES

The District provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through Grade 12+. These include regular and enriched academic programs, special education programs, and career/vocational education. Food service and transportation are provided as supporting programs. The community education program in the District includes early childhood and family education programs, an adult basic education program, and a variety of classes for lifelong learning experiences for children and adults.

Minnesota's first schoolhouse was built in Stillwater in 1848, a year before Minnesota became a territory. Located on Olive Street between Second and Third Streets, the schoolhouse was a one-room building with cracks in the walls. Stillwater became the state's first school district just two years later, a full four years before the City of Stillwater was incorporated. This District, now known as Independent School District No. 834, Stillwater Area Public Schools, has a long tradition of high expectations, high standards, and outstanding achievement. It is also a system dedicated to continuous improvement.

The District served more than 8,400 students for the 2019–2020 school year and is projecting a 275 student decline for the 2020–2021 school year due to the COVID19 pandemic and families choosing other education options than ISD No. 834. The number of students that will return after the pandemic is over is yet to be determined. We have gone from a one-room schoolhouse to seven operating elementary schools (K–5), two middle schools (Grades 6–8), one high school (Grades 9–12), and an alternative learning center for secondary students. An early childhood family center (ECFC) serves families with young children, from birth to age five. The average long-term facilities maintenance age of the District's buildings is approximately 39.31 years; with the original buildings being constructed first in 1919 to the latest construction of Brookview Elementary school in 2017. Building ages include 1910s (1), 1920s (1), 1950s (4), 1960s (2), 1970s (2), 1990s (2), 2000s (1) and 2010s (2).

The District stretches 30 miles along the scenic St. Croix River from Marine on St. Croix south to Afton and covers approximately 150 square miles. The District encompasses 18 communities, including: Afton, Bayport, Baytown Township, Grant, a portion of Hugo, Lake Elmo, Lakeland, Lakeland Shores, Lake St. Croix Beach, Marine on St. Croix, May Township, Oak Park Heights, St. Mary's Point, Stillwater, Stillwater Township, West Lakeland Township, Withrow, and a portion of Woodbury. The total district population is estimated at 68,534.

The District is well known for providing a solid and rigorous curriculum that focuses on the expanded basics of reading, writing, math, logic, and speaking. Student achievement on state and national tests ranks above the state average. The District strives to develop learners who are innovative, creative, and prepared for a rapidly changing world. Expectations are high and students of all abilities are challenged, supported, and motivated at every level—from early childhood through high school. Students regularly earn top awards and recognitions in academics, and performing and visual arts programs. Student athletes also consistently appear in state competitions.

#### LOCAL ECONOMY

According to census information from the Washington County website, the county continued to experience growth, increasing 6.3 percent since 2010. The Washington County's estimated population in 2018 was 261,512, making it the fifth largest county in the state of Minnesota, housing approximately 4.5 percent of the state's population and approximately 8.4 percent of the Twin Cities metropolitan area's population. According to the Metropolitan Council, as reported on the county's website, Washington County's population is expected to continue to grow. By the year 2040, the county's population is projected to increase to 335,790.

The District's population has grown from 41,958 in 1996 to 68,534 in 2020. This represents a 63.3 percent increase.

Source data from the U.S. Census Bureau shows that the median household income in 2018 for Washington County was \$95,124 as compared to \$68,411 in 2018 for the state of Minnesota. Source data from the U.S. Census Bureau shows that the per capita income in 2015 for Washington County was \$58,163.

The poverty rate of Washington County continues to be low. Source data from the 2016 American Community Survey, as reported on the county's website, shows that 4.3 percent of Washington County's family population was below the federal poverty level.

Due to its strong and healthy local economy, the District has maintained a credit rating of Aa2 from Moody's Investor Service since 2012.

### LONG-TERM FINANCIAL PLANNING AND MAJOR INITIATIVES

With the exception of the voter-approved operating referendum, the District is dependent on the state of Minnesota for its revenue authority. Recent experience demonstrates that legislated revenue increases are unpredictable and have not been sufficient to meet instructional program needs and increased costs due to inflation. The voter-approved operating referendum expires with the Payable 21 Tax levy so the District will need to seek a renewal by November 2021. The expiring levy was for eight years. The District will continue to monitor its operations to ensure that revenues are sufficient to meet expenditures and to maintain a reasonable amount in reserve to cover any unforeseen expenditures.

A bond referendum had been passed by voters in May 2015 that was designed to allow for grade reconfigurations in the school District. The bond paid for a major addition and remodeling at the high school to make room for ninth grade students, as well as other building projects to support the new Grades 6–8 middle schools and pre-kindergarten–Grade 5 elementary schools. It also funded construction of a new elementary school that replaced a shared elementary school in the growing southern portion of the District.

After years of declining enrollment, the District that was once projected to serve nearly 10,000 students was serving just 8,300. While communities in the southern portion of the very long and skinny district are growing, enrollment in central and northern elementary schools has been on the decline for years. This imbalance caused a variety of financial challenges, but the real issue concerning district leaders was that it created vastly different learning experiences for elementary students depending on where they lived. Schools in the south, which had its most diverse learners, faced overcrowding and large class sizes while schools in the north were under capacity, had small class sizes, and few support staff.

Knowing grade configuration changes would result in boundary changes and other disruptions to the system, district leaders decided to also address the need to review capacity issues across the District. During the winter of 2016, administration determined that now was the time to address the inequities in learning and developed a proposal called BOLD, Building Opportunities to Learn and Discover. With a split 4–3 vote in March 2016, the School Board approved the plan to close three of its elementary schools at the start of the 2017–2018 school year in order to better utilize resources, balance class sizes, and increase support for ALL students.

The need for the BOLD proposal to close three elementary schools was supported by significant evidence gathered from demographic studies, county-wide growth trends, a comprehensive strategic planning process, a community-led Facility Use Plan, and district enrollment data.

In an effort to ensure all of our students have learning environments that reflect current and future needs, the district has invited the community to help develop a long-term facilities plan. The design team will consider things like the condition of buildings, and future mechanical/operations and safety/security needs. It will also consider student programming needs and class size information, and the impact any changes in programming and class size would have on building use and capacity among other items. Ultimately, the design team will work to develop a recommendation to present to the school board on how to best utilize existing space within the school district as well as address future growth as a result of demographic and housing patterns. It will also look to enhance existing facilities over the next five years based on improving learning opportunities for all students and identify deferred maintenance projects to ensure the safe and effective operation of existing district facilities for the next ten years.

Recently, the School Board approved the District's strategic plan for 2018–2021. The plan reaffirms the District's mission, defines our vision, and creates the Portrait of a Stillwater Graduate, which outlines the skills and attributes a student should attain by the time they graduate from our district.

Based on feedback from more than 2,000 business leaders, community members, students, teachers, and parents, the plan is designed to develop students who are strong communicators, collaborators, critical thinkers, creators, and self-advocates. The plan will also help ensure all of our learners are ready for kindergarten, can read at grade level by third grade, graduate from high school, and are ready for college and career, while also working to close racial and economic achievement gaps. Learn more at <a href="https://stillwaterschools.org/district/our-mission/strategic-plan-2018-2021">https://stillwaterschools.org/district/our-mission/strategic-plan-2018-2021</a>

With the onset of the COVID19 pandemic in the spring, the governor of Minnesota ordered schools into a distance learning model to deliver instruction. This caused a delay in work to determine appropriate attendance boundaries within the district, plan school building improvements, and establish plans to address growth issues in the south end of District No. 834. In late 2020, the district is resuming efforts to resolve overcrowding in the south and enrollment decline in the north of the district

### RELEVANT FINANCIAL POLICIES

The District is required to adopt an annual budget prior to the start of the fiscal year. Legal budgetary control is at the fund level. For the 2019–2020 fiscal year, the District adopted a General Fund original budget estimating adjusted revenues and other financing sources to be less than adjusted expenditures (\$111,535,775 versus \$112,964,436) leading to a deficit of \$1,428,661. School Board policy states the District will maintain a minimum unassigned General Fund balance of 5 percent of the annual projected expenditures. The District's unassigned fund balance is greater than 5 percent for 2019-2020.

### AWARDS AND ACKNOWLEDGEMENTS

The Association of School Business Officials (ASBO) International awarded the Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2019. This was the 16th consecutive year that the District has achieved this prestigious award.

A Certificate of Excellence in Financial Reporting is valid for a period of one year only. However, we believe that our current CAFR continues to meet the Certificate of Excellence in Financial Reporting program's requirements, and we are submitting it to the ASBO International to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Business and Administrative Services Division. We wish to thank all departments for their assistance in providing the data necessary to prepare this report. Credit is also due to the Superintendent and the School Board for their unfailing support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

Interim Executive Director of Finance and Operations

### INDEPENDENT AUDITORS' REPORT

School Board and Management Independent School District No. 834 Stillwater Area Public Schools Stillwater, Minnesota

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 834 as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Independent School District No. 834's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

School Board and Management Independent School District No. 834 Stillwater Area Public Schools

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 834 as of June 30, 2020, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended and budgetary comparison for General Fund, Food Service, and Community Service, in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of a Matter**

During fiscal year ended June 30, 2020, the District restated its beginning fund balance for the General Fund due to unearned revenue in the prior year being overstated. Though being immaterial to the governmental activities of the District, beginning net position was also restated to reflect this overstatement. See Note 11 for additional information on these restatements.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in the district's net OPEB liability (asset) and related ratios, schedule of money-weighted rate of return on plan assets, schedules of district's proportionate share of net pension liability and schedules of district's pension contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Independent School District No. 834's basic financial statements. The introductory section, the individual fund financial statements, the uniform financial accounting and reporting standards compliance table and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements and the uniform financial accounting and reporting standards compliance table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements

School Board and Management Independent School District No. 834 Stillwater Area Public Schools

Other Matters (Continued)
Supplementary Information (Continued)

or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and the uniform financial accounting and reporting standards compliance table are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The basic financial statements for the year ended June 30, 2019, were audited by other auditors and are not presented with the accompanying financial statements. In their report dated September 18, 2019, they expressed unmodified opinions on the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 834. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprised the Independent School District No. 834's basic financial statements as a whole. The 2019 information presented in the individual fund statements as listed under supplementary information in the Table of Contents is also presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

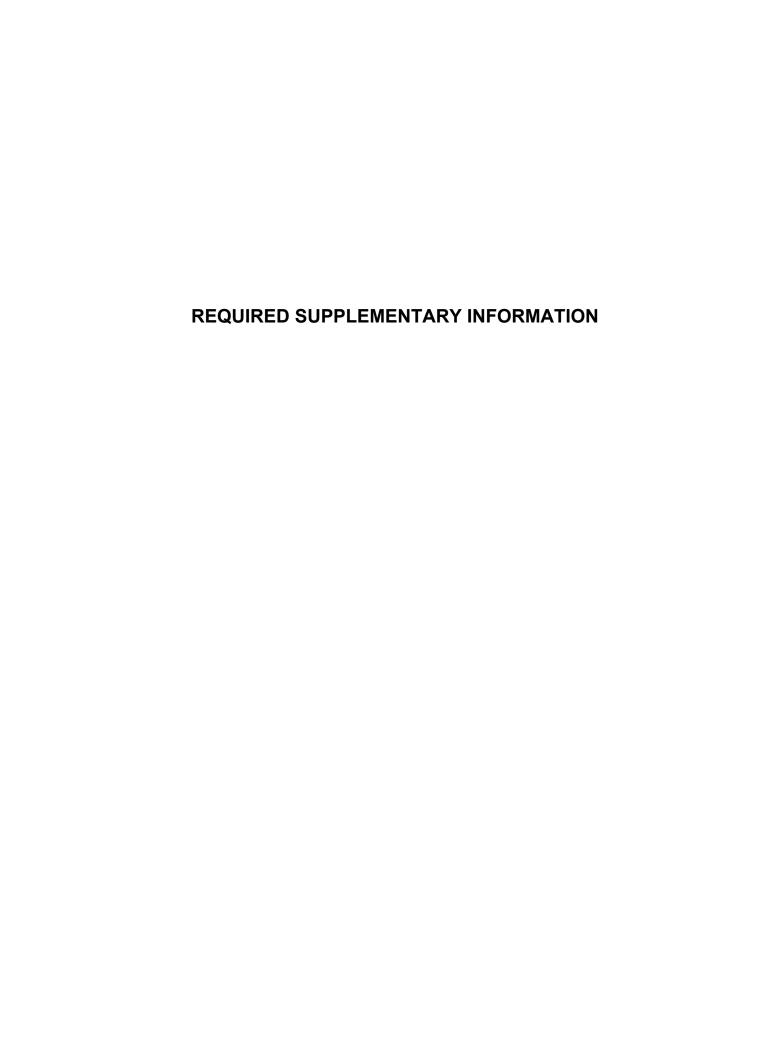

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2020, on our consideration of Independent School District No. 834's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Independent School District No. 834's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

Minneapolis, Minnesota December 15, 2020

This section of Independent School District No. 834's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2020. Please read it in conjunction with the district's financial statements, which immediately follow this letter.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Government Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments.

### **Financial Highlights**

Key financial highlights for the 2019-2020 fiscal years include the following:

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at June 30, 2020 by \$558,022 (net position deficit). The District's total net position increased by \$4,679,130 during the fiscal year ended June 30, 2020.
- Government-wide revenues totaled \$134,674,623 and were \$4,679,130 more than expenses of \$129,995,493.
- The General Fund's total fund balance increased \$6,784,455 from the prior year, compared to a \$496,363 increased planned in the budget.

### **Overview of the Financial Statements**

The financial section of the annual report consists of four parts: Independent Auditors' Report, Required Supplementary Information which includes MD&A (this section), the basic financial statements, single and supplementary information. The basic financial statements include several statements that present different views of the District:

- The **district-wide financial statements,** including the **Statement of Net Position** and the **Statement of Activities**, provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
- **Governmental funds statements** tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- **Proprietary funds statements** offer short- and long-term financial information about the activities the District operates like businesses.
- **Fiduciary funds statements** provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data.

#### **Government-Wide Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets, deferred outflows of resources and liabilities, and deferred inflows of resources – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are shown in one category:

• Governmental Activities – Most of the District's basic services are included here, such as regular and special education, transportation, administration, food services, and community education. Property taxes and state aids finance most of these activities.

### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's *funds* – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District may establish other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

#### The District has three kinds of funds:

- Governmental Funds Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements to explain the relationship (or differences) between them.
- Proprietary Fund The District maintains one type of proprietary fund. The Internal Service
  Fund is used as an accounting device to accumulate and allocate costs internally among the
  District's various functions. The District uses its Internal Service Fund to account for its dental
  and health self-insurance programs. These services have been included within the
  governmental activities in the government-wide financial statements.
- Fiduciary Funds The District is the trustee, or fiduciary, for assets that belong to others. The
  District is responsible for ensuring that the assets reported in these funds are used only for their
  intended purposes and by those to whom the assets belong. All of the District's fiduciary
  activities are reported in a separate statement of fiduciary net position and a statement of
  changes in fiduciary net position. We exclude these activities from the government-wide
  financial and governmental fund statements because the District cannot use these assets to
  finance its operations.

## FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE Net Position

The District's combined net position was a deficit of \$558,022 on June 30, 2020 (see Table A-1).

The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at June 30, 2020 resulting in the District's net position to be a deficit of \$\$558,022. The District's total net position was significantly impacted in fiscal 2020 and 2019 by the required actuarial calculation changes included in GASB Statements related to statewide pension plans. The District had \$19,894,112 of net position that was available to meet its ongoing obligations but restricted for specific uses.

A large part of the District's net position is the investment in capital assets (land, buildings and equipment) less depreciation and the related debt outstanding that was used to acquire the assets. The District uses the capital assets to provide educational services to students. These are not capital assets available for future spending. Even though the District's investment in capital assets is reported net of the related debt, the resources needed to repay this debt must be provided from other sources because the capital assets cannot be used to liquidate these liabilities. Another major factor in determining net position as compared to fund balances are the liabilities for long-term severance pension, and other post-employment benefits (OPEB), which impacts the unrestricted portion of net position.

Prior Period Adjustment	933,130	 	
Beginning Net Position, as Restated	(5,237,152)	(33,918,437)	
Ending Net Position	\$ (558,022)	\$ (6,170,282)	

Total revenues were \$134,674,623, while total expenses were \$129,995,493, increasing net position by \$4,679,130.

The cost of all *governmental* activities this year was \$129,995,493.

- A portion of the cost was paid by the users of the District's programs (Table A-2, Charges for Services, \$8,181,102). The majority of this category, \$6.4 million, comes from food service meal sales and community education class tuition.
- The federal and state governments subsidized certain programs with grants and contributions (Table A-2, Operating and Capital Grants and Contributions, \$24,963,902).
- Most of the District's costs were supported by local property taxes, unrestricted state aid, investment earnings, and other general revenues. Governmental activities were sustained by accessing \$39,912,698 in property taxes, \$60,073,369 of unrestricted state aid, and with investment earnings and other general revenues.

All governmental activities include not only funds received for the general operation of the District, which are used for classroom instruction, but also include resources from Food Service and Community Education funds. Funding for the general operation of the District is controlled by the State and the District does not have the latitude to allocate money received in Food Service or Community Education or for fiscal services to enhance general operation resources.

Table A-3, seen below, presents the cost of twelve major District activities such as, instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and others. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs).

Table A-3
Program Expenses and Net Cost of Services

The cost of all governmental activities this year was \$129,995,493, an increase of \$28,978,549 from the prior year. After applying program specific revenue, the net cost of all governmental activities this year was \$96,861,141 or an increase of \$24,335,753 from the prior year.

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds. The General Fund's revenues and other financing sources exceeded expenditures and other financing uses by \$6,784,455. The Food Service Fund's revenues and other financing sources exceeded its expenditures and other financing uses by \$180,084. The Community Service Fund expenditure and other financing uses exceeded its revenues and other financings sources by \$888,394. The Capital Projects-Building Construction Fund, and Debt Service Fund had planned deficit spending. At the end of the 2019-20 fiscal year, the District's governmental funds reported combined fund balances (non-spendable, restricted, committed, assigned, and unassigned) of \$34,668,652, a net increase in fund balances of \$3,936,721 from the prior year.

Revenues were \$134,000,771 plus other financing sources of \$6,055,213 for the District's governmental funds totaled \$140,055,984, while expenditures were \$131,082,393 plus other financing uses of \$5,970,000 for the District's governmental funds total of \$137,052,393. As a result, the District completed the year with a net change in fund balances of \$3,003,591. There was also a restatement of beginning fund balance in the amount of \$933,130 in the General Fund related to the accounting treatment for unearned revenue as further described in the notes to the financial statements.

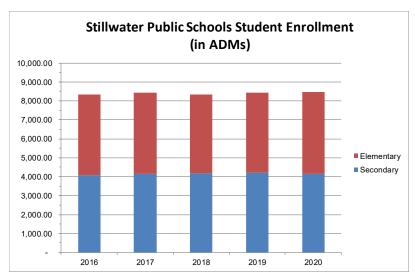

### **General Fund**

The General Fund is used to account for all revenues and expenditures of the District not accounted for elsewhere. The General Fund is used to account for: K-12 educational activities; District instructional and student support programs; expenditures for the superintendent; District administration; normal operations and maintenance; pupil transportation; capital expenditures; and legal school District expenditures not specifically designated to be accounted for in any other fund.

### **Enrollment**

Enrollment is a critical factor in determining revenue with approximately 70% of General Fund revenue being determined by enrollment. While many Minnesota school districts are facing declining enrollment, the District has increased in students and anticipates further growth. The following chart shows the number of students served over the past five years.

Table A-4
Average Daily Membership (ADM)

	2016	2017	2018	2019	2020

The following schedule presents a summary of General Fund Revenues.

### Table A-5 General Fund Revenues

	Year I	Ended	Change				
			Increase	%			
	June 30, 2020	June 30, 2019	(Decrease)	Change			
Local Sources:							
Property Taxes	\$ 29,103,776	\$ 27,016,038	\$ 2,087,738	7.7 %			
Earnings on Investments	497,750	592,141	(94,391)	(15.9)			
Other	3,361,900	3,817,706	(455,806)	(11.9)			
State Sources	79,050,190	76,676,591	2,373,599	3.1			
Federal Sources	1,861,877	2,018,811	(156,934)	(7.8)			
Total General Fund Revenue	\$ 113,875,493	\$ 110,121,287	\$ 3,754,206	3.4			

General Fund revenue increased by \$3,754,206 or 3.4% from the previous year. The changes in the major sources of revenue include:

Property Taxes increased by \$2,087,738 or 7.7%.

Earnings on Investments decreased by \$94,391 or 15.9% due to lower interest rates.

Other local revenue decreased by \$455,806 or 11.9%. This category includes such items as rental income, donations, admissions, and fees.

State Sources increased by \$2,373,599 or 3.1% by a number of factors. Minnesota legislation increased the general education aid formula by 2% in the first year of the biennium.

Federal revenue is recorded in the year in which the related expenditure is made. Federal sources decreased by \$156,934 or 4.3%.

General Fund Revenue is received in two major categories. In summary, the two categories are:

### 1. State Education Finance Appropriations

- A. General Education Aid The largest share of the education finance appropriation, general education aid, is intended to provide the basic financial support for the education program and is enrollment driven.
- B. Categorical Aids Categorical revenue formulas are used to meet costs of that program (i.e. special education) or promote certain types of programs (i.e., career and technical aid, adult basic education aid).

### 2. Property Tax Levies

The largest share of the levy is from voter-approved levies which include the operating referendum, which is enrollment driven.

The following schedule presents a summary of General Fund Expenditures.

Table A-6
General Fund Expenditures

	Year	Ended	Change				
		Percent					
	June 30, 2020	June 30, 2019	(Decrease)	Change			
Salaries	\$ 55,804,102	\$ 56,274,912	\$ (470,810)	(0.8)%			
Employee Benefits	25,027,422	25,017,802	9,620	0.0			
Purchased Services	17,366,091	19,270,025	(1,903,934)	(9.9)			
Supplies and Materials	3,424,780	3,540,961	(116,181)	(3.3)			
Capital Expenditures	4,103,614	4,675,635	(572,021)	(12.2)			
Debt Service	825,188	822,413	2,775	0.3			
Other Expenditures	540,618	458,402	82,216	17.9			
Total General Fund Expenditures	\$ 107,091,815	\$ 110,060,150	\$ (2,968,335)	(2.7)			

Total General Fund expenditures decreased \$2,968,335 or 2.7% from the previous year. The changes in the major expenditure categories include:

Overall salaries decrease by \$470,810 or 0.8%.

Employee benefits increased \$9,620 or 0.0%.

Purchased Services consist of expenditures for fees for service including transportation contracts, postage, utilities, property insurance, maintenance repairs, leases, travel, telephone, and tuition. The District's decreased of 9.9% or \$1,903,934.

The Debt Service expenditures consists of principal and interest payments on Certificates of Participation (COPs) issued in June 2011 and December 2019. The final payment on the COPs will be in fiscal year 2029. See Note 4 for more information.

Capital Expenditures decreased in the General Fund by \$572,021 or 12.2% mainly due to long-term facilities maintenance.

Other expenses which include dues and memberships, taxes and other fees increased by \$82,216.

### **General Fund Budgetary Highlights**

The District is required to adopt an operating budget prior to the beginning of its fiscal year (July 1) and is referred to as the original budget. Over the course of the year, the District revised its annual operating budget to the appropriate levels. The budget amendments fall into two categories:

- Implementing budgets for specially funded projects, which include both federal and state grants, adjusting staffing and various instructional allocations to the schools based on actual enrollment and unspent funds carried over from fiscal year 2019-20.
- Increase in appropriations for significant unbudgeted costs.

While the District anticipated that the net change in fund balance would be an increase of \$496,363, total fund balance increased by \$6,784,455. Revenue was under budget by \$88,338 or 0.001% which was partially caused by the \$283,347 in payments made by the state of Minnesota into TRA. Additionally, other revenue which includes donations, interest, fees, miscellaneous was under budget by \$509,912. The District continues to practice conservative budgeting for these types of items as they can fluctuate dramatically from year to year. Overall expenditures were within 5.63% of budget. The unassigned portion of the fund balance in the General Fund is 9.71% of expenditures.

### **Food Service Fund**

The Food Service Fund revenue and other financing sources for 2019-20 totaled \$3,924,484 and expenditures were \$3,744,400. The June 30, 2020 fund balance is \$1,133,841, an increase of \$180,084 from fiscal year 2019, which was consistent with budget increase of \$209,709. The COVID-19 pandemic had a significant impact on the Food Services fund. Revenues decreased by \$512,330 or 11.5% compared to fiscal year 2019. Expenditures also decreased by \$258,159 or \$6.5%. The main drop in expenditures was in food supplies and materials for serving meals. The District maintained full payment of Food Services salaries and benefits to maintain staff and have them available for fiscal year 2021 as mandated by Executive Order 20-19 of the Governor of Minnesota.

### **Community Service Fund**

The Community Service Fund revenue for 2019-20 totaled \$6,133,641 and expenditures were \$7,022,035. The June 30, 2020 total fund balance decreased \$888,394 which was greater than expected and the direct result of the COVID-19 pandemic. Actual revenues were 17.9%or \$1,333,612 under budget and expenditures were 8.3% or \$632,109 under budget. In March of 2020, the Governor of Minnesota announced a stay at home order due to the COVID-19 pandemic. Almost all fee-based programs ended or were scaled back.

### **Capital Projects - Building Construction Fund**

The Capital projects – Building Construction Fund ended the year with expenditures exceeding revenues decreasing equity by \$2,970,720, compared to a planned fund balance decrease of \$2,937,980. The overall decrease in equity is a result of the District utilizing the proceeds from the 2015A General Obligation School Building Bonds to finance capital spending at District facilities.

### **Debt Service Fund**

The Debt Service Fund is used to record revenues and expenditures for a school district's outstanding bonded indebtedness, whether for building construction, other postemployment benefits (OPEB) or for initial or refunding bonds. The Debt Service Fund revenue for 2019-20 totaled \$10,023,670. Expenditures were \$10,209,583 for principal and interest payments. The total Debt Service Fund balance is \$2,860,179, a decrease of \$101,834 from fiscal year 2019. Revenue and expenditures were within 0.19% and 0.95% of budget, respectively.

# CAPITAL ASSET AND DEBT ADMINISTRATION Capital Assets

By the end of June 30, 2020, the District has invested just over \$250.6 million in a broad range of capital assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Table A-7). (More detailed information about capital assets can be found in Note 3 to the financial statements.) Total depreciation expense for the year was slightly over \$6.8 million.

### Table A-7 Capital Assets

		2020	 2019	Percentage Change		
Land	\$	9,819,937	\$ 9,819,937	- %		
Construction in Progress		1,115,202	1,209,716	(7.8)

Total General Fund Expenditures	\$	161,884,361	\$ 162,583,047	(0.4)		

### **Long-Term Liabilities**

At year-end, the District had \$87,205,000 in general obligation bonds outstanding as shown in Note 4 to the financial statements. The District had \$5,630,000 in certificates of participation outstanding. The District also had an estimated \$268,596 in net severance and compensated absences at June 30, 2020, a net decrease of \$65,063 from June 30, 2019, as well as a net OPEB liability of \$11,952,458. The District had an estimated \$62,365,913 in net pension liability related to the District's proportionate share of the net pension liability of the Teachers' Retirement Association (TRA) and Public Employees' Retirement Association (PERA).

Table A-8

Due in More Than One Year		168,059,962	172,827,047			
Total	\$	175,757,456	\$ 179,994,238			

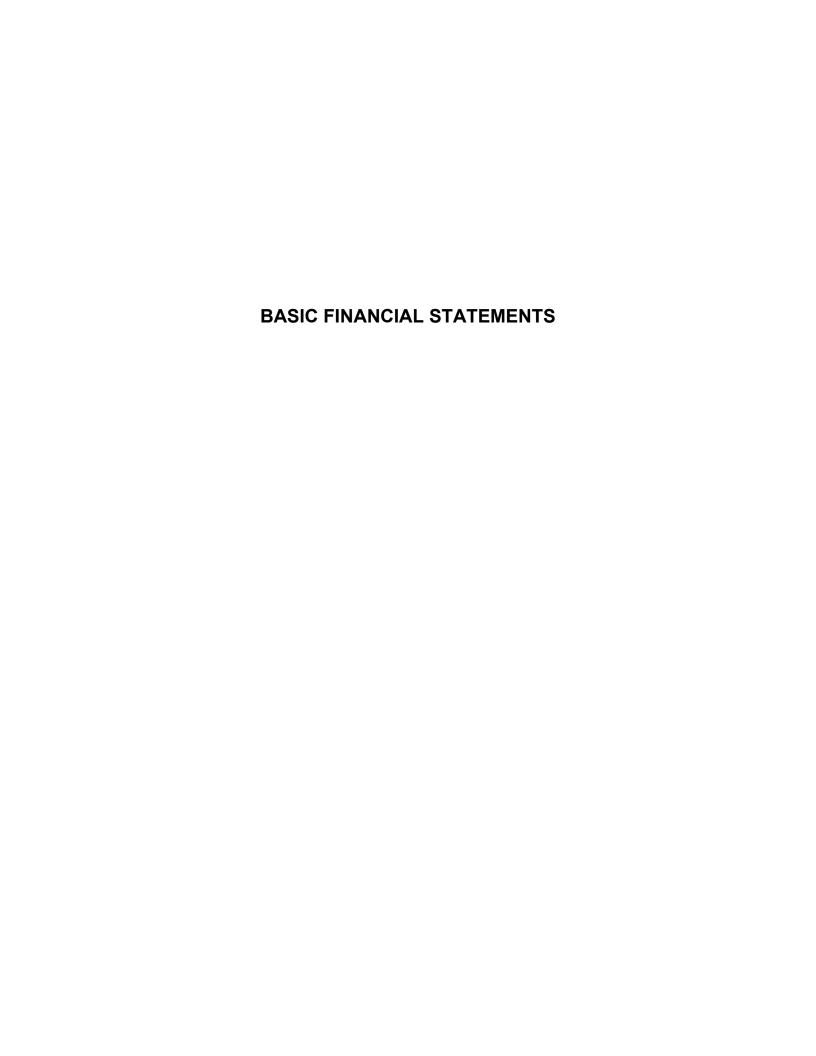

### **FACTORS BEARING ON THE DISTRICT'S FUTURE**

With the exception of the voter-approved excess operating referendum, the District is dependent on the state of Minnesota for its revenue authority.

The general education program is the method by which school districts receive the majority of their financial support. This source of funding is primarily state aid and, as such, school districts rely heavily on the state of Minnesota for educational resources. The Legislature has an additional \$126, or 2%, per pupil to the basic general education funding formula for fiscal year 2020, and an additional \$129, or 2%, per pupil to the formula for fiscal year 2021.

### **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This CAFR is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, Independent School District No. 834, 1875 South Greeley Street, Stillwater, Minnesota 55082.

# **INDEPENDENT SCHOOL DISTRICT NO. 834** STILLWATER AREA PUBLIC SCHOOLS **RECONCILIATION OF THE BALANCE SHEET - GOVERNMENTAL FUNDS** TO THE STATEMENT OF NET POSITION JUNE 30, 2020

Total net position reported for governmental activities in the statement of net position is different because: Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. Those assets consist of:  Land Construction in Progress 1,115,202 Land Improvements, Net of Accumulated Depreciation 137,876,480 Equipment, Net of Accumulated Depreciation 2,017,172 Some of the District's property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and, therefore, are reported as deferred inflows in the funds.  The District's Net Other Postemployment Benefits Liability and related deferred inflows and outflows are recorded only on the statement of net position. Balances at year-end are:  Net Other Postemployment Benefits Liability and related deferred inflows and outflows of Resources - Other Postemployment Benefits Deferred Inflows of Resources - Other Postemployment Benefits Deferred Inflows of Resources - Other Postemployment Benefits When a bond defeasance occurs the difference between the amount paid to the refunded bond escrow and the principal of the defeased debt is expensed in the governmental funds. These expenditures are capitalized on the statement of net position as deferred outflows and deferred inflows.  Gains on Debt Refunding (100,033) Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. (1,633,202)  The District's Net Pension Liability and related deferred inflows and outflows are recorded only on the statement of net position. Balances at year-end are:  Net Pension Liability Deferred Inflows of Resources - Pensions Long-term liabilities that pertain to governmental funds, including bonds payable, are not due and payable in the current period and, therefore, are not reported as fund liabilities. All liabilities be obte current and long-term - are reported in the statement of net position. Balances at year-end are:  Bonds Pa	Total Fund Balance for Governmental Funds	\$ 34,668,652

# INDEPENDENT SCHOOL DISTRICT NO. 834 STILLWATER AREA PUBLIC SCHOOLS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2020

Net Change in Fund Balance - Total Governmental Funds	\$ 3,003,591
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation in the current period is:	
Capital Outlays Depreciation Expense	6,161,688 (6,860,374)
Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the governmental funds.	41,329
Pension expenditures in the governmental funds are measured by current year employer contributions. Pension expense in the statement of activities is measured by the change in the net pension liability and the related deferred inflows and outflows of resources.	(5,952,440)
In the statement of activities, certain operating expenses - severance benefits and compensated absences - are measured by amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (amounts actually paid).	(129,294)
Other postemployment benefit (OPEB) expenditures in the governmental funds are measured by current year employer contributions. OPEB expenses on the statement of activities are measured by the change in the net OPEB liability and the related deferred inflows and outflows of resources.	(776,740)
The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:	
General Obligation and Certificates of Participation Bond Proceeds Bond Premium or Discount Payment to Refunded Bond Escrow Agent Repayment of Bond Principal Repayment of Certificates of Participation Payable Change in Accrued Interest Amortization of Bond Premium Deferred Charges on Refunding Bonds	(5,630,000) (424,079) 5,970,000 6,165,000 550,000 118,698 714,121 (100,033)
Internal service funds are used by the District to charge the costs of employee health and dental benefits to individual funds. The net revenue of the internal service funds is reported with governmental activities.  Total	\$ 1,827,663 4,679,130

# NOTES TO BASIC FINANCIAL STATEMENTS

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Basis of Presentation

The financial statements of Independent School District No. 834 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

### B. Financial Reporting Entity

Independent School District No. 834 is an instrumentality of the state of Minnesota established to function as an educational institution. The elected School Board (Board) is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the Board and is responsible for administrative control of the District.

GAAP require that the District's financial statements include all funds, departments, agencies, boards, commissions, and other organizations which are not legally separated from the District. In addition, the District's financial statements are to include all component units – entities for which the District is financially accountable.

Financial accountability includes such aspects as appointing a voting majority of the organization's governing body, significantly influencing the programs, projects, activities, or level of services performed or provided by the organization or receiving specific financial benefits from, or imposing specific financial burden on, the organization. There are no other entities for which the District is financially accountable.

Student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside school hours. The School Board does have a fiduciary responsibility in establishing broad policies and ensuring that appropriate financial records are maintained for student activities. In accordance with Minnesota state statutes, the District's student activity accounts are included in these financial statements. As part of the implementation of GASB Statement No. 84 in the fiscal year ended June 30, 2020, the District's student activity funds were under board control and were moved into the District's General Fund.

#### C. Basic Financial Statement Presentation

The government-wide financial statements (i.e. the statement of net position and the statement of activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The Fiduciary Funds are only reported in the statements of Fiduciary Net Position at the fund financial statement level.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# C. Basic Financial Statement Presentation (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The District applies restricted resources first when an expense is incurred for purpose for which both restricted and unrestricted net position are available. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities. Generally, the effect of material interfund activity has been removed from the government-wide financial statements.

Separate Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Fiduciary funds are presented in the fiduciary fund financial statements by type: custodial funds. Since by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide statements.

The Internal Service Fund is presented in the proprietary fund financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statement of the internal service fund is consolidated into the governmental column when presented in the government-wide financial statements. Internal payments received in the internal service funds are eliminated on the government-wide statements as reductions to expenses and the net cost of these services is reported in the appropriate functional activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is charges for service in the form of insurance premiums. Operating expenses for the internal service fund include the cost of services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

#### 1. Revenue Recognition

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes and GAAP. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Food service sales, community education tuition, and other miscellaneous revenue (except investment earnings) are recorded as revenues when received because they are generally not measurable until then. Investment earnings are recorded when earned because they are measurable and available. A six-month period of availability is generally used for other fund revenue.

# 2. Recording of Expenditures

Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds. In the General Fund, capital outlay expenditures are included within the applicable functional areas.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus and Basis of Accounting (Continued)

### Description of Funds

The existence of the various District funds has been established by the state of Minnesota, Department of Education. The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. A description of the funds included in this report is as follows:

# Major Governmental Funds

# **General Fund**

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. It includes the general operations and pupil transportation activities of the district, as well as the capital related activities such as maintenance of facilities equipment purchases, health and safety projects, and disabled accessibility projects.

#### Food Service Special Revenue Fund

The Food Service Fund is used to account for food service revenues and expenditures. Revenues recorded in this fund include meal sales to pupils along with state and federal reimbursements for meals.

# Community Service Special Revenue Fund

The Community Service Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, veterans, adult or early childhood programs, K-6 extended day programs or other similar services. Revenues recorded in this fund include property taxes restricted for Community Service purposes and tuition and fees charged for Community Education.

#### <u>Capital Projects Fund – Building Construction Fund</u>

The Capital Projects – Building Construction Fund is used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue or under the long-term facilities maintenance program.

#### **Debt Service Fund**

The Debt Service Fund is used to account for the accumulation of resources for, and payment of general obligation debt principal, interest, and related costs. The regular debt service account is used for all general obligation debt service except for the financial activities of the other postemployment benefits (OPEB) debt service account. The OPEB debt service account was used for the issuance, repayment, and refunding of taxable OPEB bond issues.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# D. Measurement Focus and Basis of Accounting (Continued)

Proprietary Fund

## Internal Service Fund

Internal service funds account for the financing of goods or services provided by one department to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The District's internal service funds are used to account for dental and health insurance benefits offered by the District to its employees as a self-insured plan.

#### Fiduciary Funds

#### Scholarship Private-Purpose Trust Fund

The Scholarship Private-Purpose Trust Fund is used to account for resources held in trust to be used by various other third parties to award scholarships to students.

# Other Postemployment Benefit Trust

The Other Postemployment Benefit Trust Fund is used to administer resources received and held by the District as the trustee for others. The Postemployment Benefits Trust Fund includes assets held in an irrevocable trust to fund postemployment insurance benefits of eligible employees.

### E. Budgeting

The School Board adopts an annual budget for all governmental funds prepared on the same basis of accounting as the fund financial statements. Legal budgetary control is at the fund level. Budgeted appropriations lapse at year-end.

Budgeted amounts include mid-year budget amendments that amended revenue and expenditure budgets as follows:

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# E. Budgeting (Continued)

	Original				Amended
	Budget	Amendments			Budget
Revenues					_
General Fund	\$ 111,548,775	\$	2,415,056	\$	113,963,831
Special Revenue Fund:					
Food Service Fund	4,300,025		167,376		4,467,401
Community Service Fund	7,089,316		7,467,253		
Capital Projects Fund	-		75,000		75,000
Debt Service Fund	10,042,887		-		10,042,887
Expenditures					
General Fund	\$ 112,164,248	\$	1,315,220	\$	113,479,468
Special Revenue Fund:					
Food Service Fund	4,118,531		139,411		4,257,942
Community Service Fund	7,109,802		544,342		7,654,144
Capital Projects Fund	1,278,516		1,734,464		3,012,980
Debt Service Fund	10,113,258		-		10,113,258

Budget provisions for the Debt Service Fund are set by state law governing required debt service levels.

At the end of each fiscal year, if the General Fund has a net unassigned deficit fund balance, calculated in accordance with the uniform financial accounting and reporting standards for Minnesota school districts which excludes certain restricted balances specified in Minnesota Statutes, exceeding 2.5% of expenditures, a condition referred to as "statutory operating debt" exists. That debt requires retirement through the accumulation of subsequent operating surpluses in accordance with a "special operating plan" approved by the Commissioner of the Department of Education.

#### F. Cash and Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund. Bond proceeds recorded in the Capital Projects – Building Construction Fund are not pooled, and earnings on these proceeds are allocated directly to the fund.

Cash and investments held by trustee include balances held in segregated accounts that are established for specific purposes. In the Postemployment Benefits Trust Fund, this represents assets contributed to an irrevocable trust established to finance the District's liability for postemployment insurance benefits. Interest earned on these investments is allocated directly to the escrow accounts.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# F. Cash and Investments (Continued)

For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with an original maturity from the time of purchase by the District of three months or less to be cash equivalent. The proprietary fund's equity in the government-wide cash and investment management pool is considered to be cash equivalent.

Investments are generally stated at fair value, except for investments in external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptance, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less may also be reported at amortized cost. Investment income is accrued at the Balance Sheet date.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 2 for the District's recurring fair value measurements as of year-end.

#### G. Accounts Receivable

Represents amounts receivable from individuals, firms, and corporations for goods and services furnished by the District. No substantial losses are anticipated from present receivable balances, therefore, no allowance for uncollectible accounts is deemed necessary.

#### H. Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method, and surplus commodities are stated at standardized cost, as determined by the Department of Agriculture.

#### I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are recorded as expenditures/expenses at the time of consumption.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### J. Property Taxes

Property tax levies are established by the School Board in December each year and are certified to the County for collection the following calendar year. In Minnesota, counties act as collection agents for all property taxes and are responsible for spreading all levies over taxable property. Such taxes become a lien on January 1. Taxes are generally due on May 15 and October 15 and counties generally remit taxes to Districts at periodic intervals as they are collected. A portion of property taxes levied is paid through state credits which are included in revenue from state sources in the financial statements.

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as deferred revenue (property taxes levied for subsequent year). The majority of District revenue in the General Fund (and to a lesser extent in the District's Community Service Special Revenue Fund) is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between taxes and state aids by the Legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift".

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is deferred because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material. Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the state which will be recognized as revenue in the next fiscal year beginning July 1, 2020, are included in Property Taxes Levied for Subsequent Year to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

#### K. Capital Assets

Capital assets that are purchased or constructed by the District are recorded at historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation. The District defines capital assets as those with an initial, individual cost of \$5,000 or more, which benefit more than one fiscal year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements but are not reported in the governmental fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are generally sold for an immaterial amount or scrapped when declared as no longer fit or needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# K. Capital Assets (Continued)

Useful lives vary from 20 to 50 years for land improvements and buildings and 5 to 20 years for furniture and equipment. Land and construction in progress are not depreciated.

The District does not possess material amounts of infrastructure capital assets, such as sidewalks or parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

# L. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities. If material, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums or discounts on debt issuances are reported as other financing sources or uses, respectively.

#### M. Compensated Absences

Under the terms of collectively bargained contracts, eligible employees accrue vacation and sick leave at varying rates, portions of which may be carried over to future years. Employees are reimbursed for unused, accrued vacation to the limit specified in their labor contract or School Board policy upon termination. Unused sick leave enters into the calculation of severance benefits for some employees upon termination. Compensated absences are accrued in the governmental fund financial statements only to the extent they have been used or otherwise matured prior to year-end. Unused vacation is accrued as it is earned in the government-wide financial statements.

#### N. Severance Benefits

The District provides lump sum severance benefits to eligible employees in accordance with provisions in certain collectively bargained contracts. Eligibility for these benefits is based on years of service and/or minimum age requirements. Severance benefits are calculated by converting a portion of an eligible employee's unused accumulated sick leave. No individual can receive severance benefits in excess of one year's salary. Members of certain employee groups may elect to receive district matching contributions paid into tax deferred matching contribution plans, which reduce future severance benefits. Retirement benefits for certain employee groups are paid into a post-employment tax sheltered annuity account.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# N. Severance Benefits (Continued)

Severance payable and the District's share of related benefits are recorded as a liability in the government-wide financial statements as it is earned, and it becomes probable that it will vest at some point in the future. Severance pay is accrued in the governmental fund financial statements when the liability matures due to employee termination.

#### O. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments, and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA has a special funding situation created by direct aid contributions made by the state of Minnesota, City of Minneapolis, and Minneapolis School District. This direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the state of Minnesota for the merger of the Duluth Teachers Retirement Fund Association (DTRFA) in 2015. Additional information can be found in Note 6.

The PERA has a special funding situation created by a direct aid contribution made by the state of Minnesota. The direct aid is a result of the merger of the Minneapolis Employees Retirement Fund into the PERA on January 1, 2015.

# P. Other Postemployment Benefits (OPEB) Plan

For purposes of measuring the net OPEB liability, deferred outflows/inflows of resources, and OPEB expense, information about the fiduciary net position of the District's OPEB plan and additions to/deductions from the District's fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and certain investments that have a maturity at the time of purchase of one year or less, which are reported at amortized cost.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Q. Risk Management and Self-Insurance
  - 1. General Insurance The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in the District's insurance coverage in the current year.
  - Self-Insurance The District has established two internal service funds to account
    for and finance its self-insured risk of loss for respective employee dental and health
    insurance plans. Under these plans, the internal service funds provide coverage to
    participating employees and their dependents for various dental and healthcare costs
    as described in the plans.

The District makes premium payments that include both employer and employee contributions to the internal service funds on behalf of program participants based on rates determined by insurance company estimates of monthly claims paid for each coverage class, plus the stop-loss health insurance premium costs and administrative service charges.

District claim liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported. Because actual claim liabilities depend on complex factors such as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claim liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

### R. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position or balance sheets will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

The District reports deferred outflows and inflows of resources related to pensions and OPEB plans reported in the government-wide Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual economic experience, changes in actuarial assumptions, difference between projected and actual investment earnings, changes in proportion, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# R. Deferred Outflows/Inflows of Resources (Continued)

Property taxes levied for subsequent years, which represent property taxes received or reported as a receivable before the period for which the taxes are levied, are reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the governmental funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied and in the governmental fund financial statements during the year for which they are levied, if available.

Unavailable revenue from property taxes arises under a modified accrual basis of accounting and is reported only in the governmental funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available.

#### S. Net Position

In the government-wide and internal service fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- Net Investment in Capital Assets Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- **Unrestricted Net Position** All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

#### T. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable – portions of fund balance related to prepaids, inventories, long-term receivables, and corpus on any permanent fund.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- T. Fund Balance Classifications (Continued)
  - **Restricted** funds are constrained by outside parties (statute, grantors, contributors, bond agreements, etc.).
  - **Committed** funds are established and modified by a resolution approved by the Board of Education.
  - Assigned consists of internally imposed constraints. The Board of Education
    passed a resolution authorizing the Superintendent and Director of Business
    Affairs to assign fund balances and their intended uses.
  - **Unassigned** is the residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the District's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

#### U. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the reporting period. Actual results could differ from those estimates.

#### V. Prior Period Comparative Financial Information/Reclassification

The basic financial statements include certain prior year partial comparative information in total but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2019, from which the summarized information was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

#### NOTE 2 DEPOSITS AND INVESTMENTS

### A. Deposits

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the balance sheet as "Cash and Investments." In accordance with Minnesota Statutes, the District maintains deposits at financial institutions which are authorized by the School District's Board.

Custodial Credit Risk – Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk and follows Minnesota Statutes for deposits. Minnesota Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by insurance or corporate surety bonds. Authorized collateral includes: U.S. government treasury bills, notes, or bonds; issues of a U.S. government agency; general obligations of a state or local government rated "A" or better; revenue obligations of a state or local government rated "AA" or better; irrevocable standby letter of credit issued by a Federal Home Loan Bank; and time deposits insured by a federal agency. Minnesota Statutes require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or at an account at a trust department of a commercial bank or other financial institution not owned or controlled by the depository.

At June 30, 2020, the District's deposits had a bank balance of \$12,059,277 and a carrying amount of \$10,207,937.

#### B. Investments

The District may also invest idle funds as authorized by Minnesota Statutes as follows:

- Direct obligations or obligations guaranteed by the United States or its agencies
- Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, is rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less
- General obligations rated "A" or better; revenue obligations rated "AA" or better
- General obligations of the Minnesota Housing Finance Agency rate "A" or better
- Bankers acceptances of United States banks eligible for purchase by the Federal Reserve System
- Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by a least two nationally recognized rating agencies, and maturing in 270 days or less
- Guaranteed investment contracts guaranteed by United States commercial banks or domestic branches of foreign banks or United States insurance companies if similar debt obligations of the issuer or the collateral pledged by the issuer is in the top two rating categories

# NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

- B. Investments (Continued)
  - Repurchase or reverse purchase agreement and securities lending agreements financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers
  - Investments related to the OPEB Revocable Trust Fund may be invested in accordance with Minnesota Statute 356A.06

At June 30, 2020, the District's investment balances were as follows:

Investments Measured at Fair Value	Fair Value
Municipal Bonds	\$ 557,080
Negotiable Certificates of Deposit	482,300
	Amortized
Investments Measured at Amortized Cost	Cost
MN Trust Investment Shares	\$ 11,098,628
Negotiable Certificates of Deposit	12,369,200
Money Markets	30,695,364
Total Investments Held with Broker	\$ 55,202,572

**Credit Risk** – Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

**Interest Rate Risk** – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District's investment policies do not limit the maturities of investments; however, when purchasing investments, the District considers such things as interest rates and cash flow needs.

The credit ratings and maturities of the District's investments are as follows:

		iviatu	irity Duration in Y	INO		
Туре	Total	Less Than 1 1 to 5		6 to 10	Maturities	Rating
Municipal Bonds	\$ 557,080	\$ 283,228	\$ 273,852	\$ -	\$ -	AA
Negotiable Certificates of Deposit	12,851,500	12,369,200	482,300	-	-	N/R
MN Trust Investment Shares	11,098,628	-	-	-	11,098,628	N/R
Money Market	30,695,364				30,695,364	AAA
Total	\$ 55,202,572	\$ 12,652,428	\$ 756,152	\$ -	\$ 41,793,992	
Total	\$ 55,202,572	\$ 12,652,428	\$ 756,152	\$ -	\$ 41,793,992	

### NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

#### B. Investments (Continued)

**Concentration of Credit Risk** – The District places no limit on the amount that the District may invest in any one issuer. The District had no investments at June 30, 2020 which individually comprised more than 5% of total investments.

The deposits and investments are presented in the financial statements as follows:

Cash and Investments - Statement of Net Position	\$ 58,717,654
Cash and Investments Held by Trustee - Statement of Net Position	3,050
Cash and Cash Equivalents - Statement of Fiduciary Net Position	6,689,803
Total Cash and Investments	\$ 65,410,507

**Cash and Investments Held by Trustee –** Cash and investments held by trustee are held by an escrow agent in accordance with escrow agreements established with the sale of various refunding bonds and capitalized interest.

# C. Fair Value Measurements

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The District follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities. The inputs include those traded on an active exchange, such as the New York Stock Exchange, as well as U.S. Treasury and other U.S. government and agency mortgage-backed securities that are traded by dealers or brokers in active over-the-counter markets.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

# NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

# D. Fair Value Measurements (Continued)

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

Assets of the District measured at fair value on a recurring basis:

	Level 1		 Level 2	Lev	/el 3	Total		
Municipal Bonds	\$	-	\$ 557,080	\$	-	\$	557,080	
Negotiable Certificates of Deposit		-	482,300		-		482,300	
Total	\$	-	\$ 1,039,380	\$	-		1,039,380	
Investments Measured at Amortized Co	nst					5	64,163,192	
Total	001						55,202,572	

# NOTE 3 CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 was as follows:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental Activities				
Capital Assets, Not Being Depreciated:				
Land	\$ 9,819,937	\$ -	\$ -	\$ 9,819,937
Construction in Progress	1,209,716	5,016,457	(5,110,971)	1,115,202
Total Capital Assets, Not Being Depreciated	11,029,653	5,016,457	(5,110,971)	10,935,139
Capital Assets, Being Depreciated:				
Land Improvements	16,712,907	3,040,913	-	19,753,820
Buildings and Improvements	206,873,823	2,981,258	=	209,855,081
Equipment	9,851,384	234,031	-	10,085,415
Total Capital Assets, Being Depreciated	233,438,114	6,256,202	-	239,694,316
Accumulated Depreciation for:				
Land Improvements	(7,795,532)	(902,718)	-	(8,698,250)
Buildings and Improvements	(66,523,969)	(5,454,632)	-	(71,978,601)
Equipment	(7,565,219)	(503,024)	=	(8,068,243)
Total Accumulated Depreciation	(81,884,720)	(6,860,374)	-	(88,745,094)
Total Capital Assets, Being Depreciated, Net	151,553,394	(604,172)	-	150,949,222
Governmental Activities Capital Assets, Net	\$ 162,583,047	\$ 4,412,285	\$ (5,110,971)	\$ 161,884,361

### NOTE 3 CAPITAL ASSETS (CONTINUED)

Depreciation expense was charged to functions of the District as follows:

Governmental Activ	ities
--------------------	-------

Administration	\$	268,927
District Support Services		191,404
Regular Instruction		2,989,065
Vocational Education Instruction		76,150
Special Education Instruction		1,094,916
Instructional Support Services		407,506
Pupil Support Services		644,189
Sites and Buildings		633,898
Food Service		251,776
Community Service		302,543
Total Depreciation Expense, Governmental Activities	\$	6,860,374
, , , , , , , , , , , , , , , , , , , ,	<u> </u>	-,,

#### NOTE 4 LONG-TERM LIABILITIES

# A. Components of General Long-Term Debt

The District currently has the following general obligation bonds payable outstanding:

		Net			Principal	Outst	anding
Issue	Issue Date	Interest Rate	 Original Issue	Maturities	Due Within One Year		Total
2010A GO Building Refunding Bonds	9/30/2010	2.65%-4.00%	\$ 4,630,000	2010-2022	\$ 530,000	\$	1,075,000
2014A GO Capital Facilities Bonds	3/1/2014	2.00%	3,360,000	2014-2022	420,000		820,000
2015A GO School Building Bonds	8/19/2015	3.00%-5.00%	90,565,000	2015-2037	5,520,000		85,310,000
Total General Obligation Bonds					6,470,000		87,205,000
		Net			Principal	Outst	anding
		Interest	Original		Due Within		
Issue	Issue Date	Rate	 Issue	Maturities	One Year		Total
2019A Refunding Certificates of Participation	12/11/2019	2.00%-4.00%	5,630,000	2021-2029	595,000		5,630,000
					595,000		5,630,000
Bond Premiums					-		7,816,244
Severance Benefits Payable					113,253		268,596
Compensated Absences Payable					519,241		519,245
Total					\$ 7,697,494	\$	101,439,085

# B. Description of Long-Term Liabilities

The 2010A, 2014A, and 2015A bonds were issued to finance acquisition, construction, and/or improvements of capital facilities, or to finance the retirement (refunding) of prior bond issues. Assets of the Debt Service Fund, together with scheduled future ad valorem tax levies, are dedicated for the retirement of these bonds. The annual future debt service levies authorized equal 105% of the principal and interest due each year. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law.

# NOTE 4 LONG-TERM LIABILITIES (CONTINUED)

# B. Description of Long-Term Liabilities (Continued)

In December 2019, the District sold \$5,630,000 of Refunding Certificates of Participation 2019A. The proceeds of this issue were used to refund the Certificates of Participation 2011A

# C. Minimum Debt Payments

Minimum annual principal and interest payments to maturity for general obligation bonds and certificates of participation are as follows:

	General C	blig	ation	Certificates of			of														
	Bonds F	aya	ble		Participation	on Pa	yable	Tot													
Year Ending June 30,	Principal		Interest		Principal		Interest		Principal		Interest										
2021	\$ 6,470,000	\$	3,655,108	\$	595,000		224,589	\$	7,065,000	\$	3,879,697										
2022	6,735,000		3,356,663		550,000		173,400		7,285,000		3,530,063										
2023	6,645,000		3,044,175		570,000		151,400		7,215,000		3,195,575										
2024	6,975,000		2,711,925		595,000		128,600		7,570,000		2,840,525										
2025	7,325,000		2,363,175		615,000		104,800		7,940,000		2,467,975										
2026-2030	34,960,000		6,796,225		2,705,000		176,900		37,665,000		6,973,125

#### NOTE 5 FUND BALANCES

Certain portions of fund balance are restricted based on state requirements to track special program funding, to provide for funding on certain long-term liabilities, or as required by other outside parties. A description of deficit balance restrictions is included herein since the District has specific statutory authority to levy taxes for such deficits.

#### NOTE 5 FUND BALANCES (CONTINUED)

Restricted, Committed, and Assigned fund balances at June 30, 2020 are as follows:

#### A. Restricted for Student Activities

Represents resources available for the extracurricular activity funds raised by students.

#### B. Restricted for Scholarships

Represents accumulated resources available for scholarship funds.

### C. Restricted for Staff Development

Represents unspent staff development revenues set aside from General Education Revenue that were Restricted/Reserved for Staff Development.

#### D. Restricted for Achievement and Integration

Represents the unspent resources available from the Achievement and Integration program.

#### E. Restricted for Community Education

Represents accumulated resources available to provide general community education programming.

# F. Restricted for Early Childhood and Family Education

Represents accumulated resources available to provide for services for early childhood family education programming.

#### G. Restricted for Long-Term Facilities Maintenance

Represents resources received from the capital projects levy to be used for long-term facilities maintenance.

#### H. Restricted for Operating Capital

The District levies taxes and receives state aid to be used for the purchase of equipment, books, and vehicles and to purchase, rent, improve and repair school facilities as allowed by state statute. The cumulative excess of such revenues over equipment and facilities expenditures is reported as a restriction of fund balance in the General Fund.

#### Restricted for Safe Schools Levy

Represents the unspent resources available from the safe schools levy.

#### J. Restricted for School Readiness

Represents accumulated resources available to provide school readiness programming in accordance with funding made available for that purpose.

### K. Restricted for Other Purposes

Represents amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

### NOTE 5 FUND BALANCES (CONTINUED)

#### L. Committed Fund Balance

Represents amounts constrained for a specific purpose by the District using the highest level of decision making authority (the School Board). It requires action by the same group to remove or change the constraints placed on the resources.

#### M. Assigned Fund Balance

Represents amounts constrained by the School District's intent to be used for a specific purpose, but are not restricted or committed. Intent is expressed by the School Board itself, or a body (budget or finance committee) or an official (finance director) to which the School Board has delegated the authority to assign amounts to be used for specific purposes. The actions to remove or modify assignments are not as strict as for committed fund balances.

#### NOTE 6 DEFINED BENEFIT PENSION PLANS - STATE-WIDE

Substantially all employees of the District are required by state law to belong to the pension plans administered by Teachers' Retirement Association (TRA) or Public Employees' Retirement Association (PERA), all of which are administered on a statewide basis. Disclosures relating to these plans follow:

#### A. Plan Descriptions

The District participates in the following cost-sharing, multiple-employer defined benefit pension plans administered by the PERA and the TRA. The PERA's and the TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes. The PERA's and the TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code (IRC).

# 1. General Employees Retirement Fund

All full-time and certain part-time employees of the District, other than teachers, are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

# 2. Teachers Retirement Association (TRA)

The Teacher's Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or University of Minnesota System).

### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### B. Benefits Provided

PERA and TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

#### 1. General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2% of average salary for each of the first 10 years of service and 1.7% of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

B. Benefits Provided (Continued)

#### 2. TRA Benefits

TRA provides retirement benefits, as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statutes and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for the TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

#### **Tier I Benefits**

Tier 1	Step Rate Formula	Percentage
Basic	First Ten Years of Service	2.2% per Year
	All Years After	2.7% per Year
Coordinated	First Ten Years if Service Years Are Up to July 1, 2006	1.2% per Year
	First Ten Years if Service Years Are July 1, 2006 or After	1.4% per Year
	All Other Years of Service if Service Years Are Up to July 1, 2006	1.7% per Year
	All Other Years of Service if Service Years Are July 1, 2006 or After	1.9% per Year

#### With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) 3.0% per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### B. Benefits Provided (Continued)

### 2. TRA Benefits (Continued)

#### **Tier II Benefits**

For years of service prior to July 1, 2006, a level formula of 1.7% per year for Coordinated Plan members and 2.7% per year for Basic Plan members applies. For years of service July 1, 2006 and after, a level formula of 1.9% per year for Coordinated Plan members and 2.7% for Basic Plan members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statutes. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

#### C. Contributions

Minnesota Statutes set the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

#### 1. General Employees Fund Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature. Coordinated Plan members were required to contribute 6.50% of their annual covered salary in fiscal year 2020 and the District was required to contribute 7.50% for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2020 were \$1,152,137. The District's contributions were equal to the required contributions as set by state statute.

### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

# C. Contributions (Continued)

#### 2. TRA Contributions

Minnesota Statutes, Chapter 354 sets the rates for employer and employee contributions. Rates for fiscal year 2020 were:

	20	2020	
	Employee	Employer	
Basic	11.00%	11.92%	
Coordinated	7.50%	7.92%	

The District's contributions to the TRA for the plan's fiscal year ended June 30, 2020, were \$3,596,701. The District's contributions were equal to the required contributions for each year as set by state statutes.

#### D. Pension Costs

#### 1. General Employees Plan Pension Costs

At June 30, 2020, the District reported a liability of \$11,615,958 for its proportionate share of the General Employees Plan's net pension liability. The District's net pension liability reflected a reduction due to the state of Minnesota's contribution of \$16 million to the fund in 2019. The state of Minnesota is considered a nonemployer contributing District and the state's contribution meets the definition of a special funding situation. The state of Minnesota's proportionate share of the net pension liability associated with the District totaled \$361,151, for a total net pension liability of \$11,977,109 associated with the District. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2018 through June 30, 2019, relative to the total employer contributions received from all of PERA's participating employers.

At June 30, 2019, the District's proportion was 0.2101%, which was an decrease of .0046 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of \$1,320,000 for its proportionate share of General Employees Plan's pension expense. In addition, the District recognized an additional \$27,047 as pension expenditures (and corresponding grant revenue) for its proportionate share of the state of Minnesota's contribution of \$16 million to the General Employees Fund.

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### D. Pension Costs (Continued)

#### 1. GERF Pension Costs (Continued)

At June 30, 2020, the District reported its proportionate share of General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	0	Deferred utflows of Resources	Deferred Inflows of Resources		
Description Differences Between Function		Resources		Resources	
Differences Between Expected and Actual	•	004.004	•		
Economic Experience	\$	321,921	\$	-	
Changes in Actuarial Assumptions		-		913,022	
Net Difference Between Projected and Actual					
Earnings on Plan Investments		-		1,177,414	
Changes in Proportion and Differences Between					
District Contributions and Proportionate Share					
of Contributions		161,581		240,449	
District Contributions Subsequent to the		,		•	
Measurement Date		1,152,137		-	
Total	\$	1,635,639	\$	2,330,885	

Deferred outflows of resources reported \$1,152,137 related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to the GERF pensions will be recognized in pension expense as follows:

	Pension
	Expense
Year Ending June 30,	Amount
2021	\$ (542,535)
2022	(1,019,461)
2023	(304,106)
2024	18,719
Thereafter	-

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### D. Pension Costs (Continued)

#### 2. TRA Pension Costs

At June 30, 2020, the District reported a liability of \$50,749,955 for its proportionate share of the TRA's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the TRA in relation to total system contributions, including direct aid from the state of Minnesota, City of Minneapolis, and Special School District No. 1, Minneapolis Public Schools. The District's proportionate share was 0.7962% at the end of the measurement period and 0.7821% for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to the TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

Description		Amount		
District's Proportionate Share of the TRA		_		
Net Pension Liability	\$	50,749,955		
State's Proportionate Share of the Net Pension				
Liability Associated with the District		4,491,418		
Total	\$	55,241,373		

For the year ended June 30, 2020, the District recognized pension expense of \$15,869,564. It also recognized \$341,386 as a decrease to pension expense for the support provided by direct aid.

At June 30, 2020, the District reported its proportionate share of the TRA's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred utflows of	Deferred Inflows of		
Description	R	esources	Resources		
Differences Between Expected and Actual					
Economic Experience	\$	7,216	\$	1,232,318	
Changes in Actuarial Assumptions	4	42,708,222		67,326,400	
Net Difference Between Projected and Actual					
Earnings on Plan Investments		-		4,205,622	
Changes in Proportion and Differences Between					
District Contributions and Proportionate Share					
of Contributions		3,249,478		50,844	
District Contributions Subsequent to the					
Measurement Date		3,596,701		-	
Total	\$ 4	49,561,617	\$	72,815,184	

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### D. Pension Costs (Continued)

#### 2. TRA Pension Costs

A total of \$3,596,701 reported as deferred outflows of resources related to pensions resulting from district contributions to the TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to the TRA pensions will be recognized in pension expense as follows:

Donoion

	Pension
	Expense
Year Ending June 30,	Amount
2021	\$ 3,769,967
2022	598,389
2023	(18,301,117)
2024	(13,044,932)
2025	127,425
Thereafter	-

#### E. Actuarial Assumptions

The total pension liability in the June 30, 2019, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

	General	
	Employees	
Assumptions	Plan	TRA
Inflation	2.50% per Year	2.50% per Year
Salary Growth	3.25% per Year	2.85% for 10 years and 3.25% thereafter
Investment Rate of Return	7.50%	7.50%

PERA Salary increases were based on a service-related table. PERA mortality rates for active members, retirees, survivors, and disabilitants for all plans were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. PERA cost of living benefit increases after retirement for retirees are assumed to be 1.25% per year for the General Employees Plan.

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### E. Actuarial Assumptions (Continued)

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies. The most recent six-year experience study in the General Employees Plan was completed in 2015. Economic assumptions were updated in 2017 based on a review of inflation and investment return assumptions.

TRA preretirement mortality rates were based on the RP-2014 white-collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP-2015 scale. Postretirement mortality rates were based on the RP-2014 white-collar annuitant table, male rates set back three years, and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale. Post-disability mortality rates were based on the RP-2014 disabled retiree mortality table, without adjustment. TRA cost of living benefit increases 1.0% for January 2019 through January 2023, then increasing by 0.1% each year up to 1.5% annually.

TRA assumptions are based on the full experience study dated June 2015 and the study of the economic assumptions presented to the Board in November 2017.

The following changes for General Employees Fund occurred in 2019:

#### Changes in Actuarial Assumptions:

The mortality projection scale was changed from MP-2017 to MP-2018.

#### Changes in Plan Provisions:

 The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

The following changes in actuarial assumptions for TRA occurred in 2018:

- The COLA was reduced from 2.0% each January 1 to 1.0% effective January 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### E. Actuarial Assumptions (Continued)

- Augmentation in the early retirement reduction factors is phased out over a fiveyear period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to 0% beginning July 1, 2019.
   Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018.
   Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next four years, (7.92% in 2019, 8.13% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

The state Board of Investment, which manages the investments of PERA and TRA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Long-Term Expected Real
Target Allocation	Rate of Return
35.50 %	5.10 %
25.00	5.90
20.00	0.75
17.50	5.90
2.00	-
100.00 %	
	35.50 % 25.00 20.00 17.50 2.00

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### F. Discount Rate

The discount rate used to measure the PERA General Employees Plan liability in 2019 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the General Employees Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The discount rate used to measure the TRA pension liability was 7.50%. There was no change from the prior measurement date The projection of cash flows used to determine the discount rate assumed that employee contribution will be made at the fiscal year 2019 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

#### G. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

Description	 Decrease in iscount Rate	Cu	rrent Discount Rate	 % Increase in iscount Rate
General Employees Plan Discount Rate	6.50%		7.50%	8.50%
District's Proportionate Share of the General Employees Plan Net Pension Liability	\$ 19,096,010	\$	11,615,958	\$ 5,439,689
TRA Discount Rate District's Proportionate Share of the TRA Net Pension	6.50%		7.50%	8.50%
Liability	\$ 80,907,838	\$	50,749,955	\$ 25,885,226

#### NOTE 6 DEFINED BENEFITS PENSION PLANS – STATE-WIDE (CONTINUED)

#### H. Pension Plan Fiduciary Net Position

Detailed information about the GERF's fiduciary net position is available in a separately issued PERA financial report. That report may be obtained on the PERA website at www.mnpera.org; by writing to the PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103; or by calling (651) 296-7460 or (800) 652-9026.

Detailed information about the TRA's fiduciary net position is available in a separately issued TRA financial report. That report can be obtained at the TRA website at www.MinnesotaTRA.org; by writing to the TRA at 60 Empire Drive, Suite 400, St. Paul, Minnesota 55103; or by calling (651) 296-2409 or (800) 657-3669.

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLAN

#### A. Plan Description

The District provides post-employment benefits to certain eligible employees through the OPEB Plan, a single-employer defined benefit plan administered by the District. Management of the plan is vested with the School Board of the District. All post-employment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements.

The District administers a defined benefit Post-Employment Benefits Trust Fund. The assets of the plan are reported in the District's financial report in the Post-Employment Benefits Trust Fund, established by the District to finance these obligations. The plan assets may be used only for the payment of benefits of the plan, in accordance with the terms of the plan. The plan does not issue a publicly available financial report.

#### B. Benefits Provided

All retirees of the District upon retirement have the option under state law to continue their medical insurance coverage through the District. For members of certain employee groups, the District pays for all or part of the eligible retiree's premiums for medical and/or dental insurance from the time of retirement until the employee reaches the age of eligibility for Medicare. Benefits paid by the District differ by bargaining unit and date of hire, with some contracts specifying a certain dollar amount per month, and some covering premium costs as defined within each collective bargaining agreement. Retirees not eligible for these District-paid premium benefits must pay the full district premium rate for their coverage.

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

#### B. Benefits Provided (Continued)

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees until the retiree reaches Medicare eligibility, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District's younger and statistically healthier active employees.

#### C. Contributions

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District.

#### D. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

Retirees and Beneficiaries Receiving Benefits	150
Active Plan Members	967
Total Members	1,117

#### E. Net OPEB Liability of the District

The District's net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2018. The components of the net OPEB liability of the District at year-end were as follows:

Total OPEB Liability	\$ 18,847,317
Plan Fiduciary Net Position	6,894,859
District's net OPEB Liability (Asset)	\$ 11,952,458
Plan Fiduciary Net Position as a Percentage	 
of the Total OPEB Liability (Asset)	37%

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

#### F. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2018, using the entry age method, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate 2.40%

Expected long-term investment return 2.10% (net of investment expenses)

20-year municipal bond yield2.40%Inflation rate2.50%Salary increases3.00%

Healthcare trend rate 6.25% grading to 5.00% over 5 years

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale.

The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

The District's policy in regard to the allocation of invested assets is established and may be amended by the School Board by a majority vote of its members. It is the policy of the School Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes allowable under state statute. The investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

#### F. Actuarial Methods and Assumptions (Continued)

The target allocation and best-estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Domestic Equity	10.00 %	3.00 %
Fixed Income	85.00	2.00
Private Equity	-	5.20
Cash and Equivalents	5.00	1.00
Total	100.00 %	
Reduced for Assumed Investment Expense		-
Net Assumed Investment Return (Weighted Avg, Ro	unded to 1/4%)	2.10 %

#### G. Concentrations

At year-end, the District's OPEB plan held investments in the states of Louisiana and California that represented 5% or more of the OPEB plan's fiduciary net position.

#### H. Rate of Return

For the current year ended, the annual money-weighted rate of return on investments, net of investment expense, was 2.50%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### I. Discount Rate

The discount rate used to measure the total OPEB liability was 2.40%. The projection of cash flows used to determine the discount rate was determined by projecting forward the fiduciary net position (assets) as of the valuation date, increasing by the investment return assumption, and reducing by benefit payments in each period until assets are exhausted. Expected benefit payments by year were discounted using the expected asset return assumptions for the years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the 20-year municipal bond rate. The equivalent single rate is the discount rate. The contribution and benefit payment history, as well as the funding policy have also been taken into account. The District discount rate used in the prior measurement date was 3.10%.

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

J. Changes in the Net OPEB Liability

	Total OPEB Liability		an Fiduciary et Position	Net OPEB Liability (Asset)		
Beginning Balance	\$	17,897,035	\$ 7,591,507	\$	10,305,528	
Changes for the Year:						
Service Cost		836,134	-		836,134	
Interest		567,066	-		567,066	
Assumption Changes		435,311	-		435,311	
Contributions - Member		-	122,939		(122,939)	
Net Investment Income		-	191,581		(191,581)	
Benefit Payments - Employer Financed		(888,229)	(888,229)		-	
Benefit Payments - Member Financed		-	 (122,939)		122,939	
Total Net Changes		950,282	(696,648)		1,646,930	
Ending Balance	\$	18,847,317	\$ 6,894,859	\$	11,952,458	

Assumption changes since the prior measurement date include the following:

- The expected long-term investment return was changed from 2.60% to 2.10%.
- The discount rate was changed from 3.10% to 2.40%.
- K. Net OPEB Liability Sensitivity to Discount and Healthcare Cost Trend Rate Changes

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	(1.40%)	(2.40%)	(3.40%)
Net OPEB Liability (Asset)	\$ 12,688,529	\$ 11,952,458	\$ 11,206,940

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

	Healthcare Cost								
	1% Decrease	Current Trend	1% Increase						
	(5.25%	Rates (6.25%	(7.25%						
	Decreasing to	Decreasing to	Decreasing to						
	4.00% over 5	5.00% over 5	6.00% over 5						
	Years)	Years)	Years)						
Net OPEB Liability (Asset)	\$ 10,371,114	\$ 11,952,458	\$ 13,743,231						

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

L. OPEB Expense and Related Deferred Outflows of Resources and Deferred Inflows of Resources

For the current year ended, the District recognized OPEB expense of \$745,214. As of year-end, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		Deferred		Deferred		
	O	utflows of		Inflows of		
Description	R	esources	Resources			
Difference Between Expected and Actual Experience	\$	-	\$	1,444,921		
Change of Assumptions		442,829		211,259		
Net Difference Between Projected and Actual Investment Earnings		-		25,701		
Contributions Between Measurement Date and Reporting Date		N/A		N/A		
Total	\$	442,829	\$	1,681,881		

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Future
Year Ending June 30,	Recognition
2020	\$ (467,037)
2021	(475,433)
2022	(377,212)
2023	80,630_
Total	\$ (1,239,052)

#### NOTE 8 FLEXIBLE BENEFIT PLAN

The District has a flexible benefit plan, which is classified as a cafeteria plan (the Plan) under § 125 of the IRC. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pretax dollars withheld from payroll checks to the Plan for healthcare and dependent care benefits. Payments are made from the Plan to participating employees upon submitting a request for reimbursement of eligible expenses actually incurred by the participant.

Before the beginning of the Plan year, which is from July 1 to June 30, each participant designates a total amount of pretax dollars to be contributed to the Plan during the year. At June 30, the District is contingently liable for total contributions to the medical reimbursement portion of the Plan, whether or not such contributions have been made.

#### NOTE 8 FLEXIBLE BENEFIT PLAN (CONTINUED)

All assets of the Plan are held in a separate bank account and are administered by an employee of the District. Payments of insurance premiums (health, dental, life, and disability) are made by the District directly to the designated service providers. These payments are made on a timely basis and are accounted for primarily in the District's self-insurance funds. The medical reimbursement and dependent care activity in the financial statements is accounted for in the General Fund.

All property of the Plan and income attributable to that property is solely the property of the District, subject to the claims of the District's general creditors. Participants' rights under the Plan are equal to those of general creditors of the District in an amount equal to the eligible healthcare and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

#### NOTE 9 INTERFUND BALANCES AND TRANSACTIONS

#### Interfund Receivables and Payables

The District had the following interfund receivables and payables at June 30, 2020:

Due 1	rom		Due to
Other_	Fund	Ot	her Fund
General Fund \$	-	\$	111,772
Fiduciary Funds:			
OPEB Irrevocable Trust Fund 1	111,772		
Total \$ 1	111,772	\$	111,772

These balances represent interfund amounts due to the General Fund relating to postemployment benefit costs to be reimbursed as of June 30, 2020. Such interfund balances are reported in the fund financial statements but are eliminated as necessary in the government-wide financial statements.

#### NOTE 10 COMMITMENTS AND CONTINGENCIES

#### A. Operating Lease – Transportation Terminal

The District entered into a lease agreement for a transportation terminal on June 25, 2020 effective July 1, 2020 through June 30, 2021. Monthly base payments requirements are \$40,000. The District is also required to pay taxes, utilities, insurance, operation, and maintenance costs. The District has the option to renew and extend the lease for three successive periods of twelve months each.

#### NOTE 10 COMMITMENTS AND CONTINGENCIES (CONTINUED)

#### B. Legal Claims

The District has the usual and customary types of miscellaneous legal claims pending at year-end, mostly of a minor nature and usually covered by insurance carried for that purpose. Although the outcomes of these claims are not presently determinable, the District believes that the resolution of these matters will not have a material adverse effect on its financial position. Additionally, the District is a defendant in a lawsuit with a former employee. Management and the District's legal counsel have determined an aggregate liability, which is reasonably possible to arise from the proceedings of up to \$750,000. The District will continue to assert its position in a defense against these claims.

#### C. Federal and State Revenues

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agency cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

#### NOTE 11 PRIOR PERIOD ADJUSTMENT

During fiscal year ended June 30, 2019 the District restated its beginning fund balance in the General Fund to reflect an overstatement of unearned revenue in the prior year. Beginning net position was also restated to reflect this overstatement. The effects of the prior period restatement are below.

	Governmental Activities	General Fund
Net Position, June 30, 2019, as Previously Stated	\$ (6,170,282)	\$ -
Fund Balance, June 30, 2019, as Previously Stated	-	20,999,539
Cumulative Affect of Prior Period Adjustment for Overstatement of Unearned Revenue	933,130	933,130
Net Position, June 30, 2019, as Restated	\$ (5,237,152)	
Fund Balance, June 30, 2019, as Restated		\$ 21,932,669

#### CHANGES IN SIGNIFICANT PLAN PROVISIONS, ACTUARIAL METHODS, AND ASSUMPTIONS

The following changes were reflected in the valuation performed on behalf of the Public Employees Retirement Association for the years ended June 30:

#### A. General Employees Fund

#### 2019 Changes

#### Changes in Actuarial Assumptions

The morality projection scale was changed from MP-2017 to MP-2018.

#### Changes in Plan Provisions

• The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

#### 2018 Changes

#### Changes in Actuarial Assumptions

- The morality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00% per year through 2044 and 2.50% per year thereafter to 1.25% per year.

#### Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00% to 3.00%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Postretirement benefit increases were changed from 1.00% per year with a provision to increase to 2.50% upon attainment of 90.00% funding ratio to 50.00% of the Social Security Cost of Living Adjustment, not less than 1.00% and not more than 1.50%, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

#### PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

#### 2017 Changes

#### Changes in Actuarial Assumptions

• The combined service annuity (CSA) loads were changed from 0.80% for active members and 60.00% for vested and nonvested deferred members. The revised CSA load are now 0.00% for active member liability, 15.00% for vested deferred member liability, and 3.00% for nonvested deferred member liability.

#### Changes in Plan Provisions

- The assumed postretirement benefit increase rate was changed for 1.00% per year for all years to 1.00% per year through 2044 and 2.50% per year thereafter.
- The state's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

#### 2016 Changes

#### Changes in Actuarial Assumptions

- The assumed postretirement benefit increase rate was changed from 1.00% per year through 2035 and 2.50% per year thereafter to 1.00% per year for all years.
- The assumed investment return was changed from 7.90% to 7.50%. The single discount rate changed from 7.90% to 7.50%.
- Other assumptions were changed pursuant to the experience study June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 % to 3.25% for payroll growth and 2.50% for inflation.

#### Changes in Plan Provisions

There have been no changes since the prior valuation.

#### 2015 Changes

#### Changes in Actuarial Assumptions

 The assumed postretirement benefit increase rate was changed from 1.00% per year through 2030 and 2.50% per year thereafter to 1.00% per year through 2035 and 2.50% per year thereafter.

#### Changes in Plan Provisions:

 On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increase the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the state's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

### CHANGES IN SIGNIFICANT PLAN PROVISIONS, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

The following changes were reflected in the valuation performed on behalf of the Teachers Retirement Association for the years ended June 30:

#### A. Coordinated Plan

#### 2019 Changes

#### Changes in Actuarial Assumptions

• There have been no changes since the prior valuation.

#### Changes in Plan Provisions

There have been no changes since the prior valuation.

#### 2018 Changes

#### Changes in Actuarial Assumptions

- The investment return assumption was changed from 8.5% to 7.5%.
- The price inflation assumption was lowered from 3.0% to 2.5%.
- The payroll growth assumption was lowered from 3.5% to 3.0%.
- The wage inflation assumption (above price inflation) was reduced from 0.75% to 0.35% for the next 10 years, and 0.75% thereafter.
- The total salary increase assumption was adjusted by the wage inflation change.
- The amortization date for the funding of the Unfunded Actuarial Accrual Liability (UAAL) was reset to June 30, 2048 (30 years).
- The mechanism in the law that provided the TRA Board with some authority is set contribution rates was eliminated.

#### Changes in Plan Provisions

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits).
   Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to 0% beginning July 1, 2019. Interest
  payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018.
  Interest due on payments and purchases from members, employers is reduced from 8.5% to
  7.5%, effective July 1, 2018.

#### TEACHERS RETIREMENT ASSOCIATION (TRA) (CONTINUED)

• The employer contribution rate is increased each July 1 over the next five years, (7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

#### 2017 Changes

#### Changes in Actuarial Assumptions

- The cost of living adjustment (COLA) was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045.
- Adjustment were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0% and the nonvested inactive load increased from 4.0% to 9.0%.
- The investment return assumption was changed from 8.0% to 7.5%.
- The COLA was not assumed to increase to 2.5% but remain at 2.0% for all future years.
- The price inflation assumption was lowered from 2.75% to 2.5%.
- The payroll growth assumption was lowered from 3.5% to 3.0%.
- The general wage growth assumption was lowered from 3.5% to 2.85% for 10 years followed by 3.25% thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

#### Changes in Plan Provisions

• There have been no changes since the prior valuation.

#### 2016 Changes

#### Changes in Actuarial Assumptions

- The cost of living adjustment was not assumed to increase (it remained at 2.0% for all future vears).
- The price inflation assumption was lowered from 3.0% to 2.75%.
- The general wage growth and payroll growth assumptions were lowered from 3.75% to 3.5%.
- Minor changes at some durations for the merit scale of the salary increase assumption.
- The pre-retirement mortality assumption was changed to the RP-2014 white collar employee table, male rates set back six years, and female rates set back five years. Generational projection uses the MP-2015 scale.
- The postretirement mortality assumption was changed to the RP-2014 while collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale.

#### TEACHERS RETIREMENT ASSOCIATION (TRA) (CONTINUED)

#### 2016 Changes (Continued)

- The post-disability mortality assumption was changed to the RP-2014 disabled retiree mortality table, without adjustments.
- Separate retirement assumptions for members hired before or after July 1, 1989 were created to better reflect each group's behavior in light of different requirements for retirement eligibility.
- Assumed termination rates were changed to be based solely on years of service in order to better fit the observed experience.
- A minor adjustment and simplification of the assumption regarding the election of optional forms of payment at retirement were made.

#### Changes in Plan Provisions

There have been no changes since the prior valuation.

#### 2015 Changes

#### Changes in Actuarial Assumptions

- The cost of living adjustment was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2037.
- The investment return assumption was changed from 8.25% to 8.0%.

#### Changes in Plan Provisions

The Duluth Teachers Retirement Fund Association was merged into TRA on June 30, 2015.
 This also resulted in a state-provided contribution stream of \$14.377 million until the System becomes fully funded.

#### 2014 Changes

#### Changes in Actuarial Assumptions

• The cost of living adjustment was assumed to increase from 2.0% annually to 2.5% annually once the legally specified criteria was met. This was estimated to occur July 1, 2031.

#### Changes in Plan Provisions

• The increase in the postretirement benefit adjustment (COLA) will be made once the System is 90% funded (on a market value basis) in two consecutive years, rather than just one year.

#### OTHER POSTEMPLOYMENT BENEFITS PLAN

#### 2019 CHANGES IN ACTUARIAL ASSUMPTIONS:

- The expected long-term investment return was changed from 2.60% to 2.10%.
- The discount rate was changed from 3.10% to 2.40%.

#### 2018 CHANGES IN ACTUARIAL ASSUMPTIONS:

- The healthcare trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale.
- The retiree plan participation assumption for participants not eligible for a pre-65 subsidy was changed from 50.00% to 40.00%.
- The expected long-term investment return was changes from 3.30% to 2.60%.
- The discount rate was changes from 3.50% to 3.10%.

#### 2017 CHANGES IN ACTUARIAL ASSUMPTIONS:

- The expected long-term investment return was changed from 2.30% to 3.30%.
- The discount rate was changed from 2.80% to 3.50%.

#### 2016 CHANGES IN ACTUARIAL ASSUMPTIONS:

- The healthcare trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality table was updated from RP-2000 projected to 2014 with Scale BB to the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale.
- The withdrawal table for all employees and retirement tables for only employees eligible to retire with Rule of 90 also were updated.
- The discount rate was changed from 4.00% to 2.80%.

### **Section III**

### Statistical

### STATISTICAL SECTION (UNAUDITED)

This part of Independent School District No. 834 comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	<u>Page</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	103
Revenue Capacity	
These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	111
Debt Capacity	
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	117
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	121
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to services the District provides and the activities it performs.	123
Sources: Unless otherwise noted, the information in these tables is derived from	om the

comprehensive financial reports for the relevant year.

## INDEPENDENT SCHOOL DISTRICT NO. 834 STILLWATER AREA PUBLIC SCHOOLS NET POSITION BY COMPONENT LAST TEN FISCAL YEARS (ACCRUAL BASIS OF ACCOUNTING) (UNAUDITED)

	Fiscal Year					
	2011	2012	2013	2014		
Governmental activities						
Net investment in capital assets	\$ 32,496,605	\$ 37,806,325	\$ 42,915,472	\$ 48,412,468		
Restricted	5,741,270	6,583,887	6,729,217	6,604,074		
Unrestricted	14,300,543	13,994,929	13,185,342	10,995,216		
Total Governmental Activities Net Position	\$ 52,538,418	\$ 58,385,141	\$ 62,830,031	\$ 66,011,758		

- Note 1: The District implemented GASB Statement No. 45 in fiscal 2009. The District reported a change in accounting principle as a result of implementing this standard that increased unrestricted net position by approximately \$16.3 million.
- Note 2: The District implemented GASB Statement No. 68 in fiscal 2015. The District reported a change in accounting principle as a result of implementing this standard that decreased unrestricted net position by approximately \$57.4 million.
- Note 3: The District reported a change in accounting principle in fiscal 2016 that reduced net position by approximately \$0.4 million.
- Note 4: The District implemented GASB Statement Nos. 74 and 75 in fiscal 2017. The District reported a change in accounting principle as a result of implementing these standards that decreased net position by approximately \$24.2 million.

Source: State of Minnesota School Tax Report

Note 1: A portion of the total spread levy is paid through various property tax credits, which are paid through state aids and have been included in collections. Legislative changes, beginning with taxes collectible in 2012, significantly reduced or eliminated the amount of tax credits paid through state aids.

Note 2: Delinquent taxes receivable are written off after seven years. The amount of collections has been adjusted to reflect the write-off of delinquent taxes receivable.

N/A for 2020 no testing due to COVID, also due to distance learning there was not sufficient data for the student survey.

- (1) Percent of students scoring at or above proficiency on the Minnesota Comprehensive Assessment Test (II).
- (2) For 2019 11th grade only.
- (3) Starting in 2012, Minnesota began using the federally-required adjusted cohort graduation rate model. This model follows students in a cohort throughout high school and determines if they graduate within four, five, or six years. The four-year graduation rate shows the number of students graduating from high school within four years after entering Grade 9.
