

Mrs. Hartman's SUPER NEWS!

JANUARY
2021

WOW!

Mighty Mathematicians

In math this month we are going to be working with fractions. We are starting with some review on the importance of fractions in the real world. Then we will move onto representing fractions visually. We will spend the rest of the month adding and subtracting fractions with different denominators.

Reading Wonders

In reading this month we are working in unit 3 of Wonders. We are currently reading a realistic fiction text about different cultures. Next we will read an information text about a dolphin who persevered through adversity. Through these stories we will be focusing on several skills and strategies to help create good readers. They are:

- Summarizing
- Identifying theme
- Identifying main idea and key details
- Ask and answer questions on reading

Remember to read 30 minutes daily

LEARN!

December/January Birthdays

- Ella – 12/29
- Eli – 1/22
- Carmelita – 1/23

Social Studies – Critical Thinkers

Students have been developing their critical thinking skills as we discuss economics, resources, and how to ask questions. Continue fostering these skills by asking your child questions that dig deeper and make them reflect on their decisions.
