

Marion L. Steele High School
2021-2022 Scheduling Information for Rising Freshmen

Dear Student and Parent/Guardian,

Please read this entire packet to assist you with scheduling for the 2021-2022 school year. Course selection is one of the most important processes students undertake during high school. Choosing the correct courses with input from parents, teachers, and your school counselor is critical to an enjoyable and successful experience as you prepare for life after high school. In choosing courses for next year, you must also consider graduation requirements, college admission requirements, career interests, and appropriate academic challenge/progression for you.

Included in this information is a Course Registration sheet. This sheet lists each course a student may take next year by subject. While reviewing this sheet, please visit the Program of Studies located on the Steele website. You will find the link on the main webpage, the School Counselors tab, and on the Steele Documents page which is located under the “About Us” tab. The Program of Studies includes detailed course descriptions, pre-requisites, graduation requirements, and other essential information to the scheduling process.

In addition to the information found in the Program of Studies, here are some other important things to consider:

- Each full-time student must schedule a minimum of five credits during the school year.
- Student-athletes must meet the OHSAA eligibility requirements.
- Finalized course offerings will be determined by total student enrollment. Courses that have low enrollment could be subject to cancellation.
- Students should carefully consider their choices and fully understand the prerequisites for each course. This is especially important for students interested in CCP courses who have to enroll in LCCC and take the appropriate placement test.

2021-2022 Scheduling Timeline	
January 19 - 29	Counselors will be meeting with onCampus students during their first period classes. Students on eCampus will receive an email invitation for a virtual meeting. Please bring your Course Registration sheet with you to your scheduling meeting.
January 14 - 8th grade students/parents	8th grade scheduling video will be available online on the Steele homepage, and a Q&A session will be available 5:30-6:30 for 8th grade parents via Zoom (link available on the website)
February 1-3	Current 8th graders schedule w/counselors @ AJH

If you have any questions, please do not hesitate to contact your school counselor.
