

Good afternoon DCS Family,

We have important information to share with you this afternoon on progress reports, PowerSchool and DCS Virtual.

### **Student Progress Reports**

Student Progress Reports have been completed and sent home for all K-12 in-person students, and can be found in the Parent Portal on PowerSchool for all in-person and DCS Virtual students in grades 3-12. Unlike Canvas, PowerSchool will give you the full view of your 3-12 student's progress year-long, as grades are posted. If you have not signed up for PowerSchool's Parent Portal, we encourage you to do so. Please contact your school directly with any questions.

### **DCS Virtual Video**

With DCS Virtual being a new offering to our school district, we put together a video to share. In the video, several staff members give a comprehensive overview of DCS Virtual, from the initial stages of planning to today, where 958 students are enrolled and attending classes. It is important that we share this information to all families, to clarify any misinformation and share the phenomenal efforts of our staff to bring this to life. DCS Virtual is a robust offering that Davie County Schools was proud to provide to meet the needs of our families. The video can be viewed [here](#).

We hope you have a wonderful weekend! Thank you!
