

## When should I consider Extended Learning?

If your child...

- displays advanced thinking skills.
- demonstrates knowledge of many different things.
- quickly sees why things happen and what causes them to happen.
- understands new ideas or subjects with little effort.
- shows a great deal of curiosity.
- sees and creates patterns in areas such as speech, art, music, numbers and nature.
- continues to work on a project regardless of time or space limitations.
- obsesses in an interest area.
- insists on perfection.
- recognizes the humor in different situations.
- makes connections.
- perceives and observes beyond his/her years.
- approaches ideas and problems from a number of perspectives.
