

DISTRICT FACILITY USE AND COVID – 19 (CORONAVIRUS)

During the COVID-19 pandemic, some, or all, school facilities may or may not be available for use. Local, state and federal restrictions and guidelines will dictate which school facilities may be impacted. These restrictions and guidelines may change at any time.

If the district falls into the Oklahoma County red-level category in Covid-19 cases (greater than 50 cases per 100,000 population), all facility use will be closed to outside groups. Any district facility use scheduled by non-school groups during the time the district is in the red-level category will need to be postponed or cancelled. This will include district booster club activities.

Please note, many school district activities and events are sanctioned by organizations such as the OSSAA. It will be the sanctioning body of these activities or events that determines whether these activities or events are held, not the district. The sanctioning body may also choose to utilize district facilities for their events. If so, then the district facility will be available for their use, if need be.

Any allowed facility user should follow the safety guidelines set forth by local, state and federal authorities. Furthermore, facility users will need to clean and sanitize (if feasible) the facility after each use. The Choctaw-Nicoma Park School District reserves the right to deny, cancel or postpone any facility use due to COVID-19 concerns, guidelines or restrictions.
