

AVON PUBLIC SCHOOLS

Free Breakfast and Lunch for All Children

In-School and Fully-Remote Students

Can all families participate in this program???

- This is a federally funded program where the U.S. Department of Agriculture (USDA) has allowed free meals to be available to all children throughout the entire 2020-2021 school year.
- During the school year, whether they are learning at home or at school, children can continue to receive the delicious breakfasts and lunches they count on with all meals safely meeting their nutritional needs.
- The no cost meals are available in school and for pick up, making it convenient and economical for parents.
- Enjoying a school meal will make the school day seem a little more NORMAL and who can't use a little normal these days?
