

Returning Admissions Tests via Adobe Scan App for Cell Phones

Scan and email all completed tests and the completed Honor Statement using the Adobe Scan App if you do not have access to a scanner either at home or your local mailing store, such as UPS or FedEx.

- Visit the Adobe website for instructions on how to use the Adobe Scan App at: <https://www.adobe.com/devnet-docs/adobescan/android/en/scan.html#scanning-quick-steps>
- Watch this short how-to video on YouTube for scanning tips: https://www.youtube.com/watch?v=tsDuKTnRGU&feature=emb_logo

When scanning and returning the completed tests, you should:

- Return your child's tests and Honor Statement when all tests have been completed
- Scan each test as one separate file with a filename that includes your child's name and subject of the test
- Refer to the letter and the Honor Statement for all return instructions

Email address to send scans: admissionstests@wis.edu
