

CLUB EXCELLENCE was designed to increase cultural capital and cultivate artistic creativity through expression, engagement, and connectedness. While Broadway and Art venues remain shuttered, Excellence Community Schools has tapped into this enormous resource to offer a robust series of virtual courses led by a dynamic group of esteemed creative professionals and guest artists. This inspirational collaboration allows our scholars to engage in exciting courses that include spoken word, dance, musical theater, computer science, visual arts, fashion history, and African drumming.

Creative outlets and healthy physical activity are needed now more than ever, and this program offers a supportive community in which this can occur. Donations to this initiative support both exceptional programming and the artists who provide it. We are proud to be a part of such an inspiring team that supports the arts and our scholars.

Make a Donation Today

We appreciate any amount you can contribute. Thank you for your generosity!
