SEPTEMBER 2021**

RGS

BURSARY PRINCIPLES

FOR ENTRY IN SEPTEMBER 2021
Newcastle upon Tyne Royal Grammar School

THE PRINCIPLES

The Royal Grammar School (RGS) is passionately committed to ensuring access to its fast-paced, challenging academic curriculum for boys and girls from the widest possible range of backgrounds (see the school's [ADMISSIONS POLICY](#)). In order to provide financial support for those candidates who would not otherwise be able to take up the offer of a place for which it judges them academically suited, the school has, in recent years, set up an active **BURSARY CAMPAIGN**. It is grateful to a number of trusts and benefactors who fund additional bursaries. The efforts of the campaign and the support from its benefactors made it possible to provide financial assistance in excess of £1,000,000 this current year (2020-21) to fund bursaries for 82 *students, 66 of whom received support at a level of 90% or above.*

RGS bursaries are strictly means-tested and are awarded to a maximum of 100% of the fees. Documentary evidence of family income, assets and expenditure (including the number of siblings and expenses related to them) will be required, if your child successfully reaches stage 3 of the Bursary application process. The Trustees intend that once the bursary has been offered, it will remain in force throughout the student's time in the school subject to satisfactory attendance, work, progress, and behaviour, and an annual review of the family's changing circumstances.

It is recognised that judgements about what sacrifices a family should make to pay school fees will be personal. However, the school has a duty to ensure that its limited charitable resources are directed towards the most deserving cases and for this reason a bursary is not intended to support families that, with reasonable financial and personal sacrifices, could have otherwise afforded paying the full fee.

PLEASE NOTE:

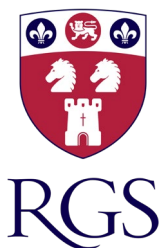

The bursary is intended to go towards payment of fees and does not normally cover other supplementary costs such as uniform, lunches and trips, which must be paid in accordance with the terms and conditions of the school; and a voluntary reduction in family income will not be matched by an increase in the level of assistance. For example if parents give up employment by choice during their child's time in the school.

RGS OFFERS ONLY MEANS-TESTED BURSARIES. There are no internal merit or competitive scholarships of any kind except the specialised Sixth Form **REECE ENGINEERING SCHOLARSHIPS**. Details of these can be obtained from the Head of Admissions .

VALUE OF BURSARIES

It is not possible to publish a precise scale relating family income to the level of help available, since so many different factors are taken into account when considering the award and fees for the following year are not announced until Easter. However, it is fair to say that for the current year a family with an annual income from all sources of less than £35,100 and no other meaningful assets, could expect to be offered a bursary at or close to 100% of the fees. As the family income above this amount increases, the smaller the level of help that is available. Currently, a family with a total income from all sources in excess of £61,445 would not normally be eligible for any bursary assistance.

Any parents who would like to find out more about the value of bursaries and what one might mean in their case are welcome to talk in confidence to the Director of Finance and Operations or Finance Officer (see details below). Families can be assured that, at all stages, the information they supply remains confidential to a limited number of staff who deal

with bursaries.

Once children start in school with a bursary, students and teachers alike are quite unaware of those who have bursaries - with the exception of the Bursary Access Officer and the relevant Head of Year - and those whose parents pay full fees.

RGS has a Bursary Access Officer to assist in the assessment process, which may include a home visit; in the case of some externally funded bursaries, a home visit is a mandatory part of the assessment process. Their role will not be to check-up on families, but to judge how the school can help potential bursary holders and their families to make the most of the opportunities offered by the RGS.

PROCEDURE

Bursaries are offered only at all main entry points to the school: Years 3, 5, 7 and Sixth Form. How many will be offered depends on the bursary funds available.

- Parents should complete the school's registration form and indicate that they wish to be considered for a bursary.
- Parents will be asked to complete an online form with basic information, which will enable eligibility for a bursary to be assessed. Parents will be informed if they are eligible for bursary assistance.
- The applicant will need to participate in the academic assessment process and satisfy the school's academic requirements. If they are successful, the parents will be asked to provide supporting documentary evidence of their financial position.
- The level of assistance will be assessed and matched to the available funds and if bursary funds are available an offer will be made for a bursary place at the school.
- Any children who satisfy the school's academic requirements but are not fortunate enough to be among the few selected for a bursary will not automatically be offered a fee paying place however should your financial situation change you can request for your child to be added to the waiting list as their assessment will be valid for two terms.

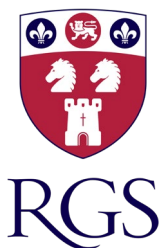

Inevitably demand for bursaries will exceed the supply available and there are considerably more applicants for bursaries than there are bursaries available. *This means that, even though applicants may satisfy the school's academic requirements (i.e. pass the exam and interview) and their family may qualify for financial assistance, they may still not be awarded a bursary, simply because there are not enough available. It is important that parents and candidates appreciate the likelihood of being disappointed.*

Hard choices have to be made. In allocating bursaries, the school will consider all the information gained about candidates during the selection process. Although their examination and interview performance will be an important factor, other aspects will also be taken into account:

- Their individual need for the kind of education RGS offers.
- Other talents or aptitudes they might develop at, and contribute to, the school.
- Evidence of commitment and tenacity in a field of activity (academic or otherwise) that demonstrates that they would make the most of the opportunities on offer at RGS.

When the school offers places, parents who have applied for a bursary will also receive a response to that application.

PARENTS SHOULD BE AWARE THAT, IF THEY DO NOT APPLY FOR BURSARY ASSISTANCE AT THE TIME OF APPLICATION AND IN THE NORMAL TIMESCALE FOR APPLICATIONS AT THAT AGE-

RANGE, IT WILL NOT BE POSSIBLE TO CONSIDER ANY LATE APPLICATIONS.

SIXTH FORM SPECIALIST BURSARIES

A number of specialist bursaries may be awarded to boys and girls joining the RGS Sixth Form from a non-fee paying school who intend to study particular subjects at A level. Award of these bursaries follows the same principles and procedures outlined above. Normally these subjects will be:

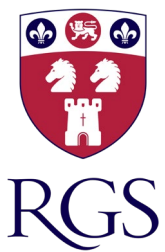

- Art and/or Design
- Music
- Chemistry
- Maths with Physics
- Medical and related sciences
- Science and/or technology/engineering*

* includes Sixth Form Reece Engineering Scholarships (see above).
