Enrollment Process for Middle School Services

1. Your initial contact for enrollment in any therapy service begins with the therapist directly. They will provide you with an enrollment contract once a need for services has been established. Return the completed enrollment form to the therapist directly.
2. All students in middle school select two electives on RENWEB during TKA’s course selection period. Therapy will take place during one elective period. Because therapy replaces the elective 1-2 days a week (based on therapy needs), there are limited course offerings for your child to select as his/her elective choice. Below are options that would allow for therapy services. Please be sure to select one of the electives noted below for your therapy/elective combination during the RENWEB enrollment period.

Art Choir Keyboarding PE Study Hall

With School Permission: Band or Learning Strategies

These two electives may be therapy times with permission only. Please contact Mike Moore to discuss the possibility of scheduling therapy during these electives.

For scheduling or therapy questions specific to Middle School, please contact:
Mike Moore, Academic Counselor, at mmoore@tka.net or 561-686-4244, ext. 382.
