

## Communication November 5, 2020

Good evening DCS family,

Our message this evening includes calendar reminders and an important Veterans Day message for families.

Please be reminded that Monday, November 9 and Tuesday, November 10 are remote learning days for all students. Students will not report to school buildings on Monday and Tuesday. Wednesday, November 11 is a holiday for all students and staff. On Wednesday, we observe Veterans Day and honor the sacrifices of our wonderful veterans, and their families who have supported them. For those who have served this great nation, we say "Thank you." You are loved and appreciated by the American people, and your Davie County Schools family appreciates your service on this day and every day of the year.

Davie County Schools place much importance on this holiday not only to honor our veterans, but also to teach our students about the important role veterans play in the freedoms we enjoy every day. Unfortunately, the typical celebrations and ceremonies that we have become accustomed to at each school are not possible this year; however, schools are still planning activities and ways to show appreciation, making sure that the importance of this day is not lost in the pandemic. In fact, as we begin the holiday season this year, it is more important than ever to take every opportunity to honor and celebrate the people who are important to us.

With the first quarter complete for students, we encourage students and families to remain committed to being active and engaged with their academics. Teachers and administrators are working hard to make sure we are not only providing a safe and secure learning environment, but that the school day is productive and meaningful for our students both in school buildings and remotely. As always, we sincerely appreciate the support of families and the community for our students and staff. Thank you and have a wonderful evening!
