# EAST CENTRAL HIGH SCHOOL

East Central High School is focused on high expectations for academic, personal, social, and emotional growth, ensuring that students graduate college- and career-ready. We provide a wide range of academic offerings, including access to AP courses that challenge and engage young scholars to reach their greatest academic potential. We provide a student-centered approach to instruction and use real-time academic data to drive instruction and improve student achievement.

East Central also offers a wide variety of electives such as JROTC, and Tulsa Tech-Foundations of Manufacturing classes that give our students the opportunity to gain experience and knowledge in alternative career fields. Through our partnership with Spirit AeroSystems, East Central seniors can participate in paid internships, gaining the skills they need to move into the aerospace industry.

“Being a student at East Central High School has allowed me to grow both as an individual and academically. I have had the opportunity to be part of the girls soccer team, school leadership class, as well as college-bound classes, enabling me to grow as a teammate with my peers and enhancing my leadership skills, preparing me for college and a career. At East Central High School, I have become a part of more than just a school, I have become part of a family.”

– East Central High School student

## MISSION

East Central is a school community where students and staff are safe, seen, valued, challenged, respected, and educated.

Thank you Tulsa for investing in every child and every school!

Because of you, every child in our district will see, feel, and experience the benefits of the 2021 Bond package. Tulsans have made a five-year \$414 million investment in safe and accessible schools; state-of-the-art educational technology; sustainable student transportation; and rigorous, engaging, and culturally sustaining learning experiences that prepare students for success in college and careers.

**At East Central High School, the 2021 Bond for Tulsa Public Schools includes:**

- » Stadium waterproofing, time clock replacements, and athletic equipment and uniforms for students.
- » Redesigning the cafeteria into a flexible, comfortable, multi-use space for students, teachers, and support professionals;
- » Upgrades to the auditorium lighting and sound system, new stage curtains, and repainting;
- » ADA-accessibility improvements in the auditorium, in school restrooms, and at building exits; and
- » Parking lot resurfacing and improvements to exterior lighting.
