- To supplement the Core Curriculum and Desk Standards
- The use of multiple forms of media for effective research.
- Information literacy.
- Skills to promote life-long learning.

Reading Philosophy

- We strive to provide a balanced collection of books for a broad range of readers, ages, and interests.
- Not every book is appropriate for every reader. It is up to patrons to choose books that are appropriate for them and to self-censor their own reading.
- We celebrate the rights of the reader to choose to read, or not read, a book.

Collection Development

- Books and library resources will be purchased as determined by the yearly budget plan and in accordance with our Acquisition Policy.
- Our collection will include both middle age and Young Adult titles. We serve students from 12-15 years of age and will provide a broad range of reading material to fill all levels of student interests and developmental maturity.
- Multiple sources are used to evaluate books prior to purchasing including but not limited to: Horn Book List, School Library Journal, Goodreads, award winners, and starred reviews.
- [4I-202 Section 2 Collection Development](#)

Book Acquisition

- Materials selected for the library will support the curriculum and the recreational needs of students.
- Materials will be chosen for their accuracy, currency, and provision of balanced views.

Donations

- The library accepts donations of new books.
- The library book acquisition criteria will be used to determine if an item is processed into the library collection.
- Items that do not fit the criteria may be used as prizes, donated to teachers, or given to a recycling vendor.

Weeding & Inventory

- Weeding and inventory are necessary to keep the collection current and relevant.
- Informal weeding will take place continually throughout the year as needed.
- Materials may be removed from the collection for being outdated, inaccurate, damaged, duplicate, unused, or no longer part of the curriculum.
- A formal inventory will be done once a year.
- Missing items are tagged for removal from the system. If the item is missing for more than a year, it is deleted or replaced.

Library Advisory Committee

- The MPJH library has in place a school-level Library Advisory committee and a Collection Evaluation Committee that consists of no less than five members. These are under the direction of the school principal and chaired by the library media teacher. Committee members represent an equitable cross-section of school community stakeholders that may include "an administrator, department chair/or grade level teacher, parent representative, and student representative where appropriate". These committees "provide input, promote library programs, and may assist in challenges to materials at the school level". Challenged Library Materials

- Parents are encouraged and welcome to be involved with their child's reading choices.
- Occasionally the content of media material may be questioned. All concerns should be brought directly to the attention of the librarian.
- We follow the district policy for formal reconsideration of library materials.

Davis School District recognizes the right of parents under state law and District Policy *11IR-107 Recognizing Constitutional Freedoms in Public Schools*, to restrict their child's access to materials the parent deems inappropriate. **However, no parent has the right to make that decision on behalf of other students.** A parent desiring to restrict their own child's access to specific library books or materials shall submit the request in writing to the library professional at the school the child is attending. If the material is a required part of classroom curriculum activities, the parent must follow the procedures for waiver contained in 11IR-107 Section 14.
