Our School

The Ecole française de Taipei was founded in 1989. In 1992, it merged with the British and German Schools to form Taipei European School (TES), which now consists of four Sections offering European curricula in the heart of Taiwan: the French, British Primary, German and British Secondary and High School Section. The French Section is the only French school in Taiwan, and since 2017 it has been offering its students the opportunity to take the French Baccalauréat diploma. The school's name in French is the Lycée français de Taipei.

The French Section offers schooling from Petite Section (3 years old) to Terminale (18 years old), all classes are accredited by the French Ministry of Education.

Accreditation

The French Section is accredited by the Agency for French Education Abroad (AEFE). TES is accredited by the Council of International Schools (CIS) and the Western Association of Schools and Colleges (WASC).

Student Body

Taipei European School has more than 1,700 students enrolled in its four Sections, representing 57 different nationalities and cultures. Almost 400 of those students are enrolled in the French Section.

Cultural and Linguistic Diversity

98% of TES French Section students follow the French-English bilingual pathway in primary school and attend daily Chinese language classes – giving our students the opportunity to master French, English and Chinese by the time they complete primary school. From 6ème (6th grade), students also have the option to study Latin. From 5ème (7th grade), they may choose an additional modern language: Spanish or German. In middle and high school, French Section students study English and Chinese alongside their German and British Section classmates following the British national, IGCSE and International Baccalaureate curricula.

► Curriculum

TES French Section classes follow the French national curriculum from Petite Section (nursery) to Terminale (12th grade). A cycle covers more than one grade and within each cycle there is a coherent set of learning goals and skills to be achieved. The curriculum is cyclical rather than linear which allows students to delve more deeply into each subject with each succeeding year. At TES French Section, the French curriculum is augmented by immersive linguistic pathways, which begin in primary school and continue through to Terminale, giving our students unrivalled language and intercultural skills and a unique learner profile, preparing them for university anywhere in the world.

► Examinations

The Brevet:

At the end of 3ème (9th grade), French Section students take the French National Diploma Brevet (DNB) exams to validate the end of their middle school studies.

The IGCSE:

At the end of 2nde (10th grade), French Section students sit the IGCSE exams in English. They may also sit the IGCSE in Chinese.

The IB:

In Terminale (12th grade), Section French students sit the IB exams in English. They may also sit the IB in Chinese.

The French Baccalauréat:

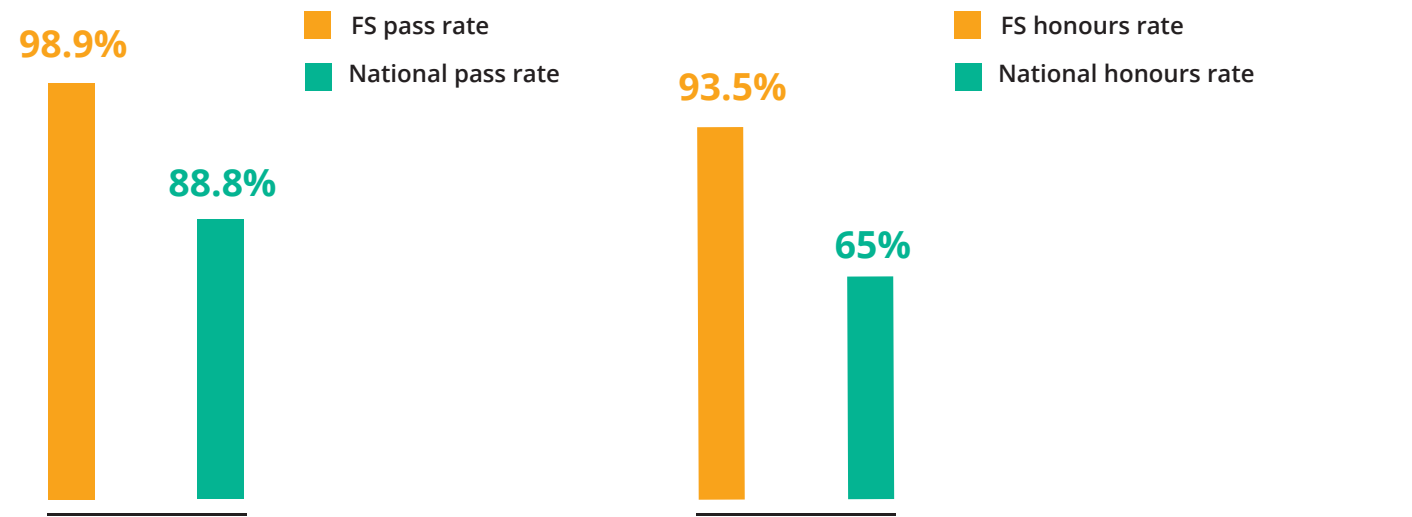

In 1ère and Terminale (11th and 12th grade), French Section students sit the French Baccalauréat exams.

► Examination Results

French Section students do consistently well in the English and Chinese IGCSE and IB exams. Our students have achieved a 98.9% pass rate, with a 93.5% honours rate in the Brevet for the past seven years.

The French Section opened its first 1ère (11th grade) class in 2016 and its first Terminale (12th grade) class in 2017. In the four years that FS students have sat the Bac exams, they have achieved a 100% pass rate, 90.3% of students achieving honours.
