Lakeview Elementary, Robbinsdale Middle School and Cooper High School

The Lakeview Experience

Lakeview Elementary is an authorized school for the International Baccalaureate Primary Years Programme (IBPYP). IBPYP takes an international approach to educating the whole child. Through a rigorous and diverse education, students learn problem-solving skills, appreciate different cultures and gain an understanding of their place in this world.

IBPYP provides the framework for curriculum in language arts, math, science/technology, social studies, arts and personal/social/physical education. The PYP focuses on inquiry-based learning. Students are encouraged to ask questions, think critically and make connections from learning to their everyday lives.

The teachers at Lakeview have common prep time each day as well as a collaborative hour each week as a group. This allows teachers to share information about what is working with each individual student and how to make future lessons more relevant. In addition, the administration, IB coordinator and teachers are required to participate in IB training.

At Lakeview, classrooms are very active, and students take part in hands-on learning that is experiential and engaging. Smartboards are in every classroom and grades 3-5 also have Chromebooks, which allows teachers to easily integrate technology into their classrooms. Technology contributes to more relevant, hands-on and engaging learning for students.

Whole School Spanish Instruction

Students at Lakeview Elementary receive instruction in the Spanish language and culture beginning in kindergarten. Instruction in an additional language is an integral aspect of the IBPYP. Instruction in language and culture helps broaden young minds in learning the value of global relationships.

Outstanding Curriculum

Lakeview Elementary implements a school-wide positive behavior framework that guides students to have success in common areas and in the classroom. We use "ROCK" which stands for:

- Responsibility/Respect
- Open-minded
- Caring
- Knowledge

We believe in building community; one way we do this is each and every morning with our classroom morning meeting. We believe in building strong relationships through a

positive learning environment that is preventative, responsive and provides coaching through classroom management and engagement issues.

Lakeview Elementary offers:

- Whole-class literacy block includes fluency, phonics, phonemic awareness, comprehension, vocabulary, spelling and writing supplemented with small group reading instruction at each child's instructional level, through the Daily 5 and CAFE framework.
- Math instruction teaches students to use physical objects to show how to solve equations. Students see concepts come to life through hands-on activities that helps with retention.
- Hands-on science activities teach the history and nature of science, earth and space science, physical science and life science.
- Social studies curriculum focuses on history, humanities and social sciences to develop social understanding and to prepare students to become responsible citizens.
- Art instruction K-5, is based on state and national standards. Our arts education continues to be a model for school systems across the country.
- Music education occurs at each grade level; string orchestra begins in grade four, and band is introduced in grade five.

Bridget Hall

Head Principal
Lakeview Elementary

Principal Hall is beginning her fifth year in Robbinsdale Area Schools. She previously served as an administrator in Minneapolis Public Schools for nine years. She taught for 11 years in Minneapolis and four years in the Bahamas.

Adventure Club

Offering before and after school care for children in kindergarten through fifth grade.
