Humanities at GMS

Humanities at GMS integrates Language Arts with Social Studies, an approach that develops in students an awareness of themselves, their community, and the world. The multicultural curriculum prepares students to become powerful communicators, creative as well as critical thinkers, and positive contributors to a just and pluralistic society. The Humanities Department nurtures and supports creativity, growth, and expression, and students develop the ability to speak and write thoughtfully and fluently.

In 6th grade we develop a deep sense of community through investigating diverse perspectives in texts, developing thoughtful questions, and connecting the human experience through writing. The 7th grade course uses history and literature as lenses to examine the human experience, focusing on American history and literature to gain an understanding of our individual, political, and social rights as citizens. In 8th grade we take a global view, with themes of identity and social justice.
