

## How to access MS Teams from your X box One

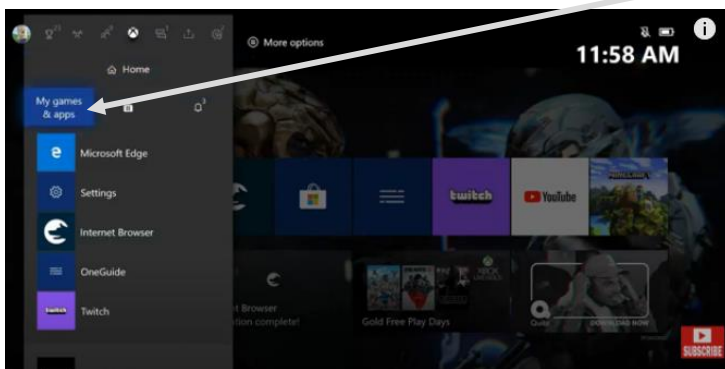

Microsoft Edge browser should already be installed on your X box, as it comes as standard.

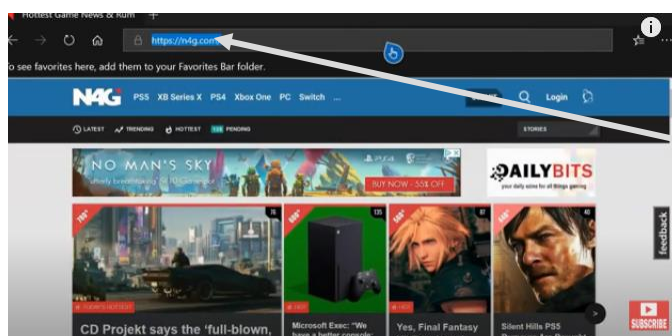

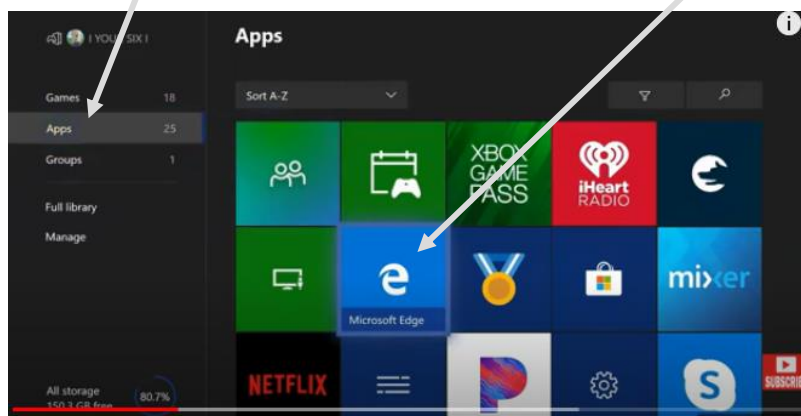

The App has this symbol.

### If it is not installed:

- 1) Click the Xbox button and then click “my games and apps”

- 2) Click Apps then on the left hand side, find the Microsoft Edge symbol

Type office.com into the address bar, then log in with your school email address.

## Common browser functions for Xbox

Xbox One's version of Internet Explorer can be accessed using the **left analog stick** to control a pointer and the **right stick** to control scrolling.

To get to the address bar, press the **View button**. The **A button** is used for mouse clicks. The **B button** navigates back a page.

Clicking **once on the left stick** zooms out the maximum distance, **clicking again** zooms in the maximum distance.
