- SEL Update
 - Parent Teacher Conferences upcoming
 - COVID 19 update
-
-

Item 7

Community Items

Current School Improvement Plan Goals

- 1) Students in grades K-6 will show typical or better growth in reading by 4% as measured by Acadience (Pathways to Progress), compared to 2019-2020 Middle of Year composite scores (End of Year scores not available due to soft-closure).
- 2) Students in grade 4-6 will increase math growth by achieving a score of 40 or better on the MGP Summative testing. Grades 1-3 will show an increase in math proficiency of 3% as compared to the 2019 End of Level testing.
- 3) Students will receive lessons and participate in activities using recently adopted science curriculum to improve science knowledge, understanding, and proficiency.
- 4) Maximize student growth and achievement in reading, math, writing, and science content areas by providing teacher development opportunities, promoting instructional rigor, and continued use of classroom technology.
