Code Ninjas Afterschool Program

Questions about the program? See the flyer and contact information below.

The PTA is now sponsoring an exciting new program called Code Ninjas Edison which is a Virtual Afterschool Class for your children. If you would like to find out more about this program and what it has to offer, you can either complete the sign up by clicking the link below or giving them a call. They would love to hear from you and answer any questions or concerns you may have.

Code Ninjas Edison uses game development as a means to teach kids coding and robotics. At the present time, they are offering the following extensive programs which includes Scratch, Python, JavaScript, Roblox, Minecraft, etc., for the middle school students.

You can review the flyer below or visit their website for more details and sign up at https://bit.ly/CNAFTERSCHOOL.

Please note that Code Ninjas charges a participation fee which varies based on the program. Since the programs are set up as a fundraiser, they will give a portion of the proceeds back to the school.

Thank you all for your continued support to the PTA!
