

# Council Activities

The Student Council, whose primary purpose is to afford the students a voice in the administration of the school and to give them training in student government, has provided the students with a variety of programs. Among these were several dances beginning with the Annual Mixer in the fall. The assembly programs have included an address on Asia, and special programs on Armistice Day and Thanksgiving, the musical programs featured Joseph Harding, violinist, the Selfridge Field Band, and the song leader, George Carver.

The Council sponsored several projects which included the Homecoming, purchasing stage curtains, printing identification cards, providing noon-hour activities, purchasing a television antenna and preparing a handbook for students. The Council was able to carry out these projects and activities through its magazine drive.

Composed of twenty-eight representatives elected in the fall, the Student Council holds its campaign and election of officers in the spring of the year.
