

Do you know a student or teacher who  
needs internet access?

Carnegie Library of Pittsburgh is offering a hotspot lending program for remote learners in Allegheny County! After providing some general information to determine eligibility, adult learners and teachers and the parents, guardians or caregivers of PreK-12 students will be able to pick up a hotspot at a CLP branch location and borrow it through June 2021.

There is no fee to participate, no fines will be collected for overdue devices, and a library card is not required.

Call CLP today at 412-622-3114 or chat us through our website at [carnegielibrary.org](http://carnegielibrary.org) to see if you're eligible!
